Quest History Meaning In Religion:

The Quest Mircea Eliade,1984-05-15 In The Quest Mircea Eliade stresses the cultural function that a study of the history of religions can play in a secularized society He writes for the intelligent general reader in the hope that what he calls a new humanism will be engendered by a confrontation of modern Western man with unknown or less familiar worlds of meaning Each of these essays contains insights which will be fruitful and challenging for professional students of religion but at the same time they all retain the kind of cultural relevance and clarity of style which makes them accessible to anyone seriously concerned with man and his religious possibilities Joseph M Kitagawa Religious Education **The Quest: History and Meaning in Religion** ,1975 Category formation and the history of religions Robert D. remember as history yet how those same beliefs distort our understandings of events leaving them incomplete and contingent *Oxford Textbook of Spirituality in Healthcare* Mark Cobb,Christina Puchalski,Bruce Rumbold,2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource **In Search of the Sacred** Clinton Bennett,1996-01-01 This text traces the growth and development of two related disciplines anthropology and the study of religions Locating these disciplines within the intellectual climate of the 19th century the study considers the contributions of scholars such as James George Frazer F Max Muller Emile Durkheim Mary Douglas and Clifford Geertz within an historical framework The author argues that both anthropologists and students of religion have abandoned an objective approach in favour of personal engagement with their subjects replacing observation with conversation monologue with dialogue a text based with people based approach He reveals how each discipline has influenced the other both in terms of methodology and by the provision of data The book also explores the criticism levelled at both disciplines that they have aided colonial domination of the developing world **Encyclopedia of World Religions** Encyclopaedia Britannica, Inc.,2008-05-01 A guide to the religions of the world and to the concepts movements people and events that have shaped them It includes features such as entries on religious movements and concepts historical and legendary figures divinities religious sites and ceremonies images that show sacred places vestments rituals objects and texts and more *Experience and Religion* Wilhelm Dupré,2005 The enactment of humanity begins with experiences and culminates in the effects of coping with experiences Experience confirms the human potential but indicates also its limitations both in the sense that the absence of experiences undermines established modes of behavior and that disregard and misunderstanding of experiences lead to distorted forms of personal and cultural relations This book is an attempt to localize religion as well as the study of religions within the context of experiences and as a topic of philosophical inquiry

Focusing on the question of specifically religious experiences and investigating various models of the relationship between religion and experience the study suggests that no specific experiences are needed to understand the emergence and development of religious traditions and attitudes Assessing the implications of basic questions and attitudes in religious studies it presents a theory of religion which is rooted in the internal dynamics of being human and cultural and marked by a culture oriented understanding of philosophy The book concludes with a discussion of various phenomena which can be addressed as modes and forms of implicit religion since they do not comply with expectations of traditional or explicit religion   *Indoi* Hemkhochon Chongloi,2008 Originally presented as the author s thesis D Th Senate of Serampore College 2004 under the title A historical phenomenological study of Primal Kuki religious symbolism with special reference to Indoi in the framework of Mircea Eliades s interpretation of religious symbolism   **Recent Perspectives of Early Indian History** Romila Thapar,1995 Contributed articles   **Mircea Eliade's Vision for a New Humanism** David Cave,1993 Mircea Eliade influential writer and scholar of religion envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols Eliade foresaw this restoration of meaning bringing about a new humanism of existential meaning and cultural religious unity but left it ambiguously defined Cave sets forward a structural description of what this new humanism might have meant for Eliade and what it signifies for modern culture through a biographical exegesis of Eliade s life and writings from his early years in Romania to his last years as professor of the history of religions at the University of Chicago Addressing Eliade s political associations and espousals on Romanian politics and culture theories on myth and symbols existential and comparative hermeneutics literature of the fantastic interpretation of homo religiosus views on the loss of meaning in modern consciousness and on the cosmic spirituality of archaic humans as well as other subjects Cave sets these topics within the totality of Eliade s oeuvre and evaluates them through the lens of the new humanism Cave s book is the first to organize and evaluate the whole of Eliade s work around a guiding principle and on Eliade s own terms To augment the new humanism Cave uses data and themes from the history of religions and draws on philosophy anthropology psychology modern science and literary studies The result is a broad and probing overview of this most influential enigmatic and frequently controversial man Cave concludes by endorsing Eliade s radically pluralistic vision which he argues offers a key to the revitalization of ourdemythologized and material culture Cave also repositions previous Eliadean studies and places the new humanism as the paradigm in relation to which future readings of Eliade should be evaluated   **God** Alexander Waugh,2004-05 This is a book about God Not just any god but the god that created Adam and Eve the god of Abraham the god of the Jews the god of the Christians and the god of Islam without a doubt the most influential figure in the history of human civilization But what do we really know about him Who is he Where did he come from What does he look like What sort of character does he have What if anything does he eat Does he have a family In what ways can he be said to even exist at all Alexander Waugh has been asking questions like these for as long as he can

