The Searchers Joe Loconte, 2012 Scholar Joseph Loconte examines one of the most remarkable passages of Scripture an exchange in the gospel of Luke between two disciples of Jesus of Nazareth uttered just days after his execution about the Quest for Faith Ann Wright, 2011-04-19 Quest for Faith longings of the human heart and the mysterious purposes of God is the authors personal journey to understand not only her own faith but the impact of faith on society understanding God Jesus the Bible and how we all use them in our daily lives is a challenge Our beliefs affect how we perceive other people and how they perceive us but the daily tedium of life may distract us from this most important goal of our existence Quest for Faith is the first step on the most compelling journey of Anns life a quest to seek God a quest to strengthen her relationship The Ouest for Faith Chris Tebbetts, 2003 **The Christian Faith** Michael Horton, 2011-01-04 Theology the with God study of God is a concern for every believer not just theologians or those in ministry It s the goal of good theology to humble us before the triune God of majesty as we come to understand him better This is a book of and about good theology Award winning author theologian and professor Michael Horton wrote The Christian Faith as a book of systematic theology and doctrine that can be preached experienced and lived as well as understood clarified and articulated It's written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian Who understand that knowing doctrine and walking in practical Christianity are not competing interests The Christian Faith is divided into six parts five of which each focus on an aspect of God while the first part sets up an understanding and appreciation for the task of theology itself addressing topics like The source of theology where the idea of theology comes from and what its limits are The origin of the canon how the modern Bible came about and why we can trust it The character of theology is the nature of theology practical theoretical or can it be both In a manner equally as welcoming to professors pastors students and armchair theologians Horton has organized this volume in a readable fashion that includes a variety of learning features A brief synopsis of biblical passages that inform certain doctrines Surveys of past and current theologies

with contemporary emphasis on exegetical philosophical practical and theological questions Substantial interaction with various Christian movements within the Protestant Catholic and Orthodoxy traditions as well as the hermeneutical issues raised by postmodernity Charts sidebars questions for discussion and an extensive bibliography divided into different entry levels and topics At the heart of this book is a deep love for and curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of theology It isn t possible to know God without studying him

Institutional Logics within Faith-Based Aid Nina G. Kurlberg, 2024-07-19 This book investigates what faith means in the actual day to day practice of faith based NGOs working in the development humanitarian and advocacy sectors Faith based organisations play an extremely prominent role in international aid and development operating within the same sphere as organisations without an explicit religious affiliation This book uses the case study of a UK based Christian faith based organisation to develop an analytic tool using institutional logics Through exploration of how various institutional logics are manifested and negotiated across organisational practice the book describes how the telos or objective of the corporate logic to sustain the organisation interacts with the telos of the religious logic namely to worship God The book demonstrates that since organisational practices must ultimately work to sustain the organisation at the organisational level faith is restricted to certain spaces and forms while at the individual level faith is dominant and active Bringing a fresh perspective to discussions of religion and development by highlighting how faith influences development at the organisational level this book will be an important read for researchers working on global development A Collection of Confessions of Faith, Catechisms, Directories, Books of Discipline, &c. of Publick Authority in the Church of Scotland. ... Church of **Faith and Health** Thomas G. Plante, Allen C. Sherman, 2001-08-02 This volume reviews and integrates the Scotland.1719 growing body of contemporary psychological research on the links between religious faith and health outcomes It presents up to date findings from empirical studies of populations ranging from healthy individuals to those with specific clinical problems including cancer HIV AIDS and psychological disorders Drawing on multiple perspectives in psychology the book examines such critical questions as the impact of religious practices on health behaviors and health risks the role played by faith in adaptation to illness or disability and possible influences on physiological functioning and mortality Chapters reflect the close collaboration of the editors and contributing authors who discuss commonalities and differences in their work debate key methodological concerns and outline a cohesive agenda for future research Ethics, Love, and Faith in **Kierkegaard** Edward F. Mooney, 2008-07-17 Ethics Love and Faith in Kierkegaard collects essays from 13 leading scholars that center on key themes that characterize Kierkegaard's philosophy of religion With their unique focus on notions of the self views on the command to love one s neighbor thoughts on melancholy and despair and the articulation of religious vision the essays in this volume cover the breadth and depth of Kierkegaard's philosophical and religious writings Poised at the intersection of Kierkegaard's moral psychology and its religious significance they offer vivid testimony to the ongoing power

