Sacred Psyche A Psychological Approach To The Psalms:

The Sacred Psyche Edward F. Edinger, 2004 The Psalms are the great treasury of Judeo Christian spirituality They are the prayer book of both the Jews and the Christians and as the Psalms themselves tell us Yahweh dwells within them Psychologically this means that the living presence of the Self animates the Psalms which therefore have the power to constellate the archetype of the God image in those individuals who are receptive to their influence **Knots and their Untying: Essays on Psychological Dilemmas** Ann Belford Ulanov, Using the image of knots that are hard and sometimes impossible to untie Ann Ulanov circles around the psychic dilemmas that entangle us sometimes for decades These can be heartrending to us and destructive to others even to those we love Yet these knots so peculiarly our own also open onto human problems we share with others even across the ages Hence working on our knots takes us far down to taproots of energy and far up and out to bring that vital aliveness into shared existence with others Knots thus comprise a ladder offering footholds and handholds for descending and ascending between what Jung calls Below and Above human and divine What are such knots What to do when forgiveness does not happen What to do with the inferiority of the inferior function With the question of how much lightning can we stand With the perils of individuation These are just a few examples from the essays in this book The reader is invited to browse the essays according to personal interest or to read straight through The surprise is that these vexing knots that tie us up and hold us down also give us a mooring they bind us to a path that is uniquely our own that can bear the fruit of our service to others and to the surrounding whole **Depth Psychology and Criminality** ISHAAN D. JOSHI, 2025-08-31 Depth Psychology and Criminality Jungian Insights into Symbolic and Psychogenic Offending is an operational imperative This landmark volume retools criminal justice professionals with a deeper grammar of human violence Integrating Jungian depth psychology with frontline forensic science it reveals crime as a symbolic act of psychic fracture where ritualistic crimes stem from unintegrated archetypes shadow drives and mythic self narratives This work radically advances investigative psychology and offender rehabilitation It reframes deviance not merely as pathology but as a message coded in symbol enacted through archetype and curable through individuation And for those at the helm of security justice or healing this book demands your attention because it changes how we understand the criminal mind and how we restore it **The Maya Book of Life** Michael Owen, 2011-03 THE MAYA BOOK OF LIFE UNDERSTANDING THE XULTUN TAROT is the companion book to the Xultun Tarot Classic Edition It explores the archetypes and alchemy of the major arcana of the Xultun Tarot through indigenous teachings and the analytical psychology of C G Jung and casts new light on the meaning of 2012 The Xultun Tarot was created by Peter Balin in 1976 based on images from Maya history and culture Taken from a single painting it is the only tarot deck where the major arcana form a complete picture This picture is a symbolic image of the alchemical marriage of spirit and matter and a map of what Jung called the individuation process Only 500 copies of the original Xultun Tarot were ever printed Now Kahurangi Press xultun

com has recreated this classic long out of print deck true to its original large size and vibrant colours together with a book that explains the profound symbolism of the cards Michael Owen is a clinical psychologist in private practice and author of Jung and the Native American Moon Cycles He lives in New Zealand