remember Now having drawn from an enormous range of sources from the sacred books of the Torah the Christian New Testament and the Islamic Qur an from the Greek Apocrypha and the ancient texts of Nag Hammadi to the Dead Sea Scrolls he has sought out the answers Using material gleaned from the diverse writings of saints rabbis historians prophets atheists poets and mystics he has molded his findings into a singular striking biographical portrait of God Erudite perceptive and entertaining God reveals many startling and unexpected characteristics of the divine being From the simple stories of Genesis and Job explored from God s own viewpoint to the prophecies of Muhammad and Sybil and the intricate philosophies of Newton and Nietzsche Alexander Waugh has left no stone unturned in his compulsive mission to create a fascinating and complex portrait of God as humans have claimed to understand him **Faith and Work** Timothy Ewest,2018-01-01 Those who adhere to a faith tradition are longing for theories and insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs Yet for Christians respect of other faith traditions is especially difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off Within the multiple theoretical and research dimensions of management religion and spirituality this book explores theoretical conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace and how these groups attempt to change society as a whole This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace also deemed faith at work Historically Christian s faith integration is manifested individually or collectively and is demonstrated in the ways it shapes and informs the values systems ethics character and attitudes towards work This edited volume draws themes out of the three historical epochs of the faith and work movement traced by Miller 2007 in the book God at work The history and promise of the faith at work movement These organizing themes while not congruent to the historical epochs do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace These themes include Individual integration organizational strategies for integration and societal integration American Journal of Islamic Social Sciences 8:3 AbdulHarnid A. AbiiSulaymiin,Ghulam-Haider Aasi,Khalid Blankinship,Ola Abdel-Kawi and James f i l e,Hassan Elhag Ali,Dilnawaz A. Wedemeyer,Wendy Doniger,2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach s death and the centennial of Mircea Eliade s birth Its purpose is to reconsider both the problematic separate legacies of these two major

twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach s death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people s minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men s writings and their lives and in Eliade s case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men s contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies **The Mormon Culture of Salvation** Douglas J. Davies,2018-12-07 The Mormon Culture of Salvation presents a comprehensive study of Mormon cultural and religious life offering important new theories of Mormonism one of the fastest growing movements and thought by many to be the next world religion Bringing social scientific and theological perspectives to bear on the Church of Jesus Christ of Latter day Saints Douglas Davies draws from theology history of religions anthropology sociology and psychology to present a unique example of a truly interdisciplinary analysis in religious studies Examining the many aspects of Mormon belief ritual family life and history this book presents a new interpretation of the origin of Mormonism arguing that Mormonism is rooted in the bereavement experience of Joseph Smith which influenced the development of temple ritual for the dead and the genealogical work of many Mormon families Davies shows how the Mormon commitment to work for salvation relates to current Mormon belief in conversion and to traditional Christian ideas of grace The Mormon Culture of Salvation is an important work for Mormons and non Mormons alike offering fresh insights into how Mormons see the world and work for their future glory in heavenly realms Written by a non Mormon with over 30 years research experience into Mormonism this book is essential reading for those seeking insights into new interdisciplinary forms of analysis in religion as well as all those studying or interested in Mormonism and world religions Douglas J Davies is Professor in the Study of Religion in the Department of Theology Durham University UK He is the author of many books including Death Ritual and Belief Cassell 1997 Mormon Identities in Transition Cassell 1994 Mormon Spirituality 1987 and Meaning and Salvation in Religious Studies Brill 1984 **The Elusive Presence** Samuel Terrien,2000-03-09 Terrien has made a contribution which is irreversible There will be no way to return to the more conventional models for Old Testament theology In addition to its formidable governing hypothesis the book is characterized by a style of elusiveness delightfully matching the argument a study only the urbaneness of the author could give us by an erudition evidenced by an exhaustive documentation and by rich and suggestive exegesis of a large number of texts This rich gift could only be given by Terrien with his remarkable combination of passion eloquence and erudition Walter Brueggeman Eden Theological Seminary **The Humanities** Frank
