Paleface The Philosophy Of The Melting Pot

Luke Gilfedder

Paleface The Philosophy Of The Melting Pot:

Paleface Wyndham Lewis, 1929 **Paleface** Wyndham Lewis, 1929 The irrepressible controversialist in a lively provocative exposition of racial problems mainly drawn from contemporary literature *Northrop Frye on Modern Culture* Northrop Frye, 2003-01-01 Preface xi Credits xv Abbreviations xvii Introduction xix The Modern Century 1 The Modern Century 3 I City of the End of Things 5 II Improved Binoculars 27 III Clair de lune intellectuel 48 The Arts 2 Current Opera A Housecleaning 73 3 Ballet Russe 76 4 The Jooss Ballet 79 5 Frederick Delius 83 6 Three Cornered Revival at Headington 87 7 Music and the Savage Breast 88 8 Men as Trees Walking 92 9 K R Srinivasa s Lytton Strachey 96 10 The Great Charlie 98 11 Reflections at a Movie 103 12 Music in the Movies 008 13 Max Grafts Modern Music 112 14 Abner Dean s It s a Long Way to Heaven 113 15 Russian Art 114 16 Herbert Read s The Innocent Eye 115 17 The Eternal Tramp 116 18 On Book Reviewing 123 19 Academy without Walls 126 20 Communications 134 21 The Renaissance of Books 140 22 Violence and Television 156 23 Introduction to Art and Reality 167 Politics History and Society 24 Pro Patria Mori 175 25 Wyndham Lewis Anti Spenglerian 178 26 War on the Cultural Front 184 27 Two Italian Sketches 1939 I88 28 G M Young s Basic 194 29 Revenge or Justice 195 30 F S C Northrop s The Meeting of East and West 197 31 Wallace Notestein s The Scot in History 201 32 Toynbee and Spengler 202 33 Gandhi 209 34 Ernst Jünger s On the Marble Cliffs 211 35 Dr Kinsey and the Dream Censor 215 36 Cardinal Mindszenty 220 37 The Two Camps 222 38 Law and Disorder 224 39 Two Books on Christianity and History 226 40 Nothing to Fear but Fear 232 41 The Ideal of Democracy 235 42 The Church and Modern Culture 237 43 And There is No Peace 244 44 Caution or Dither 246 45 Trends in Modern Culture 248 46 Regina versus the World 262 47 Oswald Spengler 265 48 Preserving Human Values 274 49 The War in Vietnam 282 50 The Two Contexts 283 51 The Quality of Life in the 70s 285 52 Spengler Revisited 297 53 The Bridge of Language 315 Notes 331 Emendations 381 Index 383

Primitivist Modernism Sieglinde Lemke, 1998-04-30 This book explores a rich cultural hybridity at the heart of transatlantic modernism Focusing on cubism jazz and Josephine Baker s performance in the *Danse Sauvage* Sieglinde Lemke uncovers a crucial history of white and black intercultural exchange a phenomenon until now greatly obscured by a cloak of whiteness Considering artists and critics such as Picasso Alain Locke Nancy Cunard and Paul Whiteman in addition to Baker Lemke documents a potent cultural dialectic in which black artistic expression fertilized white modernism just as white art forms helped shape the black modernism of Harlem and Paris Coining the term primitivist modernism to designate the multicultural heritage of this century s artistic production Lemke reveals the generative and germinating black cultural Other in the arts She examines this neglected dimension in full fascinating detail blending literary theory social history and cultural analysis to document modernism s complex absorption of African culture and art She details numerous ways in which African and African American forms visual styles musical idioms black dialects and fantasies Baker s costume and dance say permeated high and mass culture on both sides of the Atlantic So called primitive art and high modernism savage rhythms

and European music hall culture European and African American expressions in jazz European primitivism and the racial awakenings of African American culture paired and freshly examined by Lemke these subjects stand revealed in their true interrelatedness Insisting on modernism s two way cultural flow Lemke demonstrates not only that white modernism owes much of its symbolic capital to the black Other but that black modernism built itself in part on white Euro American models Through superbly nuanced readings of individual texts and images fifteen striking examples of which are reproduced in this handsome volume Lemke reforms our understanding of modernism She shows us in clear invigorating fashion that transatlantic modernism in both its high and popular modes was significantly more diverse than commonly supposed Students and scholars of modernism African American studies and cultural studies and those with interests in twentieth century art dance music or literature will find this book richly rewarding

