*Review of* MJ. Caplan, 2001 I trust fellow forensic scientists will agree that it is a sad state of affairs when we must rely upon a book review assignment to provide an excuse for leisure reading I have always loved and devoured books about crime and murder and in fact I still maintain that reading Gerold Frank's *The Boston Strangler* as a teenager is largely what propelled me into a career in forensic science After reading Professor Hixson's book however I can state honestly that if I were to have read his book as a teenager I would have pursued forensic science with equal enthusiasm and vigor I suspect that there are some budding criminologists and forensic scientists among today's youth who will derive similar inspiration from this work

*The Colonization of Mi'kmaw Memory and History, 1794-1928* William C. Wicken, 2012-01-01 In 1927 Gabriel Sylliboy the Grand Chief of the Mi'kmaw of Atlantic Canada was charged with trapping muskrats out of season At appeal in July 1928 Sylliboy and five other men recalled conversations with parents grandparents and community members to explain how they understood a treaty their people had signed with the British in 1752 Using this testimony as a starting point William Wicken traces Mi'kmaw memories of the treaty arguing that as colonization altered Mi'kmaw society community interpretations of the treaty changed as well The Sylliboy case was part of a broader debate within

Canada about Aboriginal peoples legal status within Confederation In using the 1752 treaty to try and establish a legal identity separate from that of other Nova Scotians Mi kmaq leaders contested federal and provincial attempts to force their assimilation into Anglo Canadian society Integrating matters of governance and legality with an exploration of historical memory The Colonization of Mi kmaq Memory and History offers a nuanced understanding of how and why individuals and communities recall the past

Crimes That Changed Our World Paul H. Robinson, Sarah M. Robinson, 2018-06-15 Can crime make our world safer Crimes are the worst of humanity's wrongs but oddly they sometimes trigger improvement in our lives Crimes That Changed Our World explores some of the most important trigger cases of the past century revealing much about how change comes to our modern world The exact nature of the crime outrage reform dynamic can take many forms and Paul and Sarah Robinson explore those differences in the cases they present Each case is in some ways unique but there are repeating patterns that can offer important insights about what produces change and how in the future we might best manage it Sometimes reform comes as a society wrestles with a new and intolerable problem Sometimes it comes because an old problem from which we have long suffered suddenly has an apparent solution provided by technology or some other social or economic advance Or sometimes the engine of reform kicks into gear simply because we decide as a society that we are no longer willing to tolerate a long standing problem and are now willing to do something about it As the amazing and often touching stories that the Robinsons present make clear the path of progress is not just a long series of course corrections sometimes it is a quick turn or an unexpected lurch In a flash we can suddenly feel different about present circumstances seeing a need for change and can often just as suddenly do something about it Every trigger crime that appears in Crimes That Changed Our World highlights a societal problem that America has chosen to deal with each in a unique way But what these extraordinary and sometime unexpected cases have in common is that all of them describe crimes that changed our world

The Mediatization of the O.J. Simpson Case Tatjana Neubauer, 2023-02-16 F Scott Fitzgerald once said Show me a hero and I'll write you a tragedy In the 1990s nobody fell deeper than O J Simpson Once considered a national treasure the athlete was accused of brutally slaying his ex wife Nicole Brown and her friend Ronald Goldman on June 12 1994 Within days the media and public developed an unprecedented obsession with the story turning a murder investigation and trial into a sensationalized reality show Tatjana Neubauer examines the mediatization deliberate manipulation and the simplification of popular criminal trials for profit on television She demonstrates that TV conflated legal proceedings into entertainment programming by commodifying events people and places

*Neo-Victorian Biofiction*, 2020-09-07 This volume explores the many paradoxes of neo Victorian biofiction a genre that yokes together the real and the imaginary biography and fiction and generates oxymoronic combinations like creative facts fictional truth or poetic truthfulness Contemporary biofictions recreating nineteenth century lives demonstrate the crucial but always ethically ambiguous revision and supplementation of the historical archive Due to the tension between ethical empathy and consumerist voyeurism between traumatic testimony and exploitative expos the epistemological response is per force one of hermeneutic suspicion and iconoclasm In the final account this volume highlights neo Victorianism's deconstruction of master narratives and the consequent democratic rehabilitation of over looked microhistories

