Bayley, 2001 **Policing Across the World** R.I.

Mawby, 2013-04-15 This wide ranging text provides an overview of policing across different societies and considers the issues facing the US and British police in a wider international context The book is designed as a coherent introduction to the police

Policing and Political Regime Transformation Steven Tremaria, 2024-10-10 This book offers a comprehensive study on the dynamics of policing under contexts of political regime transformation in the interplay between democratization and de democratization through a cross case comparative analysis among Venezuela Bosnia and Herzegovina and Ukraine The central concern lies in working out the intertwining between politics and policing by examining the development trajectories of democratic police reforms under scenarios of democratic stagnation backsliding and autocratic consolidation In particular this book analyzes those changes experienced by the police as an institution their powers and the practices for policing society in the framework of the endeavors for politicization militarization and informalization of policing This analysis is addressed from a macro level actor based approach which accounts for the decisive role of ruling political actors and senior police managers as critical players who influence the decisions and patterns of political regime transformation and policing Therefore this book offers a groundbreaking study of the interrelationship among contemporary processes of de democratization and police counter reform from an actor based perspective **Challenges of Policing Democracies** Dilip

Das, Marenin Otwin, 2012-10-12 In this text the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are a anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner *Challenges of Policing Democracies* goes beyond just showing the similarities and differences of the policing challenges democratic societies face it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing **Civilizing Security** Ian Loader, Neil

Walker, 2007-04-19 Security has become a defining feature of contemporary public discourse permeating the so called war on terror problems of everyday crime and disorder the reconstruction of weak or failed states and the dramatic renaissance of the private security industry But what does it mean for individuals to be secure and what is the relationship between security

and the practices of the modern state In this timely and important book Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of one the most significant and pressing issues of our times **Policing Post-Conflict Cities** Alice

Hills,2013-07-04 How and why does order emerge after conflict What does it mean in the context of the twenty first century post colonial city From Kabul Kigali and Kinshasa to Baghdad and Basra people abandoned by the state make their own rules With security increasingly ghettoised survival becomes a matter of manipulation and hustling In this book Alice Hills discusses the interface between order and security While analysts and donors emphasise security Hills argues that order is much more meaningful for people s lives Focusing on the police as both providers of order and a measure of its success the book shows that order depends more on what has gone before than on reconstruction efforts and that tension is inevitable as donors attempt to reform brutal local policing *Policing Post Conflict Cities* provides a powerful critique of the failure of liberal orthodoxy to understand the meaning of order Police Education and Training in a Global Society Peter C.

Kratcoski,Dilip K. Das,2007-06-15 *Police Education and Training in a Global Society* provides an international survey of police officer education Editors Peter C Kratcoski and Dilip K Das bring together police educators from every continent to explore the similarities and differences in preparing the police to meet their goals and accomplish their missions around the world Represented are perspectives on training new recruits in service training and advanced training Several chapters focus on the specialized training such as that required to combat terrorism Throughout the need to concentrate on the development of technical skills and human relations is emphasized The right combination of formal education and technical training is required if the police of the 21st century are to be effective *Police Education and Training in a Global Society* is an ideal reference for police training professionals and those pursuing criminal justice and police training **Policing Change,**

Law Enforcement in a Free Society , The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14

In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly
