Lane* James A. Craig, 2006-08-01 Fitz H Lanes maritime masterpieces are known throughout the world but the man himself has eluded both historians and art critics for over a century The Luminist painters successful career began in his early childhood in picturesque Gloucester Massachusetts and his talents developed and matured over time making him one of the nations premier nineteenth century artists Throughout his career Lane painted with a vitality and attention to detail that was purely American at heart and it is in pursuit of this ideal that James Craig embarks on a detectives investigation to reconstruct with accuracy and honesty the details of a man about whom much has been written but little revealed Few clues remain today about the artist who so thoroughly embodied the American spirit during one of humanitys most dramatic and confusing historical epochs Lanes era was one of great change for America and both he and his art were there to capture that spirit This dazzling and exhaustive effort provides the first glimpse behind the canvas beyond the career and into the soul of Fitz H Lane Passionate stunning and thrilling this is a narrative that returns life and color to a man intent on preserving and presenting the life of the culture he loved James Craig has given Gloucester back one of her favorite sons *Fitz Hugh Lane, Gloucester Artist, 1804-1865* Gene E. Painting the Inhabited Landscape Margaretta M. Lovell, 2023-03-27 The impulse in much nineteenth century American painting and culture was to describe nature as a wilderness on which the young nation might freely inscribe its

future the United States as a virgin land that is unploughed unfenced and unpainted Insofar as it exhibited evidence of a past its traces pointed to a geologic or cosmic past not a human one The work of the New England artist Fitz H Lane however was decidedly different In this important study Margareta Markle Lovell singles out the more modestly scaled explicitly inhabited landscapes of Fitz H Lane and investigates the patrons who supported his career with an eye to understanding how New Englanders thought about their land their economy their history and their links with widely disparate global communities Lane s works depict nature as productive and allied in partnership with humans to create a sustainable balanced political economy What emerges from this close look at Lane s New England is a picture not of a virgin wilderness but of a land deeply resonant with its former uses and a human history that incorporates rather than excludes Native Americans as shapers of land and as agents in that history Calling attention to unexplored dimensions of nineteenth century painting *Painting the Inhabited Landscape* is a major intervention in the scholarship on American art of the period examining how that body of work commented on American culture and informs our understanding of canon formation "The Art of Fitz Hugh Lane" ,1983 Fitz Hugh Lane, 1804-1865 Fitz Henry Lane,Fitz Hugh Lane,1974
