Political Development Essays In Heuristic Theory:

Political Development Gabriel Abraham Almond, 1970

Political Development Theory Richard Higgott, 2005-06-28

This book examines development theory from a political perspective. It considers modernisation theory and public policy as well as Marxism, the state and the third world. **Maestri of Political Science** Donatella Campus, Gianfranco Pasquino, Martin Bull, 2011-06-01. This book continues the editors' work started in the volume *Masters of Political Science* of highlighting and re-evaluating the contributions of the most important political scientists who have gone before. Its basis is the belief that the future development and sophistication of the discipline will benefit from a critical understanding of the works of early political giants whose contributions are presented and analysed. Gabriel A. Almond, Raymond Aron, Philip Converse, Maurice Duverger, Stanley Hoffmann, Paul Lazarsfeld, Arend Lijphart, Elinor Ostrom, William H. Riker, Stein Rokkan, and Susan Strange. The editors review and consider the contributions of these *maestri* to the study of contemporary democracy, political culture, electoral systems, political communication, the transformation of capitalism, and state formation in Europe. *Maestri of Political Science* is aimed not only at a new generation of political scientists but is a valuable opportunity for established scholars to see new light through old windows. *Parallels and Actuals of Political Development* A.H. Somjee, 1986-06-18.

Development Theory David Lehmann, 2010-11-26. The studies in this book, first published in 1979, offer an all-encompassing contemporary critique of the sociology, politics, and economics of development as they are conventionally taught and disseminated. They also seek to outline the beginnings of a new approach while not sparing from criticism the simplistic or contemporary radical theories. The reissue will prove of significant interest to the teaching of development studies at both undergraduate and postgraduate levels. **Passion, Craft, and Method in Comparative Politics** Gerardo L. Munck, Richard Snyder, 2007-05-30. In the first collection of interviews with the most prominent scholars in comparative politics since World War II, Gerardo L. Munck and Richard Snyder trace key developments in the field during the twentieth century. Organized around a broad set of themes: intellectual formation and training, major works and ideas, the craft and tools of research, colleagues, collaborators, and students, and the past and future of comparative politics, these in-depth interviews offer unique and candid reflections that bring the research process to life and shed light on the human dimension of scholarship. Giving voice to scholars who practice their craft in different ways yet share a passion for knowledge about global politics, *Passion, Craft, and Method in Comparative Politics* offers a wealth of insights into contemporary debates about the state of knowledge in comparative politics and the future of the field. Margaret Keck, Johns Hopkins University.

Independence without Freedom Rouhollah K. Ramazani, 2013-11-29. Ruhi Ramazani is widely considered the dean of Iranian foreign policy study, having spent the past sixty years studying and writing about the country's international relations. In *Independence without Freedom*, Ramazani draws together twenty of his most insightful and important articles and book chapters with a new introduction and afterword which, taken together, offer compelling evidence that the United States and

Iran will not go to war The volume s introduction outlines the origins of Ramazani s early interest in Iran s international role which can be traced to the crushing effects of World War II on the country and Iran s historic decision to free its oil industry from the British Empire In the afterword he discusses the reasons behind America s poor understanding of Iranian foreign policy articulates the fundamentals of his own approach to the study of Iran including the nuclear dispute and describes the major instruments behind Iran s foreign efforts Independence without Freedom will serve as a crucial resource for anyone interested in the factors and forces that drive Iranian behavior in world politics **Language and Society** Lele,2023-07-31

Red Flag Unfurled Ronald Suny,2017-11-14 Reflecting on the fate of the Russian Revolution one hundred years after October Ronald Grigor Suny one of the world s leading historians of the period explores the historiographical controversies over 1917 Stalinism and the end of Communism and provides an assessment of the achievements costs losses and legacies of the choices made by Soviet leaders While a quarter century after the disintegration of the USSR the story usually told is one of failure and inevitable collapse Suny reevaluates the promises missed opportunities achievements and colossal costs of trying to build a kind of socialism in the inhospitable environment of peasant Russia He ponders what lessons 1917 provides for Marxism and the alternatives to capitalism and bourgeois democracy Reconsidering American Power John D.

