Ruth Benedict A Humanist In Anthropolog:

Ruth Benedict Margaret Mead, 2005 By weaving discussions of the personal and professional writings of Ruth Benedict Margaret Mead presents the anthropologist's work in the context of her life and times Mead also defends Benedict's humanistic approach to anthropology as she considers her most important works In addition to a selection of Benedict's anthropological writings this edition includes new forewords by two leading Benedict scholars **Ruth Benedict** Margaret Mead, 1974 Margaret Mead America's most famous anthropologist offers an intimate portrait of her long time colleague and friend Ruth Benedict The first met when Mead was Benedict's student at Barnard in the 1920s their professional association and their friendship were close and lasting Beginning with Benedict's early life Mead discusses her long struggle as a woman to attain an identity of her own her early interests as a writer and poet and her reasons for laying aside poetry for full time scholarship She grappled with the problems of a middle class marriage and suburban household and eventually broke away to establish herself as a scholar and writer of distinction As an anthropologist her fame spread far beyond her profession with the publication of her first book Patterns of Culture With the coming of World War II Benedict shifted her attention to an anthropological study of contemporary highly developed cultures The culmination of this interest was the publication of The Chrysanthemum and the Sword and the establishment of the Columbia University Research in Contemporary Cultures project a broad based interdisciplinary research project which she headed until her untimely death in 1948 Complementing the biography are seven selections from Benedict's writings which show the range of her thought as well as the beauty of her writing including her lecture as retiring President of the American Anthropological Association From publisher description Ruth Benedict Margaret M. Caffrey, 2013-11-04 Poet anthropologist feminist Ruth Fulton Benedict was all of these and much more Born into the last years of the Victorian era she came of age during the Progressive years and participated in inaugurating the modern era of American life Ruth Benedict Stranger in This Land provides an intellectual and cultural history of the first half of the twentieth century through the life of an important and remarkable woman As a Lyricist poet Ruth Benedict helped define Modernism As an anthropologist she wrote the classic Patterns of Culture and at one point was considered the foremost anthropologist in the United States the first woman ever to attain such status She was an intellectual and an artist living in a time when women were not encouraged to be either In this fascinating study Margaret Caffrey attempts to place Benedict in the cultural matrix of her time and successfully shows the way in which Benedict was a product of and reacted to the era in which she lived Caffrey goes far beyond providing simple biographical material in this well written interdisciplinary study Based on exhaustive research including access for the first time to the papers of Margaret Mead Benedict's student and friend Caffrey is able to put Benedict's life clearly in perspective By identifying the family and educational influences that so sharply influenced Benedict's psychological makeup the author also closely analyzes the currents of thought that were strong when Victorianism paralleled the Modernism that figured in

Social Research and Disability Ciaran Burke, Bronagh Byrne, 2020-12-29 Social Research and Disability argues that the contemporary rules of sociological methods outlined in numerous research methods texts make a number of assumptions concerning the researcher including ambivalence sight hearing and speech In short the disabled researcher is not considered when outlining the requirements of particular methods Drawing upon these considerations the volume emphasizes how disabled researchers negotiate the empirical process in light of disability whilst retaining the scientific rigour of the method It also considers the negative consequences arising from disabled researchers attempts at passing and the benefits that can emerge from a reflexive approach to method This innovative and original text will for the first time bring together research active academics who identify as being disabled to consider experiences of being disabled within a largely ableist academy as well as strategies employed and issues faced when conducting empirical research The driving force of this volume is to provide the blueprints for bringing how we conduct social research to the same standards and vision as how the social world is understood multi faceted and intersectional To this end this edited collection advocates for a sociological future that values the presence of disabled researchers and normalises research methods that are inclusive and accessible The interdisciplinary focus of Social Research and Disability offers a uniquely broad primary market This volume will be of interest not only to the student market but also to established academics within the social sciences
