and doctrinal analysis with interpretive insights **Excavating the Afterlife** Guolong Lai, 2015-03-02 In *Excavating the Afterlife* Guolong Lai explores the dialectical relationship between sociopolitical change and mortuary religion from an archaeological perspective. By examining burial structure, grave goods, and religious documents unearthed from groups of well-preserved tombs in southern China, Lai shows that new attitudes toward the dead resulting from the trauma of violent political struggle and warfare permanently altered the early Chinese conceptions of this world and the afterlife. The book grounds the important changes in religious beliefs and ritual practices firmly in the sociopolitical transition from the Warring States ca. 453–221 BCE to the early empires, 3rd century–1st century BCE. A methodologically sophisticated synthesis of archaeological, art historical, and textual sources, *Excavating the Afterlife* will be of interest to art historians, archaeologists, and textual scholars of China as well as to students of comparative religions. Imperial Tombs in Tang China, 618–907 Tonia Eckfeld, 2005-09-20 Intellectually and visually stimulating, this important landmark book looks at the religious, political, social, and artistic significance of the Imperial tombs of the Tang Dynasty, 618–907 AD. It traces the evolutionary development of the most elaborately beautiful imperial tombs to examine fundamental issues on death and the afterlife in one of the world's most sophisticated civilizations. Selected tombs are presented in terms of their structure, artistic programs, and their purposes. The author sets the tombs in the context of Chinese attitudes towards the afterlife, the politics of mausoleum architecture, and the artistic vocabulary which was becoming the mainstream of Chinese civilization.

Zhang Hongtu Luchia Meihua Lee, Jerome Silbergeld, 2016-02-05 In this book, leading art experts, art historians, and critics review the life, career, and artistic development of New York-based Chinese artist Zhang Hongtu. A pioneer in contemporary Chinese art, Zhang created the first example of China Pop art, and his oeuvre is as diverse, intellectually complex, and engaging as it is entertaining. From painting and sculpture to computer-generated works and multimedia projects, Zhang's art is equally rich in terms of China's history and its current events, containing profound reflections on China's oldest cultural habits and contemporary preoccupations. He provides a model of cross-cultural interaction designed to make Asian and Western audiences look more closely at each other and at themselves to recognize the beliefs they hold and the unexamined values they adhere to. From his early work in China during the Cultural Revolution to his decades as an artist in New York, Zhang reflects the complex attitudes of a scholar-artist toward modernity as well as toward Asian and Western societies and himself. Placing Zhang in the context of his cultural milieu, both in China and in the Chinese immigrant artist community in America, this volume's contributors examine his adaptations of classic art to reflect a contemporary sensibility, his relation to Cubism and Social Realism, his collaboration with the celebrated fashion designer Vivienne Tam, and his visual critique of China's current environmental crisis. Zhang's work will be on display at the Queens Museum in New York City from October 17, 2015, to March 6, 2016. Contributors: Julia F.
