how Van Eyck achieved this realism revolve around the idea that he was the first to discover or refine the glazing technique Bol however argues that rather than being a fifteenth century refinement varnishing and glazing began centuries before Drawing from an extensive body of recipes Bol pieces together how varnishes and glazes were first developed as part of the medieval art of material mimesis Artisans embellished metalwork and wood with varnishes and glazes to imitate gold and gems infused rock crystal with oil resin and colorants to imitate more precious minerals and oiled parchment to transform it into the appearance of green glass Likewise medieval panel painters used varnishes and glazes to create the look of enamel silk and more The explorations of materials and their optical properties by these artists stimulated natural philosophers to come up with theories about transparent and translucent materials produced by the earth Natural historians influenced by medieval artists understanding of refraction and reflection developed theories about gems their creation and their optical qualities *The Art of Impressionism* Anthea Callen,2000-01-01 Drawing on scientific studies of pigments and materials artists treatises colourmen s archives and contemporary and modern accounts Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent She analyses the material constituents of oil painting and the complex processes of making entailed in all aspects of artistic production discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting studio practice and display Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them Callen argues that the real modernity of the Impressionist enterprise lies in the painters material practices BOOK JACKET *Acrylic Painting* Wendon Blake,1997-01-01 Comprehensive and richly illustrated survey by noted artist and teacher introduces acrylic colors and their characteristics discusses painting surfaces and how to prepare them lists painting tools and their performance and much more Step by step instructions and technical exercises for experimenting with major methods among them opaque transparent watercolor acrylic tempera mixed media and others 125 halftones 32 color illus **Seeing Through Paintings** Andrea Kirsh,Rustin S. Levenson,2000-01-01 This prize winning book offers the only comprehensive discussion available on materials techniques and condition issues in Western easel paintings from medieval times to the present An essential handbook for the pro and also a beautifully illustrated primer for the layperson Kirsh and Levenson teach the most valuable lessons about painting of all how meanings material and techniques are bound up together John Walsh former director J Paul Getty Museum Every element of Kirsh and Levenson s book is smart concise and informative It is the essential book on its subject Kenneth Baker San Francisco Examiner Chronicle A long overdue book with direct relevance for modern students of the history of art Libby Sheldon Burlington Magazine *The Industrial and Artistic Technology of Paint and Varnish* Alvah Horton Sabin,1917
