Pakistans Economic And Social Development The Domestic Regional And Global Context

José Maurício Domingues

Pakistans Economic And Social Development The Domestic Regional And Global Context:

Pakistan's Economic and Social Development S. Akbar Zaidi, 2004

Pakistan in Regional and Global Politics

Rajshree Jetly, 2012-04-27 Pakistan is at currently at the centre of regional and global geo strategic issues as a frontline state in the global war on terrorism It is seeking to project itself as a modern Islamic state that can engage both the Islamic bloc and the western world in the post 9 11 era This book addresses some questions under the broad rubric of International Relations and Security It focuses on four themes Pakistan and global security Pakistan s international relations politics and identity in Pakistan and economic development of Pakistan Leading international experts have contributed articles within the framework of these themes

Global Modernity, Development, and Contemporary Civilization José Mauricio

Domingues, 2013-07-03 This book investigates modern global civilization offering an alternative to post colonial theories and the multiple modernities approach as well as the civilizational theory linked to it It argues that modernity has become a global civilization that is heterogeneous and intertwined with other civilizations and also aims at a renewal of critical theory that is not US centric and Eurocentric focusing instead on China South Asia India and Latin America Brazil Dealing with the themes of centre periphery relations complexity including culture and religion democracy and emancipatory possibilities this book is based on general theoretical ideas such as collective subjectivity the interplay of memory and creativity and the concept of modernizing moves so as to deal with historical contingency

Pakistan's Nuclear Future Henry D.

Sokolski, 2009 Unfortunately a nuclear terrorist act is only one and hardly the most probable of several frightening security threats Pakistan now faces or poses We know that traditional acts of terrorism and conventional military crises in Southwest Asia have nearly escalated into wars and more recently even threatened Indian and Pakistani nuclear use Certainly the war jitters that attended the recent terrorist attacks against Mumbai highlighted the nexus between conventional terrorism and war For several weeks the key worry in Washington was that India and Pakistan might not be able to avoid war Similar concerns were raised during the Kargil crisis in 1999 and during the Indo Pakistani conventional military tensions that arose in 2001 and 2002 crises that most analysts including those who contributed to this volume believe could have escalated into nuclear conflicts The intent of this book is to conduct a significant evaluation of these threats Its companion volume Worries Beyond War published in 2008 focused on the challenges of Pakistani nuclear terrorism These analyses offer a window into what is possible and why Pakistani nuclear terrorism is best seen as a lesser included threat to war and terrorism more generally Could the United States do more with Pakistan to secure Pakistan s nuclear weapons holdings against possible seizure It is unclear This book argues that rather than distracting our policy leaders from taking the steps needed to reduce the threats of nuclear war we would do well to view our worst terrorist nightmares for what they are subordinate threats that will be limited best if the risk of nuclear war is reduced and contained

Law, State and Inequality in Pakistan

Muhammad Azeem, 2017-07-02 Through a detailed historical and empirical account of post independence years this book

offers a new assessment of the role of the judiciary in Pakistani politics. Instead of seeing the judiciary as helpless or struggling against an authoritarian state, it argues that the judiciary has been a crucial link in the creation of state and political inequality in Pakistan. This rubs against the central role given to the judiciary in developing countries to fix the corrupt politicians and stubborn bureaucracies in the World Bank's Good Governance paradigm and rule of law initiatives. It also challenges the contemporary legal and judicial discourse that extols the virtues of Public Interest Litigation. While the book's core analysis is a critique of the contemporary liberal legal project, it also adds to the critical tradition of social theory by linking political economy to a social theory of law. The theoretical aspect of the study is applicable to any developing society whose judiciary is going through foreign sponsored rule of law judicial reforms. *Issues in Pakistan's Economy* S. Akbar Zaidi, 2005. This book is the main text for post graduate courses on South Asia's development economic history and on its political economy. For researchers on Pakistan's economy, it is the key source for reference and covers a huge and diverse array of data, literature reviews, commentary and analysis. *State of Democracy in South Asia*, 2008. This report seeks to shift the locus of discourse on democracy away from the global North to most of the world. It does so by examining democratic experience in South Asia, a region marked by poverty, illiteracy, complex diversities and multiple and overlapping structures of social hierarchy, and by daring to ask not just what democracy has done to South Asia but also what South Asia has done to democracy. Based on the first ever social scientific survey of political opinions and attitudes across the five countries in the region: Bangladesh, India, Nepal, Pakistan, and Sri Lanka, the report offers a fresh analysis of the promise of democracy for the ordinary people, its institutional slippages, obstacles in its functioning, and its mixed outcomes. The report combines public opinion data with expert assessment, case studies, and dialogue with democracy activists. **BOOK JACKET**

Ciência & trópico, 2011. *Development, Poverty and Power in Pakistan* Syed Mohammad Ali, 2014-12-05. Rural development remains a major challenge for governments of developing countries such as Pakistan. While a broad range of state and donor interventions impact the lives of poor farmers who provide a significant proportion of the labour force, comprehensive consideration of these combined interactions remains inadequate. Focussing on Pakistan, this book discusses the political economy of agrarian poverty and underdevelopment in the region. The book provides an in-depth exploration of the combined impact of state and donor interventions as well as that of resistance attempts to alter the status quo within Pakistan. It questions the relevance of state institutions and policies contending with the problems of farmers in Pakistan and how donor-led policies and programmes also influence their lives. It draws on findings that have emerged from interviews of over 200 respondents, including government officials, donor agency representatives, and different categories of poor farmers during eleven months of fieldwork in the provinces of Sindh and Punjab. This research reveals some divergences between state and donor policies but finds more prominent convergences which in turn enable the landed rural elite to benefit from market-based and capital-intensive processes of agricultural growth without offering substantial opportunities for poor

farmers Reflecting the need to become less insular when discussing solutions to rural development and demonstrating how state policies and institutions can interconnect with donor funded programmes this book will be of interest to students and scholars of South Asian Politics and Development Studies

The China-Pakistan Economic Corridor of the Belt and Road Initiative Siegfried O. Wolf, 2019-06-20 This book focuses on the implementation of the China Pakistan Economic Corridor CPEC a multi billion dollar infrastructure development project intended to connect Asia with Europe the Middle East and Africa By introducing a new analytical approach to the study of economic corridors it gauges the anticipated economic and geopolitical impacts on the region and discusses whether the CPEC will serve as a pioneer project for future regional cooperation between and integration of sub national regions such as Balochistan Khyber Pakhtunkhwa the Federally Administered Tribal Areas and Gilgit Baltistan Further it explores the interests expectations and policy approaches of both Chinese and Pakistani local and central governments with regard to the CPEC s implementation Given its scope the book will appeal to regional and spatial sciences scholars as well as social scientists interested in the regional impacts of economic corridors It also offers valuable information for policymakers in countries participating in the Belt and Road Initiative or other Chinese supported development projects
