Quabbin Valley The Lost Towns Of Ma:

The Lost Towns of the Quabbin Valley Elizabeth Peirce, 2003-07 The Quabbin Reservoir in central Massachusetts was created in 1938 to supply the state's growing population with a source of drinking water. More than two thousand people were displaced when the Quabbin Valley was flooded. Three branches of the Swift River were dammed and five towns—Dana, Enfield, Greenwich, Prescott, and parts of New Salem—were covered with water. The *Lost Towns of the Quabbin Valley* highlights the life and times of these towns from 1754 to 1938 when the inhabitants were told "All Must Leave." The architectural landscape of the Quabbin Valley at one time included the churches, cemeteries, schoolhouses, post offices, homes, and businesses that made the thriving communities. The *Lost Towns of the Quabbin Valley* presents rare photographs of town life, including images of students at the first Hillside School and Dr. Mary Walker, a Congressional Medal of Honor recipient and Greenwich summer resident. The images are drawn from the archives of the Swift River Valley Historical Society.

Although the towns are gone, their stories are alive and well. **Lost Towns of Quabbin Valley** Elizabeth Peirce, 2003-07 The Quabbin Reservoir in central Massachusetts was created in 1938 to supply the state's growing population with a source of drinking water. The abundance of ponds, lakes, and streams in the region made it an obvious target for those seeking new water sources to supply the escalating population of Boston in the late 19th century. However, the little towns of Dana, Enfield, Greenwich, and Prescott that were established in the area stood in the way. Following an act of the legislature in 1926, these towns were disincorporated and the 2,500 inhabitants were given modest compensation and ordered to leave. By 1938, the former towns were flooded and stood at the floor of the reservoir, which held the potential of 420 billion gallons of water to be outsourced eastward. Never to be forgotten, the story of the lost towns and their former residents are displayed through artifacts housed at the Swift River Valley Historical Society in North New Salem. *Lost Towns of the Swift River Valley: Drowned by the Quabbin* Elena Palladino, 2022-10 In April 1938, Swift River Valley residents held a farewell ball to mark the demise of the quintessential New England town of Enfield and its three

smaller neighbors Greenwich Dana and Prescott The Commonwealth of Massachusetts sacrificed these three towns to build the Quabbin a massive reservoir of drinking water for residents of Boston Three prominent residents attended the somber occasion Marion Andrews Smith was the last surviving member of an important manufacturing family Willard Doc Segur was the valley's beloved country doctor and town leader And Edwin Henry Howe was Enfield's postmaster and general store proprietor They helped build their beloved community for decades only to watch grief stricken as it was destroyed by 400 billion gallons of water Author and historian Elena Palladino recounts the story of these communities as seen through eyes of those who lived there until the end *Quabbin Valley: People and Places* Elizabeth Peirce, 2006 A collection of vintage photographs and an informative text provide a nostalgic look at the Quabbin Valley from 1750 to 1938 documenting the everyday lives of the inhabitants of Dana Enfield Prescott Greenwich and their environs until they were displaced when the region was flooded to create the Quabbin Reservoir Original *Lost Towns of New England* Renee Mallett, 2021 New England is home to abandoned towns and forgotten main streets that once bustled with life and commerce From villages sunk underwater to cities undone by the rise and fall of mill life madness or just plain bad luck these ghost towns offer a unique look into the rich history of the past Get a glimpse into what early life was really like through historical accounts of abandoned villages Discover the history behind the ruins of towns like Connecticut's religious community Gay City the former New Hampshire resort town of Unity Springs and Massachusetts's famed Dogtown before nature reclaims them entirely Join local author Renee Mallett as she uncovers the heydays of some of New England's most fascinating lost towns

The Girls and Boys of Belchertown Robert N. Hornick, 2012 During much of the twentieth century people labeled feeble minded mentally deficient and mentally retarded were often confined in large publicly funded residential institutions located on the edges of small towns and villages some distance from major population centers At the peak of their development in the late 1960s these institutions frequently called schools or homes housed 190 000 men women and children in the United States The Girls and Boys of Belchertown offers the first detailed history of an American public institution for intellectually disabled persons Robert Hornick recounts the story of the Belchertown State School in Belchertown Massachusetts from its beginnings in the 1920s to its closure in the 1990s following a scandalous exposé and unprecedented court case that put the institution under direct supervision of a federal judge He draws on personal interviews private letters and other unpublished sources as well as local newspapers long out of print materials and government reports to re create what it was like to live and work at the school More broadly he gauges the impact of changing social attitudes toward intellectual disability and examines the relationship that developed over time between the school and the town where it was located What emerges is a candid and complex portrait of the Belchertown State School that neither vilifies those in charge nor excuses the injustices perpetrated on its residents but makes clear that despite the court ordered reforms of its final decades the institution needed to be closed *Before the Flood* Elisabeth C. Rosenberg, 2021-08-03 In the tradition of Silent Spring a modern parable of the

American experience and our paradoxical relationship with the natural world Though it seems a part of the natural landscape of New England today the Swift River Valley reservoir dam dike and nature area was a triumph of civil engineering It combined forward looking environmental stewardship and social policy yet the little people and the four towns in which they lived got lost along the way Elisabeth Rosenberg has crafted *Before the Flood* to be both a modern and a universal story in a time when managed retreat will one day be a reality Meticulously researched *Before the Flood* is the first narrative book on the incredible history of the Swift River Valley and the origins Quabbin Reservoir Rosenberg dive into the socioeconomic and psychological aspects of the Swift River Valley s destruction in order to supply drinking water for the growing populations of Boston and wider Massachusetts It is as much a human story as the story of water and landscape and *Before the Flood* movingly reveals both the stories and the science of the key players and the four flooded towns that were washed forever away

Panchyk, 2011-08-01 As soon as early humans began to scratch images on cave walls, they began to create maps. And while these first drawings were used to find hunting grounds or avoid danger, they later developed into far more complex navigational tools. Charting the World tells the fascinating history of maps and mapmaking, navigators and explorers, and the ways that technology has enhanced our ability to understand the world around us. Richly illustrated with full color maps and diagrams, it gives children an in-depth appreciation of geographical concepts and principles and shows them how to unlock the wealth of information maps contain. It also features 21 hands-on activities for readers to put their new skills to the test. Children will build a three-dimensional island model using a contour map, engrave a simple map on an aluminum printing plate, determine the elevation of hills in their neighborhood, draw a treasure map and have a friend search for the hidden stash, create a nautical chart of a small puddle, survey their backyard or local park, navigate a course using a compass, and much more. Now more than ever, the study of geography is crucial to understanding our ever-changing planet, from political change and warfare to environmental conservation and population growth. **Haunted Massachusetts** Cheri Revai, Cheri
