Modern East Asia: Essays in Interpretation Frederic E. Wakeman, 1970 **Historical Perspectives on Contemporary East Asia** Merle Goldman, Andrew Gordon, 2000-08-15 In these original essays distinguished scholars of modern East Asia distill from long years of research interpretive accounts of late nineteenth and twentieth century China Japan and Korea All of the contributors describe particular features of the modern experience of East Asian countries while also addressing common themes **Modern East Asia** , 1970 **Myopic Grandeur** John E. Dreifort, 1991 France s effort to maintain its presence as a great world power is the subject of *Myopic Grandeur* a study of French foreign policy initiatives in the Far East from World War I until the conclusion of World War II *China's Last Imperial Frontier* Xiuyu Wang, 2011-11-28 China s Last Imperial Frontier explores imperial China s frontier expansion in the Tibetan borderlands during the last decades of the Qing The empire mounted a series of military attacks against indigenous chieftaincies and Buddhist monasteries in the east Tibetan region seeking to replace native authorities with state bureaucrats by redrawing the politically diverse frontier into a system of Chinese style counties Historically at all the strategic frontier locations the state had been for the most part outstripped by local institutions in political military and ideological strengths With perceived threats from the Anglo Russian Great Game accentuating Qing vulnerability in Tibet the Sichuan government took advantage of the frontier crisis by encroaching upon local and Lhasa domains in Kham Even though the Kham campaign was portrayed in Qing official discourse as a part of the nationwide reforms of New Policies xinzheng and administrative regularization gaitu guiliu its progress on the ground was influenced by the dynamics of interregional relations including Sichuan s competition with central Tibet power struggles among Qing frontier officials and varied Khampa responses to the new regime The growing regionalism intensified the resistance of local forces to imperial authority Despite the uneven results of the late Qing campaign it had come to serve as an important source of sovereignty claims and policy inspirations for the subsequent governments Japanese Perceptions of China in the Nineteenth Century Sushila Narsimhan, 1999 **Modernization of Japan** Gbingba Gbosoe, 2006-09 The Japanese are a diligent people constantly working to ensure institutional success The Japanese have an innate ability to copy foreigners In their effort to build a strong country the Japanese sought knowledge from abroad and perfected these learnings in order to effect rapid national development In their quest for progress the Japanese have cherished the trait of national self reliance Until the Meiji Restoration Japan had pursued a national policy of seclusion that forbade almost all contact with the outside world The nineteenth century was one of exploration and imperialism for most of the world The Japanese would not be left alone merely because they wanted to pursue a national policy of autarchy European powers began establishing commercial relations with Japan In 1853 a commodore in the US Navy visited Japan with the aim of opening trade contacts After years of negotiations treaties were signed authorizing an opening of a few ports to foreign trade Simultaneously Japan embarked on a policy of expansion in China and Korea due to its

need for fertile soil and natural resources This policy led to war with China in and with Russia **War and National Reinvention** Frederick R. Dickinson,2020-03-23 For Japan as one of the victorious allies World War I meant territorial gains in China and the Pacific At the end of the war however Japan discovered that in modeling itself on imperial Germany since the nineteenth century it had perhaps been imitating the wrong national example Japanese policy debates during World War I particularly the clash between proponents of greater democratization and those who argued for military expansion thus became part of the ongoing discussion of national identity among Japanese elites This study links two sets of concerns the focus of recent studies of the nation on language culture education and race and the emphasis of diplomatic history on international developments to show how political diplomatic and cultural concerns work together to shape national identity

Power and Charity Elizabeth Sinn, 2003-10-01 Through the history of a charitable institution the Tung Wah Hospital Elizabeth Sinn reshapes and greatly deepens our understanding of the evolving interactions between the Chinese community in Hong Kong and the colonial rulers She traces the rise to power of the Chinese merchants who organized and operated the Hospital and the complex relationships that the Hospital developed with the colonial regime Mainland Chinese officials and the Chinese people of Hong Kong As the first organized merchant elite recognized by the colonial government the Tung Wah Hospital Committee played a crucial political role in nineteenth century Hong Kong mediating between ordinary Chinese and the colonial administration Elizabeth Sinn s classic and pioneering study shows the great extent to which the Hospital s history is the history of Hong Kong itself The author highlights the problems encountered by the Hong Kong government in managing a foreign population and the role of the Chinese local elite in a colonial situation while also exploring the complex but fascinating relations between the Chinese residents in Hong Kong and Chinese officials on the Mainland and between Hong Kong and other Chinese communities Based on primary source materials this is an original and refreshing contribution to the study of Hong Kong and modern Chinese history which reveals and discusses many fundamental issues that are entirely relevant today In a new preface to this paperback edition Dr Sinn reconsiders her work in the light of subsequent research on Hong Kong s history and connects it to recent developments in international scholarly work especially with respect to the study of philanthropy and to ideas of world history An excellent blend of history and ethnography *Power and Charity* is one of the best books available on the everyday practice of colonialism in British Hong Kong Sinn provides unique insights into a system that is fast becoming a distant memory This book is required reading for anyone interested in colonialism medical history or urban anthropology James L Watson Professor of Anthropology Harvard University Dr Sinn s book is essential reading for anyone wishing to understand Hong Kong society and politics in the nineteenth century Ian Scott Journal of the Hong Kong Branch of the Royal Asiatic Society Dr Sinn s book is a fascinating and awesomely researched account of the Chinese community s efforts to hold its own in a foreign dominated enclave Philip Snow Far Eastern Economic Review

States and Social Revolutions Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how

all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions

Hanneman, 2013-11-14 By 1925 the process of Japan s transition to a modern industrialised westernised state was pretty much complete Not only had the imperial tradition been restored with the Meiji Restoration in 1868 but some forms of democratic parliamentary institutions had been set up However during the years that followed the so called imperial democracy came under pressure as the Japanese sought to impose tight control over not only their own people but their neighbours as well This impressive survey looks at developments at home Japan s aggressive foreign policy particularly in China during the 1930s and 1940s and her role in the Second World War Finally the post war reconstruction orchestrated by the Americans is examined The cut off point is 1952 the date when Allied Occupation formally came to an end and Japan once again became independent

Japanese-Russian Relations, 1907-2007 Joseph Ferguson, 2008-04-03 This book presents a comprehensive survey of Japanese Russian relations from the end of the Russo Japanese War until the present Based on extensive original research in Japanese and Russian sources it shows how the hopeful period of the late 1990s when acrimonious relations between the two briefly ceased was not in fact unique *Antiquity and Anachronism in Japanese History* Jeffrey P. Mass, 1992 This collection of essays is built around a major but previously unstudied theme in Japanese history the extent to which the exaggeration of antiquity has distorted historical understanding

Buddhism In Late Ch'ing Political Thought Sin-wai Chan, 2019-03-05 This book is a revised version of the doctoral thesis I presented to the
