Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies

Keengwe, Jared, 2022-12-28 Digital content and learning technologies are now the norm at all levels of education However

there is evidence to suggest that this digital shift is on a spectrum and the spectrum impacts learners in different ways This means that some instructors who seek to integrate digital content may do so using traditional teaching methods while others use innovative practices to engage learners Those who integrate innovative digital practices align their instructional practice with theories to facilitate student centered pedagogies that support and improve the depth and scope of student learning A primary characteristic of student centered learning is facilitating collaborative learning using digital content and learning technologies to engage students as well as to enhance meaningful learning The Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies provides K 20 educators with alternative pedagogical and andragogical models that are innovative and incorporate digital content and learning technologies that promote constructive learning Further this book explores the relationship between constructivist learning digital content and learning technologies A primary argument in this book is that constructivist teaching strategies such as collaborative learning coupled with digital content and purposeful learning technologies could benefit student learning in ways that are different from those practiced in traditional non digital learning environments Covering topics such as instructional design self efficacy and library engagement this major reference work is an essential resource for pre service teachers teacher educators faculty and administrators of K 20 education librarians researchers and academicians Strategies Chandra Foote, Catherine Battaglia, Paul Vermette, 2014-05-22 This book demonstrates how student centered learning activities can help your middle and high school students meet curriculum standards Its vivid and authentic examples will appeal to you if you embrace active learning and want to apply constructivist methodologies in your classroom This book explains the links between constructivism and other innovative teaching practices such as cooperative learning multiple intelligences portfolio assessment curriculum mapping culturally relevant teaching and many others Applications of these practices in classrooms are demonstrated and displayed by sample lesson and unit plans summary charts classroom management models examples of student assessments Instructional Strategies for Middle and High School Social Studies Bruce E.
