Fokkema,Hans Bertens,1986-01-01 Most of the essays collected in this volume deal with theoretical issues that dominate the international debate on Postmodernism issues such as the shifting nature of the concept the problem of periodization and the problem of historicity Other essays offer readings of Postmodernist texts and relate practical criticism to a theoretical framework Hans Bertens Utrecht sketches the historical development of the concept Postmodernism in American criticism distinguishing between the various definitions that have been proposed over the last twenty five years in an attempt to bring some order to the field and to facilitate future discussion Brian McHale Tel Aviv and Douwe Fokkema Utrecht offer models for the description of Postmodernist texts Richard Todd Amsterdam argues convincingly that Postmodernism is much more of a presence in contemporary British fiction than has so far been assumed and Herta Schmid Munich presents a similar argument with respect to Russian avant garde theater Elrud Ibsch Amsterdam presents a contrastive analysis of Thomas Bernhard and Robert Musil Ulla Musarra Nijmegen writes on Italo Calvino The relation between Existentialism and Postmodernism is examined by Gerhard Hoffman W rzburg Theo D haen Utrecht finds important parallels between Postmodernism in literature and in the visual arts Matei Calinescu Bloomington Ind relates literary Postmodernism to a far more general cultural shift rejecting however Foucault s notion of an epistemic break and arguing for both continuity and discontinuity Finally Helmut Lethen Utrecht and Susan Suleiman Harvard sharply question the concept of Postmodernism Suleiman argues that the supposed Postmodernist reaction against Modernism may well be a critical myth or if it isn t a reaction limited to the American literary situation *Design Issues* ,1999 Special Relationships in World Politics Kristin Haugevik,2018-09-03 Claims of inter state specialness are commonplace in international politics But how do some relationships between states come to be seen and categorized as special in the first

place And what impact if any do recurring public representations of specialness have on states political and diplomatic interaction While much scholarly work exists on alleged instances of special relationships and on inter state cooperation and alliances more generally little systematic and theory informed research has been conducted on how special relationships evolve and unfold in practice This book offers such a comprehensive study Theorizing inter state relations as ongoing social processes it makes the case for approaching special relationships as constituted and upheld through linguistic representations and bilateral interaction practices Haugevik explores this claim through an in depth study of how the bilateral relationship most frequently referred to as special the US British has unfolded over the last seventy years This analysis is complemented with a study of Britain s relationship with a more junior partner Norway during the same period The book offers an original take on inter state relations and diplomacy during the Cold War and after and develops an analytical framework for understanding why some state relationships maintain their status as special while others end up as benignly neglected ones
