Quality Assurance in Higher Education: A Study of Developing Countries David Lim,2018-01-12 This title was first published in 2001 Universities in developing countries have followed their counterparts in developed countries and adopted quality assurance to improve the quality of their activities This text examines the wisdom of such a move when many of the conditions necessary for its success are not present It concludes that quality assurance can be useful in developing countries because it shows how a university s seemingly disparate activities are related to one another to serve a common goal and how the quality of these can best be improved by using an integrated approach Quality assurance also provides more focus and direction to the work of the traditional university system However it must be modified to suit the conditions prevailing in developing countries by being simple in design modest in expectations and realistic in requirements

Toward Quality Assurance and Excellence in Higher Education Al Jaber, Ahmed Odeh,2018-08-15 Quality Assurance is not a new concept in the education sector in general and higher education in particular though it is becoming increasingly more relevant and important Higher education helps to improve an individual s quality of life by enabling them to inflate their knowledge and expertise to grasp abstract concepts and theories and to raise their awareness of the world and their community and as such the assurance of quality is becoming more pivotal in the whole education process There is no simple definition of the concept of quality in education though numerous models and theories have been devised Toward Quality Assurance and Excellence of Higher Education is a new episode of the Quality Assurance perception in higher education which identifies the quality culture and orientation from the beginning integrating crucial factors to build a pyramid of higher education excellence The book compares concepts from the main theories of Quality Assurance management and control when they are applied to educational systems in higher education The book also presents a new model of excellence in higher education Excellence is an architecture of building blocks that includes process performance effectiveness harmony and collaboration and these bocks should be incorporated in a quality oriented concept for sustainable excellence of higher education The model integrates four main facets the Educational System Quality Assurance Managing and Control Strategic Planning and Globalization Also presented are international best practices in quality assurance in higher education from Japan and Finland

Quality Assurance in Higher Education Stamelos Georgios,K.M. Joshi,Saeed Paivandi,2017-01-30 The significant growth of number of students enrolled in tertiary education institutions in the recent past decades has caused an unprecedented expansion of higher education systems The rapid and constant social economic and technological mutations and international competition make

the importance of qualitatively well educated citizenry and labor forces very decisive Globalization has developed a powerful impact on the development of higher education and imposes new challenges for the organization standards financing regulations Systems of higher education tend to detach from the national models and adopt a more global orientation The implementation of quality assurance is one of the recent and most decisive transformations of higher education Different higher education systems are trying to develop assessment tools internal and external to improve the quality of teaching research and extension activities and these are either based on experiences of selected countries or are extensively country specific The quality assurance procedures that were often dependent on national directorial traditions have gradually tended to converge and led to a setup of common tools and standards Countries under a centralized system tend to impose a uniform and general model while decentralized systems give greater freedom to universities to set up their own quality International rankings of universities also contribute to impose a set of transnational standards and values which is also being considered as indicative by the stakeholders The present book tries to look at the quality assurance mechanism international rankings and its impact in both absolute and comparative fashion in context of 11 countries from different parts of the world The Legitimacy of Quality Assurance in Higher Education Luc Weber, Katia Dolgova-Dreyer, Council of Europe, 2007-01-01 In this publication quality assurance is seen as part of the public responsibility for higher education The contributions by policy makers and practitioners consider the role of quality assurance as an element of higher education governance and explore its function in the recognition of qualifications Case studies illustrate its various aspects in two different national settings

Quality Assurance in Higher Education Don F. Westerheijden, Bjorn Stensaker, Maria Joao Rosa, 2007-09-04 By bringing together leading experts on quality assurance in higher education from seven countries from Europe the USA and South Africa this volume intends to go several steps further than most publications on quality assurance First it brings together views from micro to macro levels in the multi actor space showing how quality assurance impacts the higher education system throughout Second it links quality assurance solidly to issues of regulation translation rather than mechanical implementation and transformation instead of

being only focused on quality assurance as a single policy instrument Third it uses this broad range of research insights to criticize current practices explaining for instance why sometimes people have difficulty in tracing any concrete effects of all initiatives taken in this area Finally the book offers proposals for better focusing quality assurance in the future to address institutional challenges better The general purpose of the book then is to give an engaged academic reflection on how quality assurance is embedded in higher education and in a dynamic way to assess its impacts and potential improvements

Self-regulation in Higher Education H. R. Kells, 1992 Increasing importance is being attached to the concept of quality assurance and control This new book describes the development and evolution of several major forms of regulatory systems for higher education on both sides of the Atlantic with particular emphasis on the increasingly complex and self regulatory intentions and characteristics It focuses primarily on the nature and development of evaluation systems as they are experienced in the wider concept of regulation their attributes strengths limits and how they can be improved It analyses the patterns that are emerging the apparent national determinants and the critical relationships between purposes and means in the systems The book is intended both as a reference source and as a guide for policy makers in institutions collaborative organizations and in governments seeking to consider the possibilities of self regulation in higher education It aims to help achieve the potential benefits of such systems including the preservation of universities and their autonomy amid the considerable and understandable pressures to make them more effective and efficient
