Pain And Pleasure A Study Of Bodily Feelings Second Expanded Edition:

Pain and Pleasure Thomas Szasz, 1988-12-01 In this work Dr Szasz dispels popular and scientific confusion about what pain and pleasure actually are Demonstrating the doubtful value of such distinctions as real and Imagined pain or physical and intellectual pleasure he analyses the basic concepts psychological philosophical and sociological involved in bodily feelings and discusses how these feelings are communicated Some of the subjects discussed in Pain and Pleasure include self mutilation sexual satisfaction hysterical anesthesia false pregnancy laughter homosexuality and dream analysis *The Human as the Other* Matthew Rukgaber, 2025-02-20 Philosophical anthropology investigates what makes us human but it has produced accounts that exclude some members of our species It relies often on non naturalistic philosophies of consciousness that locate humanity in the cognitive capacity to objectively represent things to reason teleologically and use tools to use symbols and language or to be self conscious and question existence This work pursues an alternative thoroughly naturalistic philosophical anthropology by combining Arnold Gehlen s theory of our behaviorally detached and institutionally structured impulses with Maurice Merleau Ponty s views on intersubjectivity affect sexuality and social institutions It locates the human within the unique structure of our capacity for feeling which produces an inclusive account of the human as the other or Homo alter Humans are deeply and thoroughly dependent on affective bodily communicative bonds in which other humans appear as sources of pleasure communicative meaning institutional norms and interpersonal approbation and disapprobation However this socio biological account of the human denies that human nature alone can prescribe the necessary form of institutions such as the home which is a criticism of any potential political anthropology A result of this focus on our social and affective natures is a novel account of shame as a response to institutional and interpersonal exclusion Failing to recognize humanity within our dependency on others and the structure of feeling is a widespread problem in philosophy and society in general that contributes to the social and metaphysical exclusion of disabled persons who might lack certain forms of consciousness and cognition Reimagining philosophical anthropology as the study of the unique way that human beings are socially present to one another this work challenges such dehumanization **Faith in Freedom** Thomas Szasz, 2017-07-12 The libertarian philosophy of freedom is characterized by two fundamental beliefs the right to be left alone and the duty to leave others alone Psychiatric practice routinely violates both of these beliefs It is based on the notion that self ownership exemplified by suicide is a not an inherent right but a privilege subject to the review of psychiatrists as representatives of society In Faith in Freedom Thomas Szasz raises fundamental questions about psychiatric practices that inhibit an individual s right to freedom His questions are fundamental Is suicide an exercise of rightful self ownership or a manifestation of mental disorder Does involuntary confinement under psychiatric auspices constitute unjust imprisonment or is it therapeutically justified hospitalization Should forced psychiatric drugging be interpreted as assault and battery on the person or is it medical treatment The ethical standards of psychiatric practice mandate that psychiatrists

employ coercion Forgoing such intervention is considered a dereliction of the psychiatrists duty to protect How should friends of freedom especially libertarians deal with the conflict between elementary libertarian principles and prevailing psychiatric practices In Faith in Freedom Thomas Szasz addresses this question more directly and more profoundly than in any of his previous works **Pharmacracry** Thomas Szasz,2003-09-01 The modern penchant for transforming human problems into diseases and judicial sanctions into treatments replacing the rule of law with the rule of medical discretion leads to a type of government social critic Thomas Szasz calls pharmacracry He warns that the creeping substitution of democracy for pharmacracryprivate personal concerns increasingly perceived as requiring a medical political responseinexorably erodes personal freedom and dignity Freudians and Schadenfreudians Jeffrey Berman,2024-08-22 Sigmund Freud can be a polarizing figure beloved by many and despised by some Focusing on eight key writers and scholars who either passionately loved or gleefully loathed Freud this book represents Freud s wide legacy the reach of his ideas their controversies and their ability still to provoke inspire confound outrage and compel The book begins by focusing on four highly prolific authors whose admiration for Freud is boundless Lionel Trilling Harold Bloom Kurt R Eissler and Peter Gay Berman then explores four more writers whose aim was not simply to debunk Freud and destroy his monstrous creation but to cast both into hell D H Lawrence Vladimir Nabokov Thomas Szasz and Frederick Crews Each chapter discusses the author s involvement with Freud exploring the continuities and discontinuities of his or her writings as well as offering snapshots of the writers suggesting how their personal and professional lives were inextricably related Berman draws out some surprising commonalities between the Freudolaters and Schadenfreudians going on to discuss the current state of psychoanalysis and the psychoanalytic credos by which contemporary analysts live *Anatomy of Masochism* June Rathbone,2012-12-06 Are dominance and submission inevitable in human relationships Believing that sadomasochism is becoming an ever more obtrusive phenomenon in developed countries the author surveyed 48 self declared sadomasochists 43 male 5 female and 35 controls 26 male 9 female in an effort to elicit information on early family relationships morale and sexual behavior and fantasy she also looks at the philosophy of masochism and its damaging effects *Human Behavior* ,1976 *Current Catalog* National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 **Pain** ,1990 **Pain** Murat Aydede,2005-12-02 Leading philosophers and scientists examine the puzzles of pain and consider how the study of pain might help us to have a better understanding of the larger issues of consciousness and psychological research
