Russian Modernity Politics Knowledge Practices:

Russian Modernity D. Hoffmann, Y. Kotsonis, 2000-07-05 Russian Modernity places Imperial and Soviet Russia in a European context Russia shared in a larger European modernity marked by increased overlap and sometimes merger of realms that had previously been treated as discrete entities the social and the political state and society government and economy and private and public These were attributes of Soviet dictatorship but their origins can be located in a larger European context and in the emergence of modern forms of government in Imperial Russia **Russian Modernity** D.

Hoffmann, Y. Kotsonis, 2000-10-27 Russian Modernity places Imperial and Soviet Russia in a European context Russia shared in a larger European modernity marked by increased overlap and sometimes merger of realms that had previously been treated as discrete entities the social and the political state and society government and economy and private and public These were attributes of Soviet dictatorship but their origins can be located in a larger European context and in the emergence of modern forms of government in Imperial Russia *Popular Perceptions of Soviet Politics in the 1920s* O.

Velikanova, 2013-01-28 This is the first study of popular opinions in Soviet society in the 1920s These voices which made the Russian revolution characterize reactions to mobilization politics patriotic militarizing campaigns the tenth anniversary of the revolution and state attempts to unite the nation around a new Soviet identity **Soviet Politics of Emancipation of**

Ethnic Minority Woman Yulia Gradskaia, 2018-09-04 This book provides a new perspective through a closer look on Other i.e. ethnic minority women defined by the Soviet documents as natsionalka Applying decolonial theory and critical race and whiteness studies the book analyzes archive documents early Soviet films and mass publications in order to explore how the emancipation and culturalization of women of culturally backward nations was practiced and presented for the mass Soviet audience Whilst the special focus of the book lies in the region between the Volga and the Urals and Muslim women of the Central Eurasia the Soviet emancipation practices are presented in the broader context of gendered politics of modernization in the beginning of the 20th century The analysis of the Soviet documents of the 1920s 1930s not only subverts the Soviet story on generous help with emancipation of natsionalka through uncovering its imperial colonial aspects but also makes an important contribution to the studies of imperial domination and colonial politics This book is addressed to all interested in Russian and Eurasian studies and in decolonial approach to gender history **Stalinism and the Politics of Mobilization**

David Priestland, 2007-02 Stalinism and the Politics of Mobilization provides a new explanation of the political violence in Stalin's Soviet Union during the late 1930s by examining the thinking of Stalin and his allies and placing it in the broader context of Bolshevik ideas since 1917 Lost to the Collective Kenneth M. Pinnow, 2011-03-15 As an act of unbridled

individualism suicide confronted the Bolshevik regime with a dilemma that challenged both its theory and its practice and helped give rise to a social science state whose primary purpose was the comprehensive and rational care of the population Labeled a social illness and represented as a vestige of prerevolutionary culture suicide in the 1920s raised troubling

questions about individual health and agency in a socialist society provided a catalyst for the development of new social bonds and subjective outlooks and became a marker of the country's incomplete move toward a collectivist society. Determined to eradicate the scourge of self-destruction, the regime created a number of institutions and commissions to identify pockets of disease and foster an integrated social order. The Soviet confrontation with suicide reveals with particular force the regime's anxieties about the relationship between the state and the individual. In *Lost to the Collective*, Kenneth M. Pinnow suggests the compatibility of the social sciences with Bolshevik dictatorship and highlights their illusory promises of control over the everyday life of groups and individuals. The book traces the creation of national statistical studies, the course of medical debates about causation and expert knowledge, and the formation of a distinct set of practices in the Bolshevik Party and Red Army that aimed to identify the suicidal individual and establish his or her significance for the rest of society. Arguing that the Soviet regime represents a particular response to the pressures and challenges of modernity, the book examines Soviet socialism from its intense concern with the individual to its quest to build an integrated society as one response to the larger question of human unity.

The Socialist Sixties Anne E. Gorsuch, Diane P. Koenker, 2021-12-22 A very engaging collection of essays that adds much to an evolving literature on the social history of the Soviet Union and broader socialist societies. Choice. The 1960s have reemerged in scholarly and popular culture as a protean moment of cultural revolution and social transformation. In this volume, socialist societies in the Second World, the Soviet Union, East European countries, and Cuba are the springboard for exploring global interconnections and cultural cross-pollination between communist and capitalist countries and within the communist world. Themes explored include flows of people and media, the emergence of a flourishing youth culture, sharing of songs, films, and personal experiences through tourism and international festivals, and the rise of a socialist consumer culture and an aesthetics of modernity. Challenging traditional categories of analysis and periodization, this book brings the sixties problematic to Soviet studies while introducing the socialist experience into scholarly conversations traditionally dominated by First World perspectives.

Soviet Postcolonial Studies Epp Annus, 2017-09-05 Postcolonial studies is a well-established academic field rich in theory, but it is based mostly on postcolonial experiences in former West European colonial empires. This book takes a different approach, considering postcolonial theory in relation to the former Soviet bloc. It both applies existing postcolonial theory to this different setting and also uses the experiences of former Soviet bloc countries to refine and advance theory. Drawing on a wide range of sources and presenting insights and material of relevance to scholars in a wide range of subjects, the book explores topics such as Soviet coloniality as co-constituted with Soviet modernity, the affective structure of identity creation in national and imperial subjects, and the way in which cultural imaginaries and everyday materialities were formative of Soviet everyday experience.

