**Responsible Research Practice** Norma RA Romm, 2018-04-21

This book explores ways in which creative research practice can be explicitly and mindfully geared to make a difference to the quality of social and ecological existence. It offers a range of examples of how different research methods can be employed and re-tuned with this intention. The book suggests that what Romm names active research involves using the research space responsibly to open up new avenues for thinking and acting on the part of those involved in the inquiry and wider stakeholders. The book includes a discussion of a range of epistemological, ontological, methodological and axiological positions or paradigms that can be embraced by inquirers implicitly or explicitly. It details the contours of an epistemology where knowing is recognized to be grounded in social relations as a matter of ethics. While focusing on discussing the transformative paradigm and attendant view of research ethics, it considers to what extent the borders between paradigms can be treated as being permeable in creative and active inquiries. Apart from considering options for enhancing responsible research practice during the process of inquiry and reconsidering mixed research designs, the book also considers options for responsible theorizing that is inspirational for pursuing goals of social and ecological justice.

Ethnographic Worldviews

Robert E. Rinehart, Karen N. Barbour, Clive C. Pope, 2013-09-24. This book discusses ethnography from the three points of view of Emerging Methodologies, Practice and Advocacy, and Social Justice and Transformation, with an overarching emphasis on researchers and participants' worldviews. While these three thematic threads cut across each other, the actual chapters will be located so that the reader understands many of the current issues and concerns with specific exemplars from around the globe for ethnographers. *Ethnographic Worldviews: Transformations and Social Justice* will have its finger on the pulse of contemporary ethnography. Chapters demonstrate up to the moment awareness of ethnographic methods, concerns and subject matters within contemporary ethnographic writing. Authors are deeply engaged in both their subject matter and their method. For example, discussion of ethical issues surrounding visual methods of collecting for photo ethnographies is anticipated as a potential hot topic for this book. Unlike other ethnographic books which often suggest giving voice to others, this book will actually give voice to a wide variety of perspectives from the points of view of researchers.
