Palaeolithic Cave Art:

What Is Paleolithic Art? Jean Clottes, 2016-04-25 The noted archaeologist explores the varieties of prehistoric cave art across the world and offers surprising insights into its purpose and meaning What drew our Stone Age ancestors into caves to paint in charcoal and red hematite to watch the likenesses of lions bison horses and aurochs as they flickered by firelight Was it a creative impulse a spiritual dawn a shamanistic conception of the world In this book Jean Clottes one of the most renowned figures in the study of cave paintings pursues an answer to the why of Paleolithic art Discussing sites and surveys across the world Clottes offers personal reflections on how we have viewed these paintings in the past what we learn from looking at them across geographies and what these paintings may have meant and what function they may have served for their artists Steeped in Clottes s shamanistic theories of cave painting *What Is Paleolithic Art* travels from well known Ice Age sites like Chauvet Altamira and Lascaux to visits with contemporary aboriginal artists evoking a continuum between the cave paintings of our prehistoric past and the living rock art of today Clottes s work lifts us from the darkness of our Paleolithic origins to reveal surprising insights into how we think why we create why we believe and who we are

Superpositioning and hidden localities in art **Interpretation of prehistoric cave art in Europe** Difrène Madara, 2019-11-12 Essay from the year 2019 in the subject Archaeology grade A Kenyatta University language English abstract This essay offers a critical analysis of various explanations that have been suggested for the meaning of European Paleolithic rock art Rock or cave art has been recorded in Europe Americas Africa Australia and Asia In Europe some of the recorded forms of rock art date back some 36000 years ago However archaeological findings show that it is until 18000 years ago that the European rock art flourished This period is linked to the end of the Last Glacial Maximum 22000 19000 years ago as climatic conditions began to improve i e the most critical point of the Ice Age Nonetheless Upper Paleolithic rock art disappeared during the transition period between Paleolithic Mesolithic 12000 years as Ice Age environmental conditions faded After over a century of research on cave art there still exists no consensus on the meanings of these prehistoric arts Currently the widely accepted view on interpretation of the Upper Paleolithic art is that most cave images are manifestations of Shamanic rituals mediated through visionary experience of altered states of consciousness However the question on how and why art come it being in Upper Paleolithic during the Ice Age remains largely unanswered Berghaus argued that there is

no single answer to the question but rather several layers of answers highlighting the issues and relationships between art and rituals as well as behavioral social and cognitive issues within the human evolutionary environment *Cave Art* Jean Clottes, 2008-07-16 A comprehensive accessible guide to prehistoric art in Europe and beyond Interpreting Sapiens' Consciousness through Paleolithic Cave Art Gary J. Maier, 2023-08-08 This book is the first to identify an interpretive path through Paleolithic cave art that can provide plausible meaning to the animal figures in the Lascaux cave in France The artwork was created during a period described as the Creative Explosion spanning from 35 000 to 11 000 BC The author has found that the artists or shamans have left clear evidence of aspects of their worldview and by using ethological evidence such as a bison shedding its winter coat to identify spring as the season portrayed in a specific panel he adds a level of certainty to his interpretations In sum this book argues that the cave art describes the journey of the soul from the spirit world to the natural world and back and that it identifies a spectrum of consciousness involving the five traditional senses sight smell touch taste and hearing Moreover the book explores the hunting strategies employed early survival groups which are depicted in the cave art The role of the shamans impact on the artwork is also addressed Introduction to Palaeolithic Cave Paintings in Northern Spain Cesar Gonzales Sainz, Roberto Cacho Toca, Takeo Fukazawa, 2013-10 From 1997 to 2004 we executed Photographic VR shooting of Palaeolithic cave paintings in 23 major caves and about 150 Mobile Arts in 5 museums in Northern Spain as a co project between the University of Cantabria Spain and Texnai Inc Japan and the result was published in Spanish and English in 2003 by GOBIERNO de CANTABRIA as ARTE PALEOLITICO EN LA REGION CANTABRICA PALAEOLITHIC ARTS IN NORTHERN SPAIN with a DVD ROM of the image database This book is published based on these book and database in POD Publishing On Demand format For this publishing the images of cave paintings and mobile arts are scheduled to be published as the catalog editions in POD so that readers are able to see those images without PC And on June 15 2012 an extremely interesting report on the cave paintings of Northern Spain was published in Science The report was written by Prof Alistair Pike of University of Bristol UK and his colleagues and it was reported that Uranium series disequilibrium dating was executed that year for calcite deposits overlying art found in 11 caves in Northern Spain and the results demonstrated that some paintings of El Castillo extended back at least to the Early Aurignacian period with minimum ages of 40 8 thousand years for a red disk 37 3 thousand years for a negative hand It was surprising because if this dating is correct the red disk becomes about 4 000 years earlier than the paintings of Grotte Chauvet that has been said to be the world s oldest and not only that it can not be ruled out that the earliest paintings were created by Neanderthals which were estimated to present in the Cantabrian regions until at least 42 000 to 36 000 years B P This is our main reason why we decided to publish this book in POD Contents 1 The Art of Upper Paleolithic hunters Introduction to cave art in the Iberian Peninsula 2 Everyday art Upper Paleolithic decorated objects in the Cantabrian Region 3 The western Cantabrian Region Introduction to Paleolithic Cave Art in Asturias 3 1 Cueva de la PeOa de Candamo 3 2 Cueva de La Lluera I 3 3 Cueva de Tito