of his unique and fervent religious spirit Students and scholars alike will find new light shed on questions that define Kierkegaard's philosophy and religion today Questions of Faith Peter Berger, 2015-11-04 Leading religious and cultural commentator Peter Berger explores how and what we can believe in modern times Deals clearly with questions such as Does God exist What was so special about Jesus How can one be Christian in a pluralistic society Structured around key phrases from the Apostles Creed Draws on the Christian theological tradition and the work of other relevant thinkers such as Freud and Simone Weil The author takes the position of an open minded sceptic exploring his own beliefs Douglas John Hall, 1991-01-01 As the Christian movement nears the end of its second millennium it faces a crisis that could not have been anticipated at the close of the first thousand years or indeed by most of our own great grandparents Since the most conspicuous dimensions of the waning of Christendom have to do with material decline the decline in church membership and active attendance of Sunday services the decline in financial and physical prosperity the decline of influence in high places such analyses as there are usually belabor the obvious something drastic is happening to the churches Throughout most of its long history Christianity has not required of its adherents that they should think the faith The historical accident of its political and cultural establishment 15 centuries ago ensured that a thinking faith would be purely optional for members of the church But thought less faith which has always been a contradiction in terms is today a stage on the road to the extinction not only of Christianity itself but of whatever the architects of our civilization meant by Humanity Only a thinking faith can survive Only a thinking faith can help the world survive From the Preface Voice Cardinal Vincent Nichols, 2018-04-05 In Faith Finding a Voice Cardinal Vincent Nichols invites us to join him in an exploration of the presence of God in our lives How might we attune our ears to listen with greater attention to the voice of God through Scripture the teachings of the Church divine worship and the exercise of Caritas How might the gift of faith be realised in our lives in order that an authentic voice might be heard through our words and actions The reader is encouraged to reflect upon the mystery of the Triune God revealed to humanity and seen uniquely in Jesus Christ Drawing primarily upon the altarpiece The Nativity with Saints by Pietro Orioli Cardinal Vincent shows how by following the way and ministry of Jesus we are drawn into union with the divine now and for all eternity Through this vision the Cardinal advocates the necessity of theological and religious literacy for the common good of society This engagement encourages us to nourish the seeds of hope and to strive to build a more peaceful world through inter faith dialogue Such dialogue is enhanced the Cardinal believes through the baptised faithful understanding their role as missionary disciples Pope Francis Evangelii Gaudium 120 The ministries of the Church are portrayed as an interlocking framework in which the unity of the faithful may glorify God and serve humanity through the voice of evangelization The Faith of Jesus Richard W. Kropf, 2006-01-01 Combining the faith development theory of James Fowler with the psychodynamics of Viktor Frankl and utilizing many of the insights of contemporary biblical scholarship the author has here proposed a unique and provocative interpretation of the life

of Jesus as described in the Epistle to the Hebrews as the leader and perfector of faith No doubt many will find this approach to a life of Christ to be novel even disturbingly unorthodox Yet it has been written in the conviction that the faith of most Christians for the most part has fallen into the heresy of monophysitism if not in theory at least in practice amounting to a denial of Jesus as a human being and as a result a person of faith In addition in his Christological Postscript the author has sketched out the beginnings of a new more evolutionary approach to understanding how Jesus might be understood to be divine even while remaining the fully human character depicted in this book Dimensions of Faith Steve Donaldson, 2015-07-28 In Dimensions of Faith cognitive scientist Steve Donaldson takes readers on a journey from the world of assumptions set minds widely varying beliefs and popular misconceptions to an understanding of the true essence and role of faith as the natural and inevitable product of brains Using numerous illustrations and examples Donaldson shows how faith is necessitated by a variety of unavoidable limitations exposes the myth of a divide between faith and critical thinking provides practical advice for crafting coherent beliefs and explains why there can never be such a place as Factland Along the way he takes a special look at religious faith evaluating its attributes exploring its relation to other manifestations of faith investigating whether God has done his job well enough to warrant the faith placed in him and pondering how truth seekers can sometimes end up in very different places Faith, Doubt, and Reason Brent A. R. Hege, 2020-02-05 Faith doubt and reason are universal human faculties yet they are frequently misunderstood denigrated and even abused What does it mean to have faith and what distinguishes faith from belief Can someone have faith without religious commitments What is doubt and what is its relationship to faith and belief How do we make sense of evil and suffering What roles does reason play in our lives What do we do when we have the sneaking suspicion that life is absurd What do we love and what do we fear How do faith doubt and reason interrelate Faith doubt and reason not only can work together they must work together if we are to live lives of meaning and purpose This book explores the significance of these three universal human faculties and the central role they play in our quest for the meaning of life Drawing on classic texts in theology philosophy literature and the Bible Faith Doubt and Reason invites readers to delve deeply into the quest for the meaning of life in all its ambiguity mystery and tragic beauty **Faith at the Intersection of History and Experience** Brent A. R. Hege, 2009-01-01 This present study is the first in Engli Georg Wobbermin 1869 1943 who has been called a captain of the liberal rearguard Widely read and discussed in his own lifetime Wobbermin's theology fell into obscurity as dialectical theology rose to prominence in the years following the First World War Faith at the Intersection of History and Experience presents the major themes of Wobbermin s theology particularly his analysis of the relationship between faith and history and his development of a religio psychological theological method that places faith at the intersection of history and experience Wobbermin's critiques of recent and contemporary approaches to the problem of faith and history and his attention to theological method reveal a sustained effort to continue what he called the Luther Kant Schleiermacher line of Protestant theology The consistent emphasis in

Wobbermin s theology is on the systematic interrelation of objectivity and subjectivity an approach he considered to be a faithful continuation of the Reformation but one that invited conflict with the dialectical theologians chiefly Karl Barth Wobbermin s debates with Barth on issues of method reveal a vibrant and sophisticated liberal theology co existing with the dialectical theology that is conventionally assumed to have eclipsed it over a decade earlier Building on work that has been done primarily in German this study of one of the forgotten theologians of the early twentieth century appears as more German British and American theologians and historians are returning to this period of theology with renewed interest and fresh questions and it addresses an often neglected period of modern Protestant thought in histories currently available in English
