Gender, Nation, and the Arabic Novel Hoda Elsadda, 2012-07-18 A nuanced understanding of literary imaginings of masculinity and femininity in the Egyptian novel Gender studies in Arabic literature have become equated with women's writing leaving aside the possibility of a radical rethinking of the Arabic literary canon and Arab cultural history While the woman question in the Arabic novel has received considerable attention the male question has gone largely unnoticed Now Hoda Elsadda bucks that trend Foregrounding voices that have been marginalised alongside canonical works she engages with new directions in the novel tradition

short story a means of exploring indigenous problems Egyptian writers who preceded him paved the way for his achievements but none reached his mastery He enabled the Egyptian genius to express itself in literary forms new to Arabic Literary tradition The literary career of Mahfuz is marked by three distinct phases The first is the Pharaonic phase 1935-38 in which three historical novels were written The second is the realistic phase 1938-52 in which most of his great works were written including the Cairo trilogy The third phase began after a pause of six years in 1958 and is distinguished by symbolic writings and a deep concern for the individual in a changing society

Poetics of Love in the Arabic Novel Wen-chin Ouyang, 2012-06-20 Considers the Arabic novel within the triangle of the nation state modernity and tradition The novel is now a major genre in the Arabic literary field this book explores the development of the novel especially the ways in which the genre engages with a

The Politics of Love Rebecca Joubin, 2013-10-03 Dramatic miniseries are the primary arena for the expression of postcolonial Syrian culture and

artistic talent an arena that unites diverse aspects of artisanship in a struggle over visions of the past present and future of the nation As the tour de force of the television medium blossoming amidst persisting authoritarianism these miniseries serve as a crucial and complex artistic avenue through which political and social opposition manifests Scholars have tried to come to terms with a highly critical culture produced within attempted state co optation and argue that politically critical culture operates as a safety valve to release frustrations so that dissenters are less likely to mobilize against the government Through research fueled by a viewing of over two hundred and fifty miniseries ranging from the 1960s to the present as well as an examination of hundreds of press reports Facebook pages and extensive interviews with drama creators this book turns away from the dominant paradigm that focuses on regime intent When turning attention instead to the drama creators themselves we witness the polyphony of voices employing love and marriage metaphors and gender de constructions to explore larger issues of nationalism self identity and political critique At the heart of constructions of femininity are the complications that arise with the symbiosis of pure femininity with authentic national identity Deconstructing masculinity as political critique has been less complicated since it is not implicated in Western identity issues on the contrary illustrations of subservient masculinity serve to subtly denounce government corruption and oppression Miniseries from the 1960s demonstrate that the focus of the qabaday tough man on female sexuality comes from his own political alienation vis vis the state and is part of a vicious cycle of state violence vis vis the citizen In recent years and in particular after the uprising we can see the emerging definition of the true qabaday as one who does not suppress a woman s sexuality thereby allowing for full equality in relationships as the basis of a truly free society [Encyclopedia of the Novel](#) Paul Schellinger,2014-04-08

Hassan,2017-08-01 The Oxford Handbook of Arab Novelistic Traditions is the most comprehensive treatment of the subject to date In scope the book encompasses the genesis of the Arabic novel in the second half of the nineteenth century and its development to the present in every Arabic speaking country and in Arab immigrant destinations on six continents Editor Wa

l S Hassan and his contributors describe a novelistic phenomenon which has pre modern roots stretching centuries back within the Arabic cultural tradition and branching outward geographically and linguistically to every Arab country and to Arab writing in many languages around the world The first of three innovative dimensions of this Handbook consists of examining the ways in which the Arabic novel emerged out of a syncretic merger between Arabic and European forms and techniques rather than being a simple importation of the latter and rejection of the former as early critics of the Arabic novel claimed The second involves mapping the novel geographically as it took root in every Arab country developing into often distinct though overlapping and interconnected local traditions Finally the Handbook concerns the multilingual character of the novel in the Arab world and by Arab immigrants and their descendants around the world both in Arabic and in at least a dozen other languages The Oxford Handbook of Arab Novelistic Traditions reflects the current status of research in the broad field of Arab novelistic traditions and signals toward new directions of inquiry **Nationalism and Liberal Thought**
