Paideia Program An Educational Syllabus:

Paideia Program Mortimer J. Adler, 2010-06-15 Paideia is a holistic approach to life long learning with roots in ancient Greece The Paideia Program is based on the belief that the human species is defined by its capacity and desire for learning The program itself argues for a public education that is at once more rigorous and more accessible **Education and Mind in the Knowledge Age** Carl Bereiter, 2005-04-11 In this book Carl Bereiter a distinguished and well known cognitive educational psychologist presents what he calls a new way of thinking about knowledge and the mind He argues that in today s Knowledge Age education s conceptual tools are inadequate to address the pressing educational challenges and opportunities of the times Two things are required first to replace the mind as container metaphor with one that envisions a mind capable of sustaining knowledgeable intelligent behavior without actually containing stored beliefs second to recognize a fundamental difference between knowledge building and learning both of which are essential parts of education for the knowledge age Connectionism in cognitive science addresses the first need certain developments in post positivist epistemology address the second The author explores both the theoretical bases and the practical educational implications of this radical change in viewpoint The book draws on current new ways of thinking about knowledge and mind including information processing cognitive psychology situated cognition constructivism social constructivism and connectionism but does not adhere strictly to any camp Above all the author is concerned with developing a way of thinking about the mind that can usher education into the knowledge age This book is intended as a starting point **Thinking about Schools** Eleanor Blair Hilty, 2018-04-19 This book considers how American public education came to be the way it is today It helps students to have a better sense of how the past informs the present and how questions regarding who is served best by the schools tell us about the goals and aspirations of present day schools in America *Creative Teaching* James P.