The Right to Be Helped Maria Cristina Galmarini, 2016-08-15 Doesn't an educated person, simple and working, sick and with a sick child, doesn't she have the right to enjoy at least the crumbs at the table of the revolutionary

feast Disabled single mother Maria Zolotova Sologub raised this question in a petition dated July 1929 demanding medical assistance and a monthly subsidy for herself and her daughter While the welfare of able bodied and industrially productive people in the first socialist country in the world was protected by a state funded insurance system the social rights of labor incapacitated and unemployed individuals such as Zolotova Sologub were difficult to define and legitimize The Right to Be Helped illuminates the ways in which marginalized members of Soviet society understood their social rights and articulated their moral expectations regarding the socialist state between 1917 and 1950 Maria Galmarini Kabala shows how definitions of state assistance and who was entitled to it provided a platform for policymakers and professionals to engage in heated debates about disability gender suffering and productive and reproductive labor She explores how authorities and experts reacted to requests for support arguing that responses were sometimes characterized by an enlightened nature and other times by coercive discipline but most frequently by a combination of the two By focusing on the experiences of behaviorally problematic children unemployed single mothers and blind and deaf adults in several major urban centers this important study shows that the dialogue over the right to be helped was central to defining the moral order of Soviet socialism It will appeal to scholars and students of Russian history as well as those interested in comparative disabilities and welfare studies

Greetings, Pushkin! Jonathan Brooks Platt, 2016-09-02 In 1937 the Soviet Union mounted a national celebration commemorating the centenary of poet Alexander Pushkin's death Though already a beloved national literary figure the scale and feverish pitch of the Pushkin festival was unprecedented Greetings Pushkin presents the first in depth study of this historic event and follows its manifestations in art literature popular culture education and politics while also examining its philosophical underpinnings Jonathan Brooks Platt looks deeply into the motivations behind the Soviet glorification of a long dead poet seemingly at odds with the October revolution's radical break with the past He views the Pushkin celebration as a conjunction of two opposing approaches to time and modernity monumentalism and eschatology Monumentalism in pointing to specific moments and individuals as the origin point for cultural narratives and eschatology which glorifies ruptures in the chain of art or thought and the destruction of canons In the midst of the Great Purge the Pushkin jubilee was a critical element in the drive toward a nationalist discourse that attempted to unify and subsume the disparate elements of the Soviet Union supporting the move to socialism in one country Whites and Reds Stephen V. Bittner, 2021-02-11 Whites and Reds A History of Wine in the Lands of Tsar and Commissar tells the story of Russia's encounter with viniculture and winemaking Rooted in the early seventeenth century embraced by Peter the Great and then magnified many times over by the annexation of the indigenous wine economies and cultures of Georgia Crimea and Moldova in the late eighteenth and early nineteenth centuries viniculture and winemaking became an important indicator of Russia's place at the European table While the Russian Revolution in 1917 left many of the empire's vineyards and wineries in ruins it did not alter the political and cultural meanings attached to wine Stalin himself embraced champagne as part of the good life of socialism and the Soviet Union

became a winemaking superpower in its own right trailing only Spain Italy and France in the volume of its production Whites and Reds illuminates the ideas controversies political alliances technologies business practices international networks and of course the growers vintners connoisseurs and consumers who shaped the history of wine in the Russian Empire and the Soviet Union over more than two centuries Because wine was domesticated by virtue of imperialism its history reveals many of the instabilities and peculiarities of the Russian and Soviet empires Over two centuries the production and consumption patterns of peripheral territories near the Black Sea and in the Caucasus became a hallmark of Russian and Soviet civilizational identity and cultural refinement Wine in Russia was always more than something to drink *Tsardom of Sufficiency, Empire of Norms* David W. Darrow, 2018-12-05 What happens when you measure an economy How does measurement impact policy In *Tsardom of Sufficiency Empire of Norms* David Darrow responds to these broad questions by looking at the application and profound consequences of statistical measurement to the peasant economy in Russia from the eighteenth century to the Civil War Nearly all studies of Russia make reference to the land allotment or nadel as a measure of peasant wellbeing This is the first work examining the origins of the nadel how statistical measurement converted it into a modern entitlement and how it framed the state peasant relationship Land Darrow argues was life peasants needed it and the state most everyone believed had an obligation to provide it The question however was how much land was enough Statistics supplied the answer but also locked policy makers and society into a particular way of seeing peasants and their economy Even the empire's final attempt to reform the peasant economy after 1905 remained locked within the old regime category of the nadel Statistical measurement strengthened rather than weakened the nadel as a category of peasant economic wellbeing such that it persisted beyond 1917 into the early years of Soviet power Based on archival sources and rural councils statistical studies *Tsardom of Sufficiency Empire of Norms* shows how the state constructed both an image and a measure of peasant wellbeing from which it could not escape and how the resultant perception that peasants were entitled to a sufficient allotment became a major obstacle to successful agrarian reform **The Soviet Union** Tania Raffass, 2012 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state Peopling the Russian

