Iran Michael Axworthy, 2017 Since the beginning of recorded history Iran Persia has been one of the most important world civilizations Iran remains a distinct civilization today despite its status as a major Islamic state with broad regional influence and its deep integration into the global economy through its vast energy reserves Yet the close attention paid to Iran in recent decades stems from the impact of the 1979 revolution which unleashed ideological shock waves throughout the Middle East that reverberate to this day Many observers look at Iran through the prism of the Islamic Republic s adversarial relationship with the US Israel and Sunni nations in its region yet as Michael Axworthy shows in *Iran What Everyone Needs to Know* R there is much more to contemporary Iran than its fraught and complicated foreign relations He begins with a concise account of Iranian history from ancient times to the late twentieth century following that with sharp summaries of the key events since the 1979 revolution The final section of the book focuses on Iran today its culture economy politics and people and assesses the challenges that the nation will face in coming years Iran will be an essential overview of a complex and important nation that has occupied world headlines for nearly four decades
