Quartet Four North Carolina Photographers:

Quartet, 2005 Quartet offers a sampling of the work of Rob Amberg Elizabeth Matheson John Rosenthal and Caroline Vaughan Their images for the most part made in North Carolina are quiet and passionate in time and outside of time revealing both surface and depth Mr Amberg documents life in rural mountain communities Ms Vaughan s landscapes and portraits detail the increments and textures of time Ms Matheson s pictures present the architecture of formality that expresses the character of those who built and lived in such spaces as well as what is past and passing Mr Rosenthal s photographs freeze ordinary moments thereby allowing us to see in them what is extraordinary and permanent As Georgann Eubanks notes in her introduction Quartet presents images that hum with subtle harmonies each photographer adding another dimension to the resonant chord all reminding us that against the din of digital media there is yet a place for still images and deeper reflection

Dolls, Photography and the Late Lacan Rosalinda Quintieri, 2020-12-30 In this fascinating new book Rosalinda Quintieri addresses some of the key questions of visual theory concerning our unending fascination with simulacra by evaluating the recent return of the life size doll in European and American visual culture Through a focus on the contemporary photographic and cinematic forms of this figure and a critical mobilisation of its anthropological complexity this book offers a new critical understanding of this classical aesthetic motif as a way to explore the relevance that doubling fantasy and simulation hold in our contemporary culture Quintieri explores the figure of the inanimate human double as an inhuman partner reflecting on contemporary visuality as the field of a hypermodern post Oedipal aesthetic Through a series of case studies that blur traditional boundaries between practices photography performance sculpture painting documentary and between genres

comedy drama fairy tale Quintieri puts in contrast the new function of the double and its plays of simulations on the background of the capitalist injunction to enjoy Engaging with new theories on post Oedipal forms of subjectivity developed within the Lacanian orientation of psychoanalysis Quintieri offers exciting analyses of still and moving photographic work giving body to an original aesthetic model that promises to revitalise our understanding of contemporary photography and visual culture It will appeal to psychoanalysts and researchers from Lacanian psychoanalysis visual studies and cultural theory as well as readers with an academic interest in the cultural history of dolls and the theory of the uncanny **Blind Spot Photography** ,2005 Con Brio Nat Brandt,2000-07-26 none given by author **Moving Picture World and View Photographer** ,1916 Joyce in the Belly of the Big Truck; Workbook Joyce A.