**Did Lizzie Borden Axe for It?** David Rehak, 2005 One Thursday morning August 1892 in the safe and sleepy mill town of Fall River Massachusetts Andrew and Abby Borden were savagely hacked to death in their home Their upstanding and respectable younger daughter Lizzie was suspected and tried for their murders but was acquitted of the crime Fall River Massachusetts is a port town on Mount Hope Bay at the mouth of the Taunton River The city has numerous historical buildings and tourists come to see the famous battleship USS Massachusetts from World War 2 The ancient Indian name for the area is Quequechan which means falling water In 1656 the community was established by settlers hailing from Plymouth Colony In 1811 the first cotton mill was established and in time the city became well known for its textile mills which brought it prosperity well into the 1920s It was these mills in large part that made Lizzie Borden's father Andrew a

rich man by 1892 David Rehak spent eight years four years of study two years of research and two more years of writing and revision in the production of this book He became intrigued with Lizzie Borden after viewing an A E television biography on her in 1996 According to Mr Rehak Lizzie was an average unremarkable woman and the most extraordinary criminal or criminal suspect in history She was a tiny grain of sand an absolute nobody who no one took much notice of and if she had not been accused of murder she would have lived a low profile life and vanished from the world s memory like the flame of a candle But after she was accused of murder she became an unforgettable symbol and legend an absolute somebody The debate on whether Lizzie Borden was innocent or guilty brings out passionate feelings and disagreements in every sort of person In fact during the trial according to the New York Times it was estimated that about nineteen hundred marriages ended in divorce because of the intense difference of opinion between husbands and wives that the controversy created Included in this book are strikingly rare new and unpublished revelations about Lizzie s private life The book also contains photographs cartoons original artwork quotes and poetry most of which are rare and never before seen Did Lizzie Borden take an axe and kill her parents The divide between those who believe she did the crime and those who don t sometimes runs deep This book reveals certain probabilities that should not be suppressed or ignored probabilities that deserves scholarly and thoughtful consideration      *Famous American Crimes and Trials: 1913-1959* Frankie Y. Bailey, Steven M. Chermak, 2004 What do Lizzie Borden and O J Simpson have in common Or the Lindbergh baby and Gary Gilmore They were all the focus of famous crimes and or trials in the United States In this five volume set historical and contemporary cases that not only shocked the nation but that also became a part of the popular and legal culture of the United States are discussed in vivid and sometimes shocking detail Each chapter focuses on a different crime or trial and explores the ways in which each became famous in its own time The fascinating cast of characters the outrageous crimes the involvement of the media the actions of the police and the trials that often surprised combine to offer here one of the most comprehensive sets of books available on the subject of famous U S crimes and trials      **Taming the Sharks** Christopher L. Peterson, 2004 Taming the Sharks Towards a Cure for the High Cost Credit Market chronicles the historic economic legal and political factors breeding America s feverish high cost debt industry The ideas presented are novel progressive and controversial Historians have long argued that interest rates provide a sort of economic and political health of nations If true the contemporary American market for credit shows troubling signs of distress While Federal Reserve Board monetary policy has kept commercial and prime consumer interest rates low the past two decades have seen explosive growth in an industry specializing in high cost consumer debt Payday loan outlet chains automobile title loan companies rent to own furniture stores pawnshops and sub prime and manufactured home mortgage lenders are transforming the personal finance patterns of millions of Americans Many observers have complained this industry charges excessive prices uses unfair business practices and is generally causing more harm for its borrowers than good Industry insiders retort they are merely responding to a legitimate demand

for financial services that in effect consumers vote with their feet Echoing problems of past centuries today's consumers face difficulty comparing credit prices patterns of reckless lending and borrowing as well as distressing economic externalities With an idea on the future Peterson's book hopes to find ingredients of a compromise to protect working poor borrowers while simultaneously preserving economic competition
