Miracles Ronald H. Isaacs, 1997 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com The Jewish Context of Jesus' Miracles Eric Eve, 2002-08-01 Scholarly literature on Jesus has often attempted to relate his miracles to their Jewish context but that context has not been surveyed in its own right This volume fills that gap by examining both the ideas on miracle in Second Temple literature including Josephus Philo the Dead Sea Scrolls Apocrypha and Pseudepigrapha and the evidence for contemporary Jewish miracle workers The penultimate chapter explores insights from cultural anthropology to round out the picture obtained from the literary evidence and the study concludes that Jesus is distinctive as a miracle worker in his Jewish context while nevertheless fitting into it The Book of Miracles Kenneth L. Woodward, 2001-07-10 Woodward offers an intellectually rich look at the five great religions foundational miracles and those of the later sages and saints *Jewish Scholarship on the Resurrection of Jesus* David Mishkin, 2017-09-07 The Jewish study of Jesus has made enormous strides within the last two hundred years Virtually every aspect of the life of Jesus and related themes have been analyzed and discussed Jesus has been reclaimed as a fellow Jew by many although what this actually means remains a matter for discussion Ironically the one event in the life of Jesus that has received significantly less attention is the one that the New Testament proclaims as the most important of all his resurrection from the dead This book is the first attempt to document Jewish views of the resurrection of Jesus in history and modern scholarship *The Old Testament Miracle-workers in Early Judaism* Erkki Koskenniemi, 2005 Erkki Koskenniemi analyzes the most important early Jewish texts which attribute miracles to people mentioned in the Old Testament His study is relevant for everyone investigating the miracles in early Judaism or early Christianity **BOOK JACKET** Miracles J. Harold Ellens, 2008-07-30 Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history We have all heard of what seem miraculous events which have surfaced across history They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead These books led by an eminent scholar who serves as series editor for the Praeger series Psychology Religion and Spirituality examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events aiming to bring hard science to some of the most persistent and peculiar phenomena associated with the human race Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history From news of a crippled woman who left her wheelchair and walked after an evangelist prayed over her to stories of people who died on the operating table only to be revived to tell of bright lights and

the pathway to the afterlife we've all heard of what seem miraculous events. They have surfaced across history. They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted, from people who can predict unexpected events to so-called mediums and those who can allegedly see and speak with the dead. Some miracles are intricately tied to religious beliefs, but there are millions of people who ascribe to no particular religion yet still believe that things happen that defy all laws of nature and thus defy scientific explanation. In these books, eminent scholar J. Harold Ellens and his team of expert contributors examine miracles of body, mind, and spirit, presenting the most recent research and writing on these uncommon events as they aim to bring hard science to some of the most persistent and peculiar phenomena associated with the human race. New Testament Miracle Stories in Ghanaian

Mother-Tongues Abraham Boateng, 2024-08-05. This book examines the translations of selected miracle stories from the Hebrew Bible (Septuagint LXX) and the Greek New Testament into selected Ghanaian mother tongues, considering possible shifts of meaning that occur in translating. 1 Kings 18:25-38, Mark 9:14-29, and Luke 7:11-17 are used as case studies. The author draws out semiotic hermeneutical nuances of these texts as they are understood in the Ghanaian context and addresses questions in the field of Biblical studies concerning the relevance of intercultural hermeneutics for current trends in Ghanaian Christianity. Particularly important is the high premium placed on miracles in present-day Ghanaian spirituality, making a careful analysis of these stories particularly relevant for the Ghanaian audience. The study also explores several factors that influence the translation process and have a bearing on the reception and use of the text. It follows the growing calls for a shift in African Biblical hermeneutics from the theological heritage of Europe and America to the emerging theological trajectories of Africa. This post-colonial shift re-examines the translated text, moving from what the text might have meant to what the text might mean in Africa. **Conflict in the Miracle Stories** Evert-Jan Vledder, 1997-10-01.

Matthew's Gospel is a witness to conflicting interests. The leaders of Israel are part of the so-called retainer class who pursue their own interests by promoting the interests of the Roman rulers. Jesus and the Matthaean community, on the contrary, act on behalf of the marginalized in society. Jesus challenges the underlying values of the leaders who, contrary to what is expected, do not forgive and act mercifully. The leaders try to resolve the conflict negatively by labelling Jesus as possessed by the devil. At the same time, the conflict spirals onward; the Matthaean community is called to act in the interests of the marginalized. It is Vledder's special contribution to Matthaean study that he brings to light the underlying dynamics of this conflict in a stimulating sociological study. Three Perspectives: Jewish, Christian, and Muslim Steven H. Propp, 2009-12-30.

You're Jewish, aren't you? This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student named Dov Epstein, who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days. Raised by secular Jewish parents, Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage. The two young men vigorously argue with

each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the authors earlier book *Beyond Heaven and Earth* in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world

Chance or Providence Louise Hickman, 2014-11-10 Belief in some sort of providence is widespread even among those who do not profess any kind of conventional religious faith The belief that some sort of benevolent divine force directs the events of the universe is one that has shaped our philosophical and theological convictions together with our economic and social political landscape The 2013 conference of the Science and Religion Forum was convened to discuss some of the most pressing questions that arise from a

consideration of providence Is a belief in providence compatible with freedom What of the suffering of non human creatures Should providence be thought of as general or as special intervention How might a belief in providence be squared with the challenges raised by scientific naturalism and the theory of evolution This book presents chapters that originated from that conference and explores a variety of responses to these critical questions Insights from both science and theology are drawn together by some of the leading thinkers in this field The result is a contribution to the theology of providence which will be of substantial value to all those interested in the conversation between science and religion *Miracles in Greco-Roman Antiquity* Wendy Cotter,2012-11-12 *Miracles in Greco Roman Antiquity* presents a collection in translation of miracle stories from the ancient world The material is divided up into four main categories including healing exorcism nature and raising the dead Wendy Cotter in an introduction and notes to the selections contextualizes the miracles within the background of the Greco Roman world and also compares the stories to other Jewish and non Jewish miracle stories of the Mediterranean world This sourcebook provides an interdisciplinary collection of material which will be of value to students of the New Testament

Miracles of the Virgin in Medieval England Adrienne Williams Boyarin, 2010 First book length study of hagiographical legends of the Virgin Mary in medieval England with particular reference to her relationship with Jews books and the law Legendary accounts of the Virgin Mary s intercession were widely circulated throughout the middle ages borrowing heavily as in hagiography generally from folktale and other motifs she is represented in a number of different often surprising ways rarely as the meek and mild mother of Christ but as bookish fierce and capricious amongst other attributes This is the first full length study of their place in specifically English medieval literary and cultural history While the English circulation of vernacular Miracles of the Virgin is markedly different from continental examples this book shows how difference and miscellaneity can reveal important developments within an unwieldy genre The author argues that English miracles in particular were influenced by medieval England s troubled history with its Jewish population and the rapid thirteenth century codification of English law so that Mary frequently becomes a figure with special dominion over Jews text and legal problems The shifting codicological and historical contexts of these texts make it clear that the paradoxical sign Mary could signify in both surprisingly different and surprisingly consistent ways rendering Mary both mediatrix and legislatrix ADRIENNE WILLIAMS BOYARIN is Assistant Professor of English at the University of Victoria British Columbia
