Mówią jak jest. Marksści objaśniają świat Sławomir Czapnik, 2019-11-14 **Modele stanu nadzwyczajnego** Krzysztof Prokop, 2012 **Why Didn't the Press Shout?** Robert Moses Shapiro, 2003 This book brings together contributions by thirty scholars of journalism and history who look at what was reported about the Holocaust in the press of more than a dozen countries and languages The studies examine the news media in America England and the Soviet Union in Nazi Germany and Fascist Italy in the Vatican in occupied countries like Romania Hungary Greece and Poland and in Palestine under the British Mandate By and large the news media in the Allied countries neglected the story while those in Nazi dominated countries treated news related to the Holocaust in a wholly tendentious way Thus the press for a variety of reasons did not cover the Holocaust one of the central events of the twentieth century As this book thoroughly demonstrates it was perhaps the greatest ethical professional and political failure of the news media during World War II If the press had been more responsible and had informed the public in the West early enough and thoroughly enough the history of the Holocaust might have been different and millions of victims might have survived Published in association with Yeshiva University Press **Nowe drogi**, 1952 **Państwo i partia w systemie kapitalistycznym** Jakub Banaszkiewicz, 1972

nazistowskich do odpowiedzialności karnej. Angażując polskich prawników przebywających na emigracji rozpoczął opracowywanie i popularyzację koncepcji skutecznego karania przestępców w wojennych. Jak pokazuje Dominika Uczkiewicz koncepcje i starania rządu polskiego wyraża się na tle zachowawczego stanowiska Stanu w Zjednoczonych i Wielkiej Brytanii. Polski projekt rozliczenia zbrodni nazistowskich zakłada pociąganie sprawców w naruszeniu prawa międzynarodowego do odpowiedzialności osobistej stworzenie efektywnego wymiaru sprawiedliwości oraz rozwój międzynarodowej współpracy stowarzyszeń na polu prawnym i politycznym. Autorka wykazuje problem cięgnięcia i karania zbrodniarzy wojennych należącego do priorytetów w polityce rządu polskiego na emigracji. Zasadniczymi warunkami na jej kształt miały być warunki uwarunkowania polityki międzynarodowej, jak i oczekiwania społeczeństwa polskiego domagającego się surowego rozliczenia sprawców zbrodni. Wskazuje także na współpracę z rządem londyńskim. Protagonistą w nauce prawa narodowego na uniwersytetach II RP był Wacław Komarnicki czy Stefan Glasera, za odczucia polskiej doktryny ukarania zbrodniarzy wojennych stanowiły krytyczne rozwinięcie wybranych aspektów w debacie nad rozwojem prawa karnego międzynarodowego z lat 1919-1939.
