Philippopoulos-Mihalopoulos,2015-08-26 This book introduces a radically spatialised approach to knowledge creation and innovation Reflecting on an array of European urban and regional developments it offers an updated notion of milieu as the conceptual and material space of knowledge and innovation in line with the interpretative turn in social sciences and humanities In view of the unwillingness of mainstream economics to accommodate such a trend the authors pursue a broadly understood hermeneutic approach that expands on the triad of knowledge space innovation The book s main findings are that space is an essential intermediary in the connection between knowledge and innovation and that a renewed notion of milieu provides the knowledge space innovation triad with both an analytical basis and operational power It also offers fresh insights into the significance and potential of the knowledge economy A number of empirical European case studies on various scales organisations cities and territories support the findings and suggest new policy directions **The Birth,**

Baptism, and Banalization of Nihilism Karen Leslie Carr,1988 *Catalogue* W. Heffer & Sons,1929

Stechert-Hafner Book News ,1948 **The Banalization of Nihilism** Karen Leslie Carr,1992-01-01 After a historical and conceptual overview of the changing face of nihilism in the last century Carr examines Nietzsche s diagnosis of nihilism as modernity s major crisis She then compares the responses to nihilism given by the early Karl Barth and by Richard Rorty To some nihilism is losing its crisis connotations and becoming simply an unobjectionable characteristic of human life Carr argues that this transformation ultimately absolutizes community preference and reflects an increasing inability to criticize and change the existing structures of thought The author contends that the uncritical acceptance of nihilism which characterizes much of postmodernism ironically culminates in its complete opposite dogmatism
