Drawn from the Classics Stephen E. Tabachnick, Esther Bendit Saltzman, 2015-06-01 The graphic novel is the most exciting literary format to emerge in the past thirty years Among its more inspired uses has been the superlative adaptation of literary classics Unlike the comic book abridgments aimed at young readers of an earlier era today's graphic novel adaptations are created for an adult audience and capture the subtleties of sophisticated written works This first ever collection of essays focusing on graphic novel adaptations of various literary classics demonstrates how graphic narrative offers new ways of understanding the classics including the works of Homer Poe Flaubert Conrad and Kafka among many others

poetics of narrative for postmodernism by placing new emphasis on the folktale He beings by examining the key features of folktales their emphasis on a chain of events rather than description or consciousness their emphasis on a self contained fictional environment rather than realism the presence of a storyteller as a self confessed fabricator their oral and communal status and their ever changing state which defies authoritative versions **Georges Perec's Geographies** Charles Forsdick, Andrew Leak, Richard Phillips ,2019-10-14 Georges Perec novelist filmmaker and essayist was one of the most inventive and original writers of the twentieth century A fascinating aspect of his work is its intrinsically geographical nature With major projects on space and place Perec s writing speaks to a variety of geographical urban and architectural concerns both in a substantive way including a focus on cities streets homes and apartments and in a methodological way experimenting with methods of urban exploration and observation classification enumeration and taxonomy Georges Perec s *Geographies* is the first book to offer a rounded picture of Perec s geographical interests Divided into two parts Part I Perec s *Geographies* explores the geographies within Perec s work in film literature and radio from descriptions of streets to the spaces of his texts while Part II *Perecquian Geographies* explores geographies in a range of material and metaphorical forms including photographic essays soundscapes theatre dance and writing created by those directly inspired by Perec Georges Perec s *Geographies* extends the body of Perec criticism beyond Literary and French Studies to disciplines including Geography Urban Studies Planning and Architecture to offer a complete and systematic examination of Georges Perec s geographies The diversity of readings and approaches will be of interest not only to Perec readers and fans but to students and researchers across these subjects *Need for the Bike* Paul Fournel,2021-01-04 A book like no other Paul Fournel s *Need for the Bike* conducts readers into a very personal world of communication and connection whose center is the bicycle and where all people and things pass by way of the bike In compact and suggestive prose Fournel conveys the experience of cycling from the initial charm of early outings to the dramas of the devoted cyclist An extended meditation on cycling as a practice of life the book recalls a country doctor who will not anesthetize the young Fournel after he impales himself on a downtube shifter speculates about the difference between animals that would like to ride bikes dogs for instance and those that would prefer to watch cows marmots and reflects on the fundamental absurdity of turning over the pedals mile after excruciating mile At the same time Fournel captures the sound smell feel and language of the reality and history of cycling in the mountains in the city escaping the city in groups alone suffering exhausted exhilarated In his attention to the pleasures of cycling to the specific grain of different cycling experiences and to the inscription of these experiences in the body s cycling memory Fournel portrays cycling as a descriptive universe colorful lyrical inclusive exclusive complete **Translating Trans Identity** Emily Rose,2021-03-25 This book explores the ways in which translation deals with sexual and textual undecidability adopting an interdisciplinary approach bridging translation transgender studies and queer studies in analyzing the translations of six texts in English French and Spanish labelled as trans Rose draws on experimental translation methods

such as the use of the palimpsest and builds on theory from areas such as philosophy linguistics queer studies and transgender studies and the work of such thinkers as Derrida and Deleuze to encourage critical thinking around how all texts and trans texts specifically work to be queer and how queerness in translation might be celebrated These texts illustrate the ways in which their authors play language games and how these can be translated between languages that use gender in different ways and the subsequent implications for our understanding of the act of translation and how we present our gender identity or identities In showing what translation and transgender identity can learn from one another Rose lays the foundation for future directions for research into the translation of trans identity making this book key reading for scholars in translation studies transgender studies and queer studies

Grammalepsy John Cayley, 2018-09-20 Collecting and recontextualizing writings from the last twenty years of John Cayley's research based practice of electronic literature Grammalepsy introduces a theory of aesthetic linguistic practice developed specifically for the making and critical appreciation of language art in digital media As he examines the cultural shift away from traditional print literature and the changes in our culture of reading Cayley coins the term grammalepsy to inform those processes by which we make understand and appreciate language Framing his previous writings within the overall context of this theory Cayley eschews the tendency of literary critics and writers to reduce aesthetic linguistic making even when it has multimedia affordances to writing Instead Cayley argues that electronic literature and digital language art allow aesthetic language makers to embrace a compositional practice inextricably involved with digital media which cannot be reduced to print dependent textuality
