Learning Directory,1970 **The First Global War** William Nester,2000-02-28 By 1756 the wilderness war for control of North America that erupted two years earlier between France and England had expanded into a global struggle among all of Europe's Great Powers Its land and sea battles raged across the North American continent engulfed Europe and India and stretched from the Atlantic to the Mediterranean Indian and Pacific waters The new conflict now commonly known as the Seven Years War of 1756 1763 was a direct continuation of the last French and Indian War This study explores the North American campaigns in relation to events elsewhere in the world from the ministries of Whitehall and Versailles to the land and sea battles in Europe Africa South Asia and the Caribbean Few wars have had a more decisive effect on international relations and national development The French and Indian War resulted in France's expulsion from almost all of the Western Hemisphere except for some tiny islands in the Caribbean and St Lawrence Britain emerged as the world's dominant sea power and would remain so for two centuries Finally within a generation or two the vast debts incurred by Whitehall and Versailles in waging this war would help to stimulate revolutions in America and France that would forever change world history

The Great Frontier War William Nester,2000-02-28 For more than a century and a half from 1607 to 1763 Britain and France struggled to master the eastern half of North America They fought five blood soaked wars and continuously provoked various Indian tribes to raise arms against each other's subjects for the mastery of the land The last French and Indian War from 1754 to 1760 would dwarf all previous conflicts in the number of troops expense geographical expanse and total casualties Placing the French and Indian War in a broad historical context this study examines the struggle for North America during the two preceding centuries and includes not only the conflict between France and Britain but also the parts played by various Indian tribes and the other European powers The last French and Indian War makes for colorful reading with its array of inept and daring commanders epic heroism among the troops far flung battles and sieges and creaking fleets of warships Ironically America's most famous founder George Washington helped to spark the war first by trudging through the wilderness in the dead of winter with a message from Virginia Governor Dinwiddie to the French to abandon their forts in the upper Ohio River valley then a half year later by ordering the war's first shots when his troops ambushed Captain Jumonville and finally when he ignominiously surrendered his force at Fort Necessity and unwittingly signed a surrender document in French naming himself Jumonville's assassin Topical chapters discuss the economic political social and military attributes of the participants and narrative chapters examine the campaigns of the war's first two years
