Pacifique Sud Bougainville A Tahiti:

La construction du discours colonial - L'empire français aux XIXe et XXe siècles, 2009-01-01 La question de la colonisation est redevenue un enjeu d'actualité et l'objet d'une demande sociale. Les controverses actuelles s'inscrivent dans des continuités qui expliquent en partie leur acuité et dont l'historicité est pourtant niée par certains acteurs. Au-delà des polémiques immédiates, l'ouvrage entend retracer le fil de l'élaboration de cette histoire des relations contemporaines entre la France et les mondes extra-européens qualifiés d'histoire de la colonisation d'histoire de l'impérialisme d'histoire du fait colonial etc. La multiplicité des expressions atteste de l'évolution des discours pour désigner une histoire qui a été plurielle, complexe et évolutive tant dans sa perception que dans son écriture. Encyclopedia of Exploration to 1800 Raymond John Howgego, 2003 A comprehensive reference guide to the history and literature of exploration, travel and colonization from the earliest times to the year 1800. The vast scope of the Encyclopedia of Exploration makes it a work unlike any other in its combination of historical, biographical and bibliographical data. It includes a catalogue of all known expeditions, voyages and travels as well as biographical information on the travellers themselves which places them in their historical context. The Encyclopedia of Exploration to 1800 is a massive undertaking resulting in a work that extends to 1.2 million words in almost 1200 pages. The 2327 major articles have generated index entries totalling more than 7500 names of persons or ships mentioned in the text. Within the text itself there are about 4000 cross references between articles. Altogether nearly 20 000 bibliographical citations accompany the articles. A considerable quantity of information in this book is presented here for the first time in English.

Historical Dictionary of the Discovery and Exploration of the Pacific Islands Max Quanchi, John Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure, belles and savages, romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics, navigation, hard grit, shipwreck and pure luck. The motivations were scientific and geographic but at the same time nationalistic and materialistic. A series on global exploration and discovery would not be complete without this book by Quanchi and Robson. It is ambitious and informative and includes the familiar names of Laperouse, Bougainville, Cook and Dampier as well as the intriguing stories of the Bounty, Mutiny, scurvy and the mysterious Northwest Passage, Terra Australis Ignotia and Davis Land. There are entries on first contacts, ships, navigational instruments, mapping and botany. The scene is carefully set in the introduction, the chronology spans several centuries and the extensive bibliography offers a guide to further reading. There are more than just dry facts in this book. It has a whiff of salt air, the clash of empires, cross-cultural beach encounters and personal adventure.

Histoire de l'Océanie Sarah Mohamed-Gaillard, 2015-09-02 L'Océanie se limite souvent dans l'imaginaire occidental un bout du monde réduit quelques clichés plus ou moins paradisiaques Cet espace océanique composé de milliers d'îles dispersées au cœur de l'océan Pacifique présente pourtant de nombreuses diversités et complexités Des premières approches des îles par les navigateurs européens aux enjeux contemporains dont elles sont investies cet ouvrage se veut une porte d'entrée l'histoire riche de l'Océanie Bousculant l'idée d'une région en marge du monde l'histoire des archipels bien que souvent méconnue souligne leurs connections aux dynamiques mondiales et appelle à centrer le regard pour envisager le monde depuis les îles

Archipelagos Julia Frengs, 2017-12-27 *Corporeal Archipelagos* Writing the Body in Francophone Oceanian Women s Literature offers an examination of contemporary literature from the French speaking Oceanian region through a focus on four of its most prolific women writers and the ways in which these writers negotiate identity construction through one of the most powerful identity markers in the region the body The question of the body how one is to make meaning through corporeality how one represents the body and what role the body plays in identity construction is not only a question with which feminists and postcolonial theorists have been grappling for nearly a half century The body is of integral significance to autochthonous Oceanian societies whose views of corporeality are not built upon a dualistic mind body binary that has influenced Western thought since the era of Descartes but rather on a cosmological epistemological axis that comprehends the body as intertwined with symbolic social and ideological understandings of identity Beginning with an analysis of the ways in which the Oceanian body has been portrayed and consumed as an exotic object of fascination throughout three centuries of European literature the book examines the myriad methods by which women writers break away from exotic myths and reappropriate the body as a powerful tool that enables them to confront the question of self definition in French speaking Oceania The authors examined in this book employ culturally racially and sexually specific bodies in the creation of an original confrontational literature that transgresses historically and culturally imposed boundaries audaciously inserting their voices the voices of Oceania into the postcolonial francophone literary scene