Periphery Nicholas Breyfogle, Abby Schrader, Willard Sunderland, 2007-11-02 Though usually forgotten in general surveys of European colonization the Russians were among the greatest colonizers of the Old World eventually settling across most of the immense expanse of Northern Europe and Asia from the Baltic and the Pacific and from the Arctic Ocean to Central Asia This book makes a unique contribution to our understanding of the Eurasian past by examining the policies practices cultural representations and daily life experiences of Slavic settlement in non Russian regions of Eurasia from the time of Ivan the Terrible to the nuclear era The movement of tens of millions of Slavic settlers was a central component of Russian empire building and of the everyday life of numerous social and ethnic groups and remains a crucial regional security issue today yet it remains relatively understudied Peopling the Russian Periphery redresses this omission through a detailed exploration of the varied meanings and dynamics of Slavic settlement from the sixteenth century to the 1960s Providing an account of the different approaches of settlement and expansion that were adopted in different periods of history it includes detailed case studies of particular episodes of migration Written by upcoming and established experts in Russian history with exceptional geographical and chronological breadth this book provides a thorough examination of the history of Slavic settlement and migration from the Muscovite to the Soviet era It will be of great interest to students and scholars of Russian history comparative history of colonization migration interethnic contact environmental history and European Imperialism **The**

Inter-War Crisis Richard Overy, 2014-06-11 The inter war years were at the time perceived to be years of crisis across the world The First World War the war to end all wars had solved nothing and its legacy was a world full of unresolved disputes and manifest ambiguities Overy examines the Russian Revolution and its aftermath the Wall Street Crash of 1929 and the subsequent economic crisis which struck at the very foundations of the capitalist world and seeks to explain why dictatorships came to supplant democracy in Italy Spain Germany the Baltic States and the Balkans and why the world slid into war once more in 1939 *Russian Exceptionalism between East and West* Kevork Oskanian, 2021-06-22 This

monograph provides a novel long term approach to the role of Russia's imperial legacies in its interactions with the former Soviet space It develops Hybrid Exceptionalism as a critical conceptual tool aimed at uncovering the great power's self positioning between East and West and its hierarchical claims over subalterns situated in both civilizational imaginaries It explores how in the Tsarist Soviet and contemporary eras distinct civilizational spaces were created and maintained through narratives and practices emanating from Russia's ambiguous relationship with Western modernity and its part identification with a subordinated Orient The Romanov Empire's struggles with Russianness the USSR's Marxism Leninism and contemporary Russia's combination of feigned liberal and civilizational discourses are explored as the basis of a series of successive civilising missions through an interdisciplinary engagement with official discourses scholarship and the arts The book concludes with an exploration of contemporary policy implications for the West and the former Soviet states themselves

Histories of Suicide John C. Weaver, David Wright, 2009-01-01 This interdisciplinary collection of essays assembles

historians health economists anthropologists and sociologists who examine the history of suicide from a variety of approaches to provide crucial insight into how suicide differs across nations cultures and time periods **Circles of the Russian**

Revolution Łukasz Adamski, Bartłomiej Gajos, 2019-06-03 This volume provides the English speaking reader with little known perspectives of Central and Eastern European historians on the topic of the Russian Revolution Whereas research into the Soviet Union s history has flourished at Western universities the contribution of Central and Eastern European historians during the Cold War working in conditions of imposed censorship to this field of academic research has often been seriously circumscribed Bringing together perspectives from across Central and Eastern Europe alongside contributions from established scholars from the West this significant volume casts the year 1917 in a new critical light **The Power of**

Language and Rhetoric in Russian Political History Richard S. Wortman, 2017-11-30 This book examines the rhetorical force of certain key words in the discourses of Russian state political thought and literature It shows how terms for cultured conduct kul turnost political affection love liubov joy radost etc personhood lichnost truth pravda and geographical integrity tsel nost assumed almost sacral meaning It considers how these terms took on a life of their own imposing the designs of the Russian state and defining the hopes of educated society in the process By exploring the usage of these words in a wide range of texts Richard Wortman provides glimpses into the ideas and feelings of leading figures and thinkers in Russian history from Peter the Great to Alexander Herzen and Nicholas Berdiaev as well as writers like Mikhail Lermontov Ivan Turgenev and Fedor Dostoevsky giving a sense of the intellectual and emotional universe they inhabited The Power of Language and Rhetoric in Russian Political History provides both students and scholars with a specific focus through which to approach Russian culture and history This book is essential reading for students of Russian government thought literature and political action **Popular Opinion in Totalitarian Regimes** Paul Corner, 2009-10 A team of internationally

acknowledged experts examines the question of popular opinion in totalitarian regimes looking at the ways in which ordinary people experienced everyday life in the Soviet Union Nazi Germany and Fascist Italy with consideration also of Poland and East Germany between 1945 and 1989
