José Saramago, 1988 A literatura portuguesa Massaud Moisés, 1999 When we talk about peace the first thing we think of is no to war But it's not just at that moment that we should remember peace In this new book by Todd Parr you will discover that true peace is found in the little things helping others sharing **Poets, Patronage, and Print in Sixteenth-century Portugal** Simon Park, 2021 Explores the works and careers of a group of Renaissance Portuguese poets and illuminates the ways in which they conceived of themselves and their practice the systems of patronage within which they worked and the challenges they faced in the pursuit of publication **After the Revolution** Helena Kaufman, Anna Klobucka, 1997 The contributors to this book attempt to describe analyze and interpret the literary events and practices that characterize the two decades of Portuguese political and cultural life after the 1974 revolution This significant event provides the basis for all the issues discussed in this volume and emerges as a principal agent behind Portuguese cultural renegotiation *A Comparative History of Literatures in the Iberian Peninsula* Fernando Cabo Aseguinolaza, Anxo Abuín González, César Domínguez, 2010-05-26 A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus published by the Coordinating Committee of the International Comparative Literature Association As its predecessor for East Central Europe this two volume history distances itself from traditional histories built around periods and movements and explores from a comparative viewpoint a space considered to be a powerful symbol of inter literary relations Both the geographical pertinence and its symbolic condition are obviously discussed when not even contested Written by an international team of researchers who are specialists in the field this history is the first attempt at applying a comparative approach to the

plurilingual and multicultural literatures in the Iberian Peninsula The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda A Comparative History of Literatures in the Iberian Peninsula undermines the primacy claimed for national and linguistic boundaries and provides a geo cultural account of literary inter systems which cannot otherwise be explained A Companion to Portuguese Literature Thomas Foster Earle, Stephen Parkinson, Cláudia Pazos Alonso, 2013 This companion volume offers an introduction to European Portuguese literature for university level readers It consists of a chronological overview of Portuguese literature from the twelfth century to the present day by some of the most distinguished literary scholars of recent years leading into substantial essays centred on major authors genres or periods and a study of the history of translations It does not attempt an encyclopaedic coverage of Portuguese literature but provides essential chronological and bibliographical information on all major authors and genres with more extensive treatment of key works and literary figures and a particular focus on the modern period It is unashamedly canonical rather than thematic in its examination of central authors and periods without neglecting female writers In this way it provides basic reference materials for students beginning the study of Portuguese literature and for a wider audience looking for general or specific information The editors have made a principled decision to exclude both Brazilian and African literature which demand separate treatment STEPHEN PARKINSON CLAUDIA PAZOS ALONSO and T F EARLE are all members of the Sub Faculty of Portuguese at the University of Oxford CONTRIBUTORS Vanda Anast cio Helena Carvalho Buescu Rip Cohen T F Earle David Frier Lu s Gomes Mariana Gray de Castro Helder Macedo Patricia Odber de Baubeta Hilary Owen Stephen Parkinson Cl udia Pazos Alonso Juliet Perkins Teresa Pinto Coelho Phillip Rothwell Mark Sabine Claire Williams Clive Willis **Epic Performances from the Middle Ages into the Twenty-First Century** Fiona Macintosh, Justine McConnell, Stephen Harrison, Claire Kenward, 2018-10-26 Greek and Roman epic poetry has always provided creative artists in the modern world with a rich storehouse of themes Tim Supple and Simon Reade s 1999 stage adaptation of Ted Hughes Tales from Ovid for the RSC heralded a new lease of life for receptions of the genre and it now routinely provides raw material for the performance repertoire of both major cultural institutions and emergent experimental theatre companies This volume represents the first systematic attempt to chart the afterlife of epic in modern performance traditions with chapters covering not only a significant chronological span but also ranging widely across both place and genre analysing lyric film dance and opera from Europe to Asia and the Americas What emerges most clearly is how anxieties about the ability to write epic in the early modern world together with the ancient precedent of Greek tragedy s reworking of epic material explain its migration to the theatre This move though was not without problems as epic encountered the barriers imposed by neo classicists who sought to restrict serious theatre to a narrowly defined reality that precluded its broad sweeps across time and place In many instances in recent years the fact that the Homeric epics were composed orally has rendered reinvention not only legitimate but also deeply appropriate opening up a range of forms and traditions within

which epic themes and structures may be explored Drawing on the expertise of specialists from the fields of classical studies English and comparative literature modern languages music dance and theatre and performance studies as well as from practitioners within the creative industries the volume is able to offer an unprecedented modern and dynamic study of epic content and form across myriad diverse performance arenas

Toward a Linguistic and Literary Revision of Cultural Paradigms Ettore Finazzi-Agrò,2018-11-02 This book draws an updated Euro American conceptual map starting from a limited number of strategic terms whose meanings today are judged univocal and permanent while in fact daily use has turned them into common sense depriving them of their ambiguity an original feature of language particularly relevant when it comes to literary use By re-examining the proper noun for each of the selected notions the contributors common intent is to shed light on their polysemous nature and linguistic fluidity in spite of the common tendency towards simplification and homogeneity imposed by hegemonic cultural paradigms Along this line the book explores the great divides between identity and otherness or common or alien in order to recover a sense of cultural identity which is at once polymorphous and polyphonic

A veces digo que yo no invento nada que lo que hago es enseñar como quien va por un camino encuentra una piedra y la levanta para ver qué hay debajo. Eso es lo que yo hago. No existe premeditación ni una actitud intelectual previa. Digamos que esa es mi manera de entender el mundo. En Saramago *Sus nombres* están recogidas más de doscientas claves del universo creador del premio Nobel portugués. Concebido como un libro que celebra al autor en el centenario de su nacimiento, en la palabra y la imagen se combinan y se acompañan y se despliegan en múltiples sentidos. La voz que guía por sus páginas es la del propio escritor que enseña y comenta lugares, personas, lecturas, temas y personajes de sus obras. Todos forjaron su identidad. Todos se convirtieron en lo que sigue siendo hoy uno de los escritores contemporáneos más queridos y valorados a través de su vida dedicada a la literatura y a desentrañar la esencia del ser humano. Una fotobiografía de José Saramago es necesariamente también un retrato de la historia universal del último siglo, de los momentos, autores, corrientes de pensamiento y debates que a nosotros conforman tanto a los que hemos sido, sus contemporáneos, como a aquellos que le suceden. Es una publicación que adquiere un simbolismo particular en el momento en que se celebra el centenario del nacimiento de José Saramago o que se reviste de un valor atemporal.