Kelly,Kurt Jacobsen,Marston H. Morgan,2019-12-05 Postcolonial studies postmodern studies even posthuman studies emerge and intellectuals demand that social sciences be remade to address fundamentals of the human condition from human rights to global environmental crises Since these fields owe so much to American state sponsorship is it easier to reimagine the human and the modern than to properly measure the pervasive American influence Reconsidering American Power offers trenchant studies by renowned scholars who reassess the role of the social sciences in the construction and upkeep of the Pax Americana and the influence of Pax Americana on the social sciences With the thematic image for this enterprise as the fiery hunt for Ahab s whale the contributors pursue realities behind the theories and reconsider the real origins and motives of their fields with an eye on what will deter or repurpose the fiery hunts to come by offering a critical insider s view **A**

Discipline Divided Gabriel A. Almond,1990 A Discipline Divided is a collection of coherent and timely articles that discuss the emergence and divergence of the two dominant camps of political science ideology and methodology Almond examines the hard versus soft science argument the history of model fitting in communism studies the strengths and weaknesses of the rational choice movement and the historical forces and processes that have shaped political culture *Aid and*

Authoritarianism in Africa Tobias Hagmann,Professor Filip Reyntjens,2016-03-15 In 2013 almost half of Africa s top aid recipients were ruled by authoritarian regimes While the West may claim to promote democracy and human rights in practice major bilateral and international donors such as USAID DFID the World Bank and the European Commission have seen their aid policies become ever more entangled with the survival of their authoritarian prot g s Local citizens thus find themselves at the receiving end of a compromise between aid agencies and government elites in which development policies

are shaped in the interests of maintaining the status quo Aid and Authoritarianism in Africa sheds light on the political intricacies and moral dilemmas raised by the relationship between foreign aid and autocratic rule in Africa Through contributions by leading experts exploring the revival of authoritarian development politics in Ethiopia Uganda Rwanda Cameroon Mozambique and Angola the book exposes shifting donor interests and rhetoric as well as the impact of foreign aid on military assistance rural development electoral processes and domestic politics In the process it raises an urgent and too often neglected question to what extent are foreign aid programmes actually perpetuating authoritarian rule

The Rise and Fall of the Shah Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future

Post-Communist Party Systems Herbert Kitschelt, 1999-08-13 Examines democratic party competition in four post communist polities in the 1990s The work illustrates developments regarding different voter appeal of parties patterns of voter representation and dispositions to join other parties in alliances Wider groups of countries are also compared

Biographical Memoirs National Academy of Sciences, 2006-01-08 Biographic Memoirs Volume 87 contains the biographies of deceased members of the National Academy of Sciences and bibliographies of their published works Each biographical essay was written by a member of the Academy familiar with the professional career of the deceased For historical and bibliographical purposes these volumes are worth returning to time and again

Education, Democracy and Development Clive Harber, Vusi Mncube, 2012-05-14 Education is often seen as the key agency in international development and poverty reduction Frequently the emphasis is on the economic and social role of education in development This book on the other hand is unusual in explicitly examining the political role of education in development In particular it sets out the theories evidence and arguments concerning the potential and actual relationships between education and democracy and critically explores the contradictory role of formal education in both supporting and hindering democratic political development A key theme of the book is the importance of considering the type and nature of the education actually provided and experienced what goes on inside the black box of education Currently in developing

countries and elsewhere this is often at odds with democratic principles but the book also provides many examples of successful democratic practice in schools in developing countries as well as discussing a detailed case study of South Africa where democratic change in education is a key aspect of the policy agenda

POLITICAL THEORY RAMASWAMY, SUSHILA, 2010-10-01 Political theory and political philosophy are generally used interchangeably though sometimes a distinction is made between the two This book on political theory deals with the study of political institutions along with the theories of State Law Liberty and Equality In its second edition the book continues to analyse the key concepts like Authority Power Sovereignty Political obligation Civil disobedience Citizenship Rights Democracy and Justice The non western ideas including Indian and Chinese are incorporated to underline cultural plurality and shared values in an enterprise that tries to set universal standards The book is designed for the undergraduate and postgraduate students of Political Science The book will be equally beneficial for the students appearing for the civil services examinations

The Government of God Cheryl Benard, Zalmay Khalilzad, 1984

The Symbolic Scenarios of Islamism Andrea Mura, 2016-03-09 The Symbolic Scenarios of Islamism initiates a dialogue between the discourse of three of the most discussed figures in the history of the Sunni Islamic movement Hasan al Banna Sayyid Qutb and Osama bin Laden and contemporary debates across religion and political theory providing a crucial foundation upon which to situate current developments in world politics Redressing the inefficiency of the terms in which the debate on Islam and Islamism is generally conducted the book examines the role played by tradition modernity and transmodernity as major symbolic scenarios of Islamist discourses highlighting the internal complexity and dynamism of Islamism By uncovering forms of knowledge that have hitherto gone unnoticed or have been marginalised by traditional and dominant approaches to politics accounting for central political ideas in non Western sources and in the Global South the book provides a unique contribution towards rethinking the nature of citizenship antagonism space and frontiers required today While offering valuable reading for scholars of Islamic studies religious studies and politics it provides a critical perspective for academics with an interest in discourse theory post colonial theory political philosophy and comparative political thought
