## **Quarrel Of The Age The Life And Times Of William Hazlitt:**

*The Quarrel of the Age* A. C. Grayling, 2001 William Hazlitt is England's greatest essayist. He was also a philosopher, a painter, a controversialist and a radical whose critical writings about literature, the theatre and art were ardently admired in his day. He is the author of the first confessional autobiography of sexual passion, a biographer of Napoleon, a friend of and profound influence upon Keats, Stendhal and Charles Lamb, a friend and later enemy of Coleridge, Wordsworth and De Quincy and a key figure in the intellectual life of Regency England. His life was lived against the backdrop of the French Revolution and subsequent Revolutionary and Napoleonic Wars with their associated political and literary radicalism in England. **The**

**Concept and Practice of Conversation in the Long Eighteenth Century, 1688-1848** Katie Halsey, Jane Slinn, 2009-05-05 This collection of essays brings together eighteenth century scholars from a variety of disciplines to discuss conversation in the eighteenth century as concept and practice. At the heart of the volume is a simple question: are eighteenth century conceptualisations of the role and purpose of conversation still relevant or useful to scholars and thinkers today? This volume contains essays by leading scholars of the period as well as early career researchers and answers a need for a broad ranging discussion of the concept of conversation in the arts, social sciences and humanities. The long eighteenth century is a particularly fruitful starting point for work on this topic since ideas about conversation permeated all types of writing in this period from the early forerunners of scientific textbooks to philosophical dialogues. The collection covers an exceptionally wide range of long eighteenth century authors, artists, lawmakers, texts and works of art and although the focus of the volume is largely on eighteenth century Britain, the volume takes note of the rich relationships between continental European thought and British intellectual life in the period and of the influence of British ideas in the newly independent American republic. *The Feminization of Fame 1750-1830* C. Brock, 2006-07-11 This book addresses the literary, cultural and historical questions surrounding the reconceptualization of fame between 1750-1830. It examines genres from history writing to literature, public and private memoirs to political treatises in English and in French in order to explore the age of personality's obsession with instantaneous publicity.

**Michael Foot and the Labour Leadership** Andrew Scott Crines,2011-07-12 Michael Foot's political career can simplistically be characterised by cataclysmic failures within the period between 1979 and 1983 culminating in Labour's substantial electoral defeat Developments within political discourse have since sought to perpetuate this characterisation by utilising the defeat as a justification for the subsequent modernisations However this analysis does not entirely appreciate the significance of Foot's leadership This book argues that far from being a disaster Foot's leadership in fact contributed to the survival of the Labour Party Foot's political education political evolution and experiences between him joining the Party in 1935 and the end of his ministerial career in 1979 enabled him to emerge as the unity candidate in opposition to the divisive potential of a Denis Healey or Tony Benn leadership Foot's support base included moderate social democrats and moderate left wing MP's as well as centrists who opposed radicals from both sides This subverts the orthodox assumption of Foot's election being indicative of a sudden and simplistic left wing domination after 1979 This book will be of particular interest to those seeking to develop their knowledge of Michael Foot the Labour Party and their ideological diversity

*Descartes* A. C. Grayling,2009-05-26 Scientist mathematician traveler soldier and spy Rene Descartes was one of the founders of the modern world His life coincided with an extraordinary time in history the first half of the miraculous seventeenth century replete with genius in the arts and sciences and wracked by civil and international conflicts across Europe But at his birth in 1596 the world was still dominated by medieval beliefs in phenomena such as miracles and spontaneous generation It was Descartes who identified the intellectual tools his peers needed to free themselves from the grip of religious authority and in doing so he founded modern philosophy In this new biography A C Grayling tells the story of Descartes life and places it in his tumultuous times with the unexpected result that an entirely new aspect of the story comes to light

**Imagining War and Peace in Eighteenth-Century Britain, 1690-1820** Andrew Lincoln,2023-11-23 Is war the opposite of peace or its necessary accomplice Exploring this question in relation to eighteenth century Britain Andrew Lincoln opens up complex paradoxical and enduring issues and shows how ideas and methods were developed to provide the British public with moral insulation from violence both overseas and at home

**For the Good of the World** A. C. Grayling,2022-02-03 A must read Gordon Brown A truly excellent book Sir David King The three biggest challenges facing the world today in A C Grayling's view are climate change technology and justice In his timely new book he asks can human beings agree on a set of values that will allow us to confront the numerous threats facing the planet or will we simply continue with our disagreements and antipathies as we collectively approach our possible extinction As every day brings new

stories about extreme weather events spyware lethal autonomous weapons systems and the health imbalance between the northern and southern hemispheres Grayling's question Is Global Agreement on Global Challenges Possible becomes ever more urgent The solution he proposes is both pragmatic and inspiring *Who Owns the Moon?* A. C. Grayling, 2024-03-07

