An International Annotated Bibliography of Strindberg Studies 1870-2005: The plays Michael Robinson, 2008 This copiously annotated bibliography documents and examines the whole range of commentary on Strindberg's works and activity in many fields besides the plays for which he is internationally best known These include his prose fiction and poetry his work as an historian and natural historian and his relationship to the other arts most notably his painting It is concerned with both lasting works of literary and dramatic criticism as well as reviews of his books and plays in the theatre and some more ephemeral material all of this in several languages Organised generically and by subject and individual work the bibliography enables the reader to trace the changing impact of Strindberg and his works in various countries and during different periods It is thus very much a study in reception as well as a bibliographical record of published material It traces the developing image of Strindberg and his writing both during his lifetime and in subsequent years and with frequent cross reference offers a comprehensive overview of a literary and existential project that has rarely been matched for its multifaceted diversity. The bibliography is published in three parts Volume 1 General Studies 978 0 947623 81 4 and Volume 3 Prose Poetry Miscellaneous 978 0 947623 83 8 are also now available Michael Robinson is Emeritus Professor of Drama and Scandinavian Studies at the University of East Anglia The Story of War Anna Maria Forssberg, 2017-03-15 O God we thank thee was sung in the churches of France Norwich and Sweden after military victories in the seventeenth century To celebrate Thanksgiving was a way of thanking God but also a way for the rulers to legitimize the ever ongoing wars For the inhabitants it was both an occasion for festivity and a way of getting information about what happened in the battlefield Yet the image given was selective Bloody defeats and uneventful everyday life was replaced by spectacular victories and royal glory Even though the rituals in the two countries were similar

in some ways there were also substantial differences The propaganda formulated a narrative about what war actually was and what role the rulers and their subjects should play In the crisis of 1709 this narrative was profoundly challenged The book investigates how war events were communicated to the inhabitants of France and Sweden in the seventeenth century Structures of Influence Marilyn by the Church and especially through days of thanksgiving called Te Deum in France Johns Blackwell, 2020-05-01 This collection of essays featuring contributions from eminent Swedish and American Strindberg scholars addresses the question of how Strindberg's art collides and colludes ideologically and aesthetically with the literary doyens of the nineteenth and twentieth centuries in both the Scandinavian and the larger Western cultural context Historical Novel, Transnationalism, and the Postmodern Era Susan Brantly, 2017-02-17 This volume explores the genre of the historical novel and the variety of ways in which writers choose to represent the past How does an author's nationality or gender impact their artistic choices To what extent can historical novels appeal to a transnational audience This study demonstrates how histories can communicate across national borders often by invoking or deconstructing the very notion of nationhood Furthermore it traces how the concerns of the postmodern era such as postmodern critiques of historiography colonialism identity and the Enlightenment have impacted the genre of the historical novel and shows this impact has not been uniform throughout Western culture Not all historical novels written during the postmodern era are postmodern The historical novel as a genre occupies a problematic yet significant space in Cold War literary currents torn between claims of authenticity and the impossibility of accessing the past Historical novels from England America Germany and France are compared and contrasted with historical novels from Sweden testing a variety of theoretical perspectives in the process This pitting of a center against a periphery serves to highlight traits that historical novels from the West have in common but also how they differ The historical novel is not just a local regional phenomenon but has become during the postmodern era a transnational tool for exploring how we should think of nations and nationalism and what a society should or should not look like Plays from the Cynical Life August Strindberg, 1983 The plays in this volume are one act dramas based on human situations as conceived and interpreted by Strindberg at a time when he was convinced human beings are essentially selfish self centered creatures All of them have been presented successfully in Swedish and other Scandinavian theaters The situations are surely typical people s willingness to claim credit for a fellow human being s success a mother s manipulation of her daughter's life a wife s inddifference to her mate except when others obviously wan him denigration of a mate for one s own purposes indifference to rationalization of one s sins playing with one s own and others emotions and the unhesitant destruction of a fellow human being at least partly in the name of religion Written toward the end of his pre Inferno period Strindberg labelled these plays one acters out of cynical life En aktare Ur det chniska livet Translations of two other plays The Stronger and The Bond which belong to this group were included in Pre Inferno Plays University of Washington Press 1970 In translating these plays Walter Johnson has presented American versions faithful to the original and expressed in

languages as idiomatic and natural as the original Swedish The Cambridge Companion to August Strindberg Michael Robinson, 2009-09-24 A collection of essays on the highly colourful life and work of August Strindberg dramatist Strindberg's Dramaturgy Göran Stockenström, 1988 novelist autobiographer and painter Space and Time in Epic Theater Sarah Bryant-Bertail, 2000 The development of epic theater before during and after Brecht's time and analysis of epic productions showing the form's continued relevance Bertolt Brecht and the director Erwin Piscator developed epic theater in the 1920s because they found Western realism limited to the single perspective of an individual and thus unable to confront the new realities technologicalwarfare revolution the metropolis and the mass media among others. The epic stage juxtaposed the old media of actors and scenery with new media including film photography and electronic sound Bryant Bertail provides analyses of theatrical productions in the epic tradition from before during and after Brecht's lifetime Hasek's The Good Soldier Schweik directed by Piscator Mother Courage written and directed by Brecht Lenz's The Tutor directed by Brecht Ibsen's Peer Gynt in productions directed by Peter Stein and Rustom Bharucha B chner's Leon and Lena and Les Atrides The House of Atreus from Aeschylus and Euripides directed by Ariane Mnouchkine Bryant Bertail shows that epic theater s relevance for politically engaged artists lies in its discovery that history fate and human nature are spatio temporal constructs that may be reconstructed on stage Sarah Bryant Bertail is associate professor in the School of Drama at the University of Washington History of German Speaking and Nordic Nations [ack | Kanski, 2018-12-18 In History of German Speaking and Nordic Nations Kanski describes nine countries The first part of the book covers the frequently interwoven relationship of Germany and Austria The book also includes chapters on Switzerland and the Holy Roman Empire The second part of the book describes the Nordic countries Denmark Sweden Norway Iceland and Finland These books are designed as companion texts and when read together will give readers a good understanding of the important personalities and their contributions to European history Written in a reader friendly bullet point format accompanied by many colour images Kanski s latest books will act as a stepping stone for the general reader Johnson's Universal Cyclopaedia ,1895
