Nicholas J. Goetzfridt, 1992-01-27 How have Pacific Islanders voyaged across the vast ocean around them and navigated their small crafts from one distant place to another for thousands of years This reference guide describes the literature on indigenous navigation and voyaging in the Pacific The annotated bibliography covers journal articles and books written in several languages including English German Japanese French Spanish and Dutch pointing to materials of both recent and early origin The entries are arranged alphabetically by author under Pacific General Polynesia Micronesia and Melanesia chapters Indexes to authors geographic areas and to subjects provide the reader with easy access to the entries and to a wealth of interesting research on a complex subject with many perplexing questions

Polynesian Seafaring and Navigation

Richard Feinberg, 2003-03-24 After fourteen months of field research in 1972 73 and an additional four months of field work with the Anutans in the Solomon Islands capital of Honiara in 1983 Richard Feinberg here provides a thorough study of Anutan seafaring and navigation In doing so he gives rare insights into the larger picture of how Polynesians have adapted to the sea This richly illustrated book explores the theory and technique used by Anutans in construction use and handling of their craft the navigational skills still employed in interisland voyaging and their culturally patterned attitudes toward the ocean and travel on the high seas Further the discussion is set within the context of social relations values and the Anutan s own symbolic definitions of the world in which they live

Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30 *Texts and Contexts* is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on Andrew Sharp and David Lewis Brij V Lal on K L Gillion and Peter Corris Hugh Laracy on Niel Gunson and Ta unga Lamont Lindstrom on Peter Worsley and Peter Lawrence Doug Munro on Douglas L Oliver R P Gilson J W Davidson and K R Howe Vincent O Malley on Keith Sinclair and Alan Ward Jon Osorio on Ralph Kuykendall and Gavan Daws Tom Ryan on Bernard Smith Jane Samson on W P Morrell and Deryck Scarr Francis West on Francis West and Gavan Daws Glyndwr Williams on O H K Spate

Sailing the Pacific Miles Hordern, 2014-05-20 Solo sailors are widely known to be a breed apart and here s an unforgettable book

that shows just how wide a berth they give themselves from the crowds Several years ago Miles Hordern a schoolteacher by training though he had run away to sea a few times before set sail on a twenty eight foot boat from New Zealand to South America the largest uninterrupted stretch of water on earth and into the dominion of icebergs cyclones and swells of monumental proportions The trip would take him through the fjords of Patagonia one of the last uncharted areas in the world then north on the Peru Current before he began his homeward voyage Sailing the Pacific recounts that trip in prose so vivid you can almost feel the spray sting your face and the deck heave beneath your feet Here is prose so hawser taut that it takes you back to Conrad Melville and Poe indeed all those writers whose works about the bounding main have launched countless imaginations Hordern pauses to consider those who have gone before him recounting the stories that have given life to this lonely and magisterial part of the world Writers adventurers fictional characters cartographers doomed voyages from history s pages from the Whaleship S S Essex to the HMS Bounty the South Pacific drew them all and in their way they left mark on its vast surface Part sailing yarn part adventure story part homage to an unending but beckoning horizon Sailing the Pacific will appeal to the sailor in each one of us whatever the way we choose to answer the ocean s call **The People of the Sea**

Paul D'Arcy,2006-01-01 Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea s importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups Students and scholars of Pacific history and environmental and cultural studies will welcome this re evaluation of the sea s influence in Oceanic history **BOOK JACKET Reinterpreting Exploration** Dane Kennedy,2013-12-09 This book provides a fresh and accessible introduction to recent debates about European exploration s role in the making of the modern world It challenges celebratory narratives of exploration concentrating instead on its contribution to imperial and scientific agendas and its dependence on indigenous agents

Astrology and Cosmology in the World's Religions Nicholas Campion,2012-06-11 Almost every religion uses some form of astrology some way of thinking about the sun moon stars and planets and how they hold significance for human lives on earth Astrology and Cosmology in the World s Religions offers an accessible overview of the astrologies of the world s religions placing them into context within theories of how the wider universe came into being and operates Back cover **Metacognitive Diversity**

Joëlle Proust,Martin Fortier,2018-03-30 Metacognition refers to our awareness of our own mental processes such as perceiving remembering learning and problem solving It is a fascinating area of research for psychologists neuroscientists anthropologists sociologists and philosophers This book explores the variability of metacognitive skills across cultures since a person s decision to allocate effort motivation to learn sense of being right or wrong in perceptions memories and other cognitive tasks depends on specific transmitted goals norms and values Across nineteen chapters a group of leading authors analyze the variable and universal features associated with these dimensions drawing on cutting edge evidence Additionally

new domains of metacognitive variability are considered in this volume including those generated by metacognition oriented embodied practices present in rituals and religious worship and culture specific lay theories about subjective uncertainty and knowledge regarding natural or supernatural entities It also documents universal metacognitive features such as children s earlier sensitivity to their own ignorance than to that of others people s intuitive understanding of what counts as knowledge and speakers sensitivity to informational sources independently of the way the information is linguistically expressed The book is important reading for students and scholars in cognitive and cultural psychology anthropology developmental and social psychology linguistics and philosophy Peoples of the Pacific Paul D'Arcy, 2017-05-15 Presenting the history of the inhabitants of the Pacific Islands from first colonization until the spread of European colonial rule in the later 19th century this volume focuses specifically on Pacific Islander European interactions from the perspective of Pacific Islanders themselves A number of recorded traditions are reproduced as well as articles by Pacific Island scholars working within the academy The nature of Pacific History as a sub discipline is presented through a sample of key articles from the 1890s until the present that represent the historical evolution of the field and its multidisciplinary nature The volume reflects on how the indigenous inhabitants of the Pacific Islands have a history as dynamic and complex as that of literate societies and one that is more retrievable through multidisciplinary approaches than often realized