As the world's superpowers and corporations jostle for control in space A C Grayling asks who really owns our planet Grayling brings satisfying order to daunting subjects STEVEN PINKER Silicon for microchips manganese for batteries titanium for missiles The moon contains a wealth of natural resources So as the Earth's supplies have begun to dwindle it is no surprise that the world's superpowers and wealthiest corporations have turned their eyes to the stars As this new Space Race begins A C Grayling asks who if anyone owns the moon Or Mars Or other bodies in near space And what do those superpowers and corporations owe to Planet Earth and its inhabitants as a whole From feudal common land through the rules of the sea to the vast nationless expanse of Antarctica Grayling explores the history of the places which no one and therefore everyone owns Examining the many ways this so called terra nullius has fallen victim to the tragedy of the commons the tendency for communal resources to be exploited by a few individuals for personal gain at the expense of everyone else Who Owns the Moon puts forward a compelling argument for a bold new global consensus one which recognises and defends the rights of everyone who lives on this planet **Toward the Light of Liberty** A. C. Grayling, 2009-05-26

The epic story of the interlocking struggles to achieve the individual rights and freedoms that characterize Western civilization by one of the world's leading public intellectuals Perhaps the hallmark of western civilization over the past five hundred years writes A C Grayling is the series of liberation struggles without which the ordinary citizen in Western countries would not enjoy the rights and freedoms we now take for granted They began with the often violent battle to allow independent thought uncontrolled by the Church which led in time to political freedom as monarchies were gradually replaced by more representative forms of government These in turn made possible the abolition of slavery rights for working men and women universal education the enfranchisement of women and much more Each of these struggles was a memorable human drama and Grayling skillfully interweaves the stories of celebrated and little known heroes alike from Martin Luther and John Locke to the sixteenth century French scholar Sebastien Castellio and the nineteenth century feminist Elizabeth Cady Stanton The triumphs and sacrifices of those who dared to oppose authority ring loudly down the ages proving how hard won each successive victory has been And yet as Grayling persuasively shows in a cautionary coda democratic governments under pressure have often thought it necessary to restrict rights in the name of freedom further underlining how precious they are Toward the Light of Liberty is thus particularly relevant as we head toward an election season in which our own civil liberties will surely be an issue *Bright Stars* Richard Marggraf Turley, 2013-08-15

If we could ask a Romantic reader of new poetry in 1820 to identify the most celebrated poet of the day after Byron the chances are that he or she would reply with the name of Barry Cornwall Solicitor dandy and pugilist Cornwall

pseudonym of Bryan Waller Procter 1787 1874 published his first poems in the Literary Gazette in late 1817 By February 1820 under the tutelage of Keats's mentor Leigh Hunt Cornwall had produced three volumes of verse Marican Colonna sold 700 copies in a single morning a figure exceeding Keats's lifetime sales Hazlitt's suppressed anthology Select British Poets 1824 allocated Cornwall nine pages the same number as Keats and more than Southey Lamb or Shelley Blackwood's Edinburgh Magazine pronounced Cornwall a poet of originality and genius and in 1821 Gold's London Magazine announced that in terms of tenderness and delicacy even Percy Shelley was surpassed very far indeed by Barry Cornwall It is difficult to square Cornwall's early nineteenth century popularity with his subsequent neglect In Bright Stars Richard Marggraf Turley concentrates on Cornwall's phenomenal success between 1817 and 1823 emphatically returning an important and unjustly neglected Romantic author to critical focus Marggraf Turley explores Cornwall's rivalry and at various junctures political camaraderie with fellow Hunt protégé Keats whose career exists in a fascinatingly mirrored relationship with his own trajectory into celebrity The book argues that Cornwall helped to structure Keats's experience as a poet but also explores the central question of how Cornwall's racy and politically subversive poetry managed to establish a broad readership where Keats's similarly indecorous publications met with review hostility and readerly indifference **Zeitgeist - How Ideas**

**Travel** Maike Oergel, 2019-03-18 This book investigates the emergence of the modern concept of zeitgeist the notion of a pervasive contemporary coherence in the late 18th century It traces zeitgeist's descent from genius saeculi and investigates its association with public spirit and public opinion before surveying its prominence around the Wars of Liberation in Germany and during the politically restless 1820s in England This trajectory shows that zeitgeist emerged from the 18th century discourses about culture and the public functioning of social collectives Under the impact of the French Revolution the term came to describe social processes of political and cultural challenge Zeitgeist was discussed as a social dynamic in which emerging elites disseminate new ideas which find enough public approval to influence cultural and political behaviour and practice These findings modify the view that zeitgeist eludes critical grasp and is mainly invoked for manipulative purposes by showing that the zeitgeist discussions around 1800 contributed to the formation of modern politics and capture key aspects of how ideas are disseminated within societies and across borders providing a way of reading history horizontally

**Religious Dissent and the Aikin-Barbauld Circle, 1740-1860** Felicity James, Ian Inkster, 2011-11-03 Recent criticism is now fully appreciating the nuanced and complex contribution made by Dissenters to the culture and ideas of the eighteenth and nineteenth centuries in Britain This is the first sustained study of a Dissenting family the Aikins from the 1740s to the 1860s Essays by literary critics historians of religion and science and geographers explore and contextualize the achievements of this remarkable family including John Aikin senior tutor at the celebrated Warrington Academy and his children poet Anna Letitia Barbauld and John Aikin junior literary physician and editor The latter's children in turn were leading professionals and writers in the early Victorian era This study provides new perspectives on the social and cultural

importance of the family and their circle an untold story of collaboration and exchange and a narrative which breaks down period boundaries to set Enlightenment and Victorian culture in dialogue