The United States and Latin America

Fredrick B. Pike, 2010-07-05 The lazy greaser asleep under a sombrero and the avaricious gringo with money stuffed pockets are only two of the negative stereotypes that North Americans and Latin Americans have cherished during several centuries of mutual misunderstanding This unique study probes the origins of these stereotypes and myths and explores how they have shaped North American impressions of Latin America from the time of the Pilgrims up to the end of the twentieth century Fredrick Pike s central thesis is that North Americans have identified themselves with civilization in all its manifestations while viewing Latin Americans as hopelessly trapped in primitivism the victims of nature rather than its masters He shows how this civilization nature duality arose from the first European settlers perception that nature and everything identified with it including American Indians African slaves all women and all children was something to be conquered and dominated This myth eventually came to color the North American establishment view of both immigrants to the United States and all our neighbors to the south

D.H. Lawrence Eugene Goodheart, 2018-02-06 The dominant view of D H Lawrence s work has long been that of F R Leavis who confined Lawrence within an exclusively ethical and artistic tradition In D H Lawrence The Utopian Vision Eugene Goodheart widens the context in which Lawrence should be understood to include European as well as English writers Blake Nietzsche Rilke and Freud among others Goodheart shows that the characteristic impulse of Lawrence s principal discovery was the bodily or physical life that he believed man had once possessed in his pre civilized past and must now fully recover if future civilized life is possible Goodheart s argument fully engages the paradoxes of Lawrence s writing He is at once the last great representative of the moral tradition of the English novel and of the English Protestant imagination and a novelist without precedent a diabolist in the service of the dark gods He rejects the claims of society while simultaneously lamenting the thwarting of the societal instinct The oppositions and paradoxes in the work are the expression of a single not always coherent revolutionary imagination D H Lawrence The Utopian Vision provides a rigorous and critical analysis of the ideological character of Lawrence s novels and essays in particular the effect of his utopianism on his views of nature myth and religious experience while responding to his aesthetic achievement Goodheart s

Lawrence is a prophetic artist whose vision is at once inspiring and dangerous In the new introduction to the book Goodheart reflects upon the vicissitudes of Lawrence s reputation since the sixties when the book first appeared and his relevance to the concerns of our own time *The Cambridge Companion to the Harlem Renaissance* George Hutchinson,2007-06-14 This

2007 Companion is a comprehensive guide to the key authors and works of the African American literary movement

Modernism and Colonialism Richard Begam,Michael Moses,2007-10-15 The essays in *Modernism and Colonialism* offer revisionary accounts of major British and Irish literary modernists relation to colonialism **Wyndham Lewis** Luke

Gilfedder,2025-08-30 We live in times as politically uncertain as those faced by the modernists a century ago Europe once again faces the possibility of a post liberal future with sophisticated New Right intellectuals not only populists challenging the core Enlightenment values of liberal society Often assumed to be merely reactionary the radical modernist roots of the New Right are largely overlooked Through metapolitics the social diffusion of ideas and cultural values for long term political gain the New Right instead seeks to steer modernity forward in an alternate direction and claims proto fascist modernists such as Wyndham Lewis as part of its drive to occupy culture as the 20th century Right occupied politics Recasting Lewis as our intellectual contemporary this book offers the first political philosophical study of literary modernism s influence on the New Right s anti Enlightenment vision and calls for an urgent re evaluation of Lewis s legacy as an insider critic of this ideological lineage It applies Lewis s critiques of his reactionary modernist peers to leading New Right intellectuals such as Dugin and de Benoist critically examines Lewis s reception among New Right authors and marks a major reassessment of Lewis s relevance to contemporary affairs revealing how his work advances a rationalist and individualist vision of an Enlightened future that challenges rather than legitimises the alternative modernities envisaged by today s most radical anti liberal thinkers The West Georgios Varouxakis,2025-07-08 A comprehensive intellectual history of the idea of the West

How did the West come to be used as a collective self designation signaling political and cultural commonality When did Westerners begin to refer to themselves in this way Was the idea handed down from the ancient Greeks or coined by nineteenth century imperialists Neither writes Georgios Varouxakis in *The West* his ambitious and fascinating genealogy of the idea *The West* was not used by Plato Cicero Locke Mill or other canonized figures of what we today call the Western tradition It was not first wielded by empire builders It gradually emerged as of the 1820s and was then Varouxakis shows decisively promoted in the 1840s by the French philosopher Auguste Comte whose political project incidentally was passionately anti imperialist The need for the use of the term the West emerged to avoid the confusing or unwanted consequences of the use of Europe The two overlapped but were not identical with the West used to differentiate from certain others within Europe as well as to include the Americas After examining the origins Varouxakis traces the many and often astonishingly surprising changes in the ways in which the West has been understood and the different intentions and consequences related to a series of these contested definitions While other theories of the West consider only particular

aspects of the concept and its history if only in order to take aim at its reputation Varouxakis's analysis offers a comprehensive account that reaches to the present day exploring the multiplicity of current and not least prospective future meanings He concludes with an examination of how since 2022 definitions and membership of the West have been reworked to consider Ukraine as the evolution and redefinitions continue
