

Nutritional Influences on Illness

by David S. Katz, MD

Over the past decade, there has been a growing awareness of the role of nutrition in the prevention and treatment of illness. This awareness has been fueled by a number of factors, including the discovery of the role of antioxidants in preventing cancer and heart disease, the discovery of the role of omega-3 fatty acids in preventing heart disease, and the discovery of the role of vitamin D in preventing osteoporosis.

As a result of this growing awareness, there has been a corresponding increase in the number of people who are interested in improving their diet and lifestyle to prevent illness. This article will discuss the role of nutrition in the prevention and treatment of illness, and provide some practical advice on how to improve your diet and lifestyle.
