Painters And The Derby China Works

Howell G. M. Edwards

Painters And The Derby China Works:

Painters and the Derby China Works John Murdoch, John Twitchett, 1987 **The Art Journal**, 1855 **Art-Union**, 1855 **The art journal London**, 1855 **The Ceramic Art of Great Britain from Pre-historic Times Down to the Present Day** Llewellynn Frederick William Jewitt, 1878 **Swansea and Nantgarw Porcelains** Howell G.M. Edwards, 2017-03-27 This book describes a holistic study of the porcelain manufactured at Nantgarw and Swansea in the first quarter of the 19th Century using both scientific analytical data and historical provenancing This porcelain is acclaimed as some of the finest and most translucent porcelain ever produced These two porcelain factories are linked through the artistic and creative activities of the enigmatic William Billingsley and had a strictly limited production over only three or four years during the period 1812 1820 The earliest chemical analysis of these porcelains were undertaken almost 100 years ago and are compared with the results of more recent analyses The chemical composition of these porcelains their artistic decoration and the struggle to maintain quality production is reviewed Scientific explanations are proposed for the characteristic Swansea duck egg porcelain translucency and for the Nantgarw iridescence The book is well illustrated throughout and affords a good basis for the further in depth study of Swansea and Nantgarw porcelains *"The" Ceramic Art of Great Britain from Pre-historic Times Down to the Present Day* Llewellynn Frederick William Jewitt, 1878 *The ceramic art of Great Britain, from pre-historic times* Llewellynn Frederick W. Jewitt, 1878 **The Wedgwoods** Llewellynn Frederick William Jewitt, 1865 The Farnley Hall Service: A Unique Survivor in Nantgarw Porcelain Howell G. M. Edwards, 2023-02-22 This book covers the discovery and the results of the analytical study of the composition of the Farnley Hall service involving both the embossed moulding and the decorative compositions The discovery of this missing porcelain service which was manufactured 200 years ago is a modern detective story in the preservation of cultural heritage whilst its physical analysis has identified some new data that need to be incorporated into correcting and expanding the literature that is used for the differentiation of porcelains by ceramic historians and museum conservators The importance of the Farnley Hall service discovery is that it provides the only example of such a Nantgarw Porcelain service that still resides in its original place of usage from 200 years ago it is therefore a unique example and is a very important part of our national cultural heritage It provides an illustration of the data that can be accessed from the application of inductive reasoning to elicit novel information about a manufactory whose work books no longer exist and its comparison with contemporary manufactories in the late eighteenth and early nineteenth centuries The concepts can be appreciated by experts and also by non technical readers This is the first time that such a detailed research approach has been adopted for any comparative ceramic project The book is therefore relevant for a specialist and non specialist readership including museum ceramics curators and collectors of the genre
