Ben Shahn's New Deal Murals Diana L. Linden, 2015-10-15 A study of Ben Shahn's New Deal murals 1933-43 in the context of American Jewish history labor history and public discourse Lithuanian born artist Ben Shahn learned fresco painting as an assistant to Diego Rivera in the 1930s and created his own visually powerful technically sophisticated and stylistically innovative artworks as part of the New Deal Arts Project's national mural program In Ben Shahn's New Deal Murals Jewish Identity in the American Scene author Diana L. Linden demonstrates that Shahn mined his Jewish heritage and left leaning politics for his style and subject matter offering insight into his murals creation and their sometimes complicated reception by officials the public and the press In four chapters Linden presents case studies of select Shahn murals that were created from 1933 to 1943 and are located in public buildings in New York New Jersey and Missouri She studies Shahn's famous untitled fresco for the Jersey Homesteads a utopian socialist cooperative community populated with former Jewish garment workers and funded under the New Deal Shahn's mural for the Bronx Central Post Office a fresco Shahn proposed to the post office in St Louis and a related one panel easel painting titled The First Amendment located in a Queens New York post office By investigating the role of Jewish identity in Shahn's works Linden considers the artist's responses to important issues of the era such as President Roosevelt's opposition to open immigration to the United States New York's bustling garment industry and its labor unions ideological concerns about freedom and liberty that had significant meaning to Jews and the encroachment of censorship into American

art Linden shows that throughout his public murals Shahn literally painted Jews into the American scene with his subjects themes and compositions Readers interested in Jewish American history art history and Depression era American culture will enjoy this insightful volume *Immigration and Welfare* Michael Bommers, Andrew Geddes, 2000 This timely and original book explores new migration challenges such as asylum seekers and Europe's increasingly restrictive immigration policies

Re-Constructing the Man of Steel Martin Lund, 2016-11-17 In this book Martin Lund challenges contemporary claims about the original Superman's supposed Jewishness and offers a critical re-reading of the earliest Superman comics Engaging in critical dialogue with extant writing on the subject Lund argues that much of recent popular and scholarly writing on Superman as a Jewish character is a product of the ethnic revival rather than critical investigations of the past and as such does not stand up to historical scrutiny In place of these readings this book offers a new understanding of the Superman created by Jerry Siegel and Joe Shuster in the mid 1930s presenting him as an authentically Jewish American character in his own time for good and ill On the way to this conclusion this book questions many popular claims about Superman including that he is a golem a Moses figure or has a Hebrew name In place of such notions Lund offers contextual readings of Superman as he first appeared touching on among other ideas Jewish American affinities with the Roosevelt White House the whitening effects of popular culture Jewish gender stereotypes and the struggles faced by Jewish Americans during the historical peak of American anti-Semitism In this book Lund makes a call to stem the diffusion of myth into accepted truth stressing the importance of contextualizing the Jewish heritage of the creators of Superman By critically taking into account historical understandings of Jewishness and the comics creative contexts this book challenges reigning assumptions about Superman and other superheroes cultural roles not only for the benefit of Jewish studies but for American Cultural and Comics studies as a whole **Inclusive Education in the Middle East** Eman Gaad, 2010-09-13 The potential

of adopting inclusive education to support learning for all is an international phenomenon that is finding its way to the Middle East and the Arabian region Eman Gaad examines the current status of inclusive education in Arabia and the Middle East through an assessment of the latest international regional and local research into inclusive education With a focus on the more complex areas of related cultural practice and attitudes towards inclusive education in this dynamic and fast changing part of the world Gaad offers a research based analysis of the current educational status of the Arabian Gulf and some Middle Eastern countries that adopted inclusive practice in education and others that are yet to follow This book will be of great interest to students academics teachers and therapists in the field of comparative and inclusive education as well as those with an interest in policies of education in the dynamic and culturally distinguished Middle Eastern Arabian region

The Abolition of White Democracy Joel Olson, 2004 Racial discrimination embodies inequality exclusion and injustice and as such has no place in a democratic society And yet racial matters pervade nearly every aspect of American life influencing where we live what schools we attend the friends we make the votes we cast the opportunities we enjoy and even

the television shows we watch Joel Olson contends that given the history of slavery and segregation in the United States American citizenship is a form of racial privilege in which whites are equal to each other but superior to everyone else In Olson s analysis we see how the tension in this equation produces a passive form of democracy that discourages extensive participation in politics because it treats citizenship as an identity to possess rather than as a source of empowerment Olson traces this tension and its disenfranchising effects from the colonial era to our own demonstrating how after the civil rights movement whiteness has become less a form of standing and more a norm that cements while advantages in the ordinary operations of modern society To break this pattern Olson suggests an abolitionist democratic political theory that makes the fight against racial discrimination a prerequisite for expanding democratic participation **Toleration as Recognition**

Anna Elisabetta Galeotti,2002-03-14 In this 2002 book Anna Elisabetta Galeotti examines the most intractable problems which toleration encounters and argues that what is really at stake is not religious or moral disagreement but the unequal status of different social groups Liberal theories of toleration fail to grasp this and consequently come up with normative solutions that are inadequate when confronted with controversial cases Galeotti proposes as an alternative toleration as recognition which addresses the problem of according equal respect to groups as well as equal liberty to individuals She offers an interpretation that is both a revision and an expansion of liberal theory in which toleration constitutes an important component not only of a theory of justice but also of the politics of identity Her study will appeal to a wide range of readers in political philosophy political theory and law Inclusive Education and the Issue of Change A. All New, All Different? Allan W. Austin, Patrick L. Hamilton, 2019-11-05 Taking a multifaceted approach to attitudes toward race through popular culture and the American superhero All New All Different explores a topic that until now has only received more discrete examination Considering Marvel DC and lesser known texts and heroes this illuminating work charts eighty years of evolution in the portrayal of race in comics as well as in film and on television Beginning with World War II the authors trace the vexed depictions in early superhero stories considering both Asian villains and nonwhite sidekicks While the emergence of Black Panther Black Lightning Luke Cage Storm and other

heroes in the 1960s and 1970s reflected a cultural revolution the book reveals how nonwhite superheroes nonetheless remained grounded in outdated assumptions Multiculturalism encouraged further diversity with 1980s superteams the minority run company Milestone s new characters in the 1990s and the arrival of Ms Marvel a Pakistani American heroine and a new Latinx Spider Man in the 2000s Concluding with contemporary efforts to make both a profit and a positive impact on society All New All Different enriches our understanding of the complex issues of racial representation in American popular culture

After They Closed the Gates Libby Garland, 2014-03-28 In 1921 and 1924 the United States passed laws to sharply reduce the influx of immigrants into the country By allocating only small quotas to the nations of southern and eastern Europe and banning almost all immigration from Asia the new laws were supposed to stem the tide of foreigners considered especially inferior and dangerous However immigrants continued to come sailing into the port of New York with fake passports or from Cuba to Florida hidden in the holds of boats loaded with contraband liquor Jews one of the main targets of the quota laws figured prominently in the new international underworld of illegal immigration However they ultimately managed to escape permanent association with the identity of the illegal alien in a way that other groups such as Mexicans thus far have not In After They Closed the Gates Libby Garland tells the untold stories of the Jewish migrants and smugglers involved in that underworld showing how such stories contributed to growing national anxieties about illegal immigration Garland also helps us understand how Jews were linked to and then unlinked from the specter of illegal immigration By tracing this complex history Garland offers compelling insights into the contingent nature of citizenship belonging and Americanness
