

The background of the entire image is a green-toned photograph of a person sitting in a meditative pose, possibly a Buddhist monk, with their hands resting on their knees. A large, dark, textured question mark is superimposed over the upper left portion of the image, partially obscuring the person's head and shoulders. The title text is centered in the lower half of the image.

Einstein Questions, Buddha Answers Supphawan Green,2012 **Questions and Buddha's Answers** Egerton C. Baptist,1983 **Difficult Questions Have Easy Answers** Atina Hseham,2023-12-06 An inquiry made to obtain any information is known as an interrogation While asking the person tries to get an answer that allows him to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the

weights are equal And What happened in Kolkata yesterday from 8 to 9 o'clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn't say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people's knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations

The Life of the Buddha - Part One and Part Two REV. SIRIDHAMMA, This short introduction of the Life of the Buddha rendered as Part I of a two volume work was compiled by the Rev Siri Dhamma when he was a novice monk in the Brickfields Buddhist Temple After the script had been completed the Venerable H Guna ratna and Mr Lim Eng Chuan went through the details and each gave suggestions and ideas which had since then been incorporated and used to complete this valuable booklet This publication meets a long felt need for a suitable text book for Lower Secondary School standards that deals particularly with the period of earthly existence of the Buddha Although the account of the Life in the book is set down very briefly I believe that this presentation offers a good deal of material for the study of our Great Master's Life Teachers of the Dhamma classes in the various Buddhist Sunday Schools and even other religious institutions may elaborate on certain lessons to their satisfaction in their classes when this booklet is used as a textbook Since the material dealt with is very fundamental and comprises the basic knowledge desired of a junior beginning the study of Buddhism it is recommended that teacher make sure the students have grasped the principles involved in each topic or lessons by getting the class to answer questions set down at the end of every chapter The omission of legend and the absence of accounts of miracles from the compilation is intended to indicate that the contribution of the Buddha to world Happiness and His Supreme Enlightenment when he was born a man had successfully bridged the gap between man and divinity is more than enough for anyone who seeks the Truth to appreciate and accept the Method of the Great Master without having to call on miracles and legends to highlight His life As a compensation for the many pages of words and words

there are several good illustrations pertaining to the Life of the Buddha I believe our young readers will be pleased with these illustrations as they have been specially selected for the book having relevant bearing on the period the custom as well as the dignity of the occasion for each topic represented Many of the illustrations are by courtesy of the Buddhist Information Centre Sri Lanka Thanks are due to the Buddhist Missionary Society for undertaking the publication of the two volumes and for meeting the cost of printing *Buddhist Thought* Paul Williams, Anthony Tribe, Alexander Wynne, 2012-03-12 This book serves as an accessible and reliable survey for students wishing to gain familiarity with the basic ideas of Buddhist philosophical and religious thought and with some of the recent research in the field It guides readers towards a richer understanding of the central concepts of classical Indian Buddhist thought from the time of Buddha to the latest scholarly perspectives and controversies Abstract and complex ideas are made understandable by the authors clear and engaging style The second edition has been fully revised in light of new scholarship in particular on Mahayana Buddhism and Tantric Buddhism an often neglected and inadequately understood topic As well as a detailed bibliography this authoritative resource now includes recommended further reading study questions a pronunciation guide and extensive glossary of terms all aimed at helping students to develop their knowledge and appreciation of Buddhist thought *The Essentials of Buddhist Philosophy* Junjiro Takakusu, Charles A. Moore, 2014-01-01 Buddhism had already spread far into other countries before it declined in India in the eleventh century A D Hinayana flourished in Ceylon Burma Siam and Cambodia Mystic Buddhism developed in Tibet Mahayana grew in China In Japan the whole of Buddhism became the living and active faith of the masses The present study relates to Japanese Buddhism as in Japan alone the whole of Buddhism is preserved The author presents Buddhist Philosophy in an ideological sequence and not in its historical sequence as Prof Stcherbatsky has done in his Buddhist logic But the ideological sequence as presented by the author is not the sequence in the development of ideas it is rather the systematization of the different schools of thought for the purpose of an easier approach Divided into fifteen chapters the book deals with different schools of Buddhist Philosophy The author has grouped these schools under two heads 1 the schools of negative rationalism i.e. the religion of Dialectic Investigation and 2 the schools of Introspective Intuitionism i.e. the Religion of Meditative Experience The author treats these schools in the most scientific and elaborate way **The Fish in the Sea is Not Thirsty** Osho, 2023-03-15 The fish in the sea is not thirsty but man is Man lives in God and is absolutely unaware of it Man is born in God breathes in God and one day will dissolve in God MAN IS GOD made of the stuff called God and yet completely oblivious of the fact The fish is not thirsty in the sea but man is God is the sea God surrounds you within and without All that is is divine God is not a person God is the presence that is overflowing everywhere in all directions The radiance the beauty of existence the splendour the majestic the miraculous the mysterious the whole magic of life is God God has not to be worshipped God has to be lived And to live God you need not go anywhere you are already in him To live God you need not cultivate any character God is already the case He is your consciousness **Death is Divine**

Osho,2024-05-02 DIE O YOGI DIE What a wonderful statement He says die disappear be completely obliterated DIE O YOGI DIE DIE SWEET IS DYING Because in this universe there is nothing sweeter than death DIE THAT DEATH and die such a death GORAKH DIED AND SAW die that way in which Gorakh attained enlightenment In the same way you die and see One death we are already familiar with in which the body dies but our ego and mind go on living This same ego finds a new womb This same ego troubled by new desires again starts off on the journey Even before leaving behind one body it is already eager for another This death is not the real death *Gotama The Buddha* Dr. Dhananjay Chavan, A book not only for every follower of the Buddha around the world but also for every person who wants to understand the Buddha This book is a study with a heart but one where reason is allowed to be free In any study of the historical Buddha there are two major obstacles to confront Firstly there are the systematic prejudices that developed against him through the centuries in his own country Secondly some of the fantastic myths associated with him can give pause to a modern man of science As this book shows however these hurdles can be readily surmounted This is done by responding to the Buddha s famous exhortation to come and see Rather than accept the Buddha blindly the book invites readers to simply open their hearts and minds enough to examine him in a fair manner Though the author uses the Tipitaka as his primary authority he does not tie himself to any particular tradition The Buddha s universal teaching came out of the Indian subcontinent s agrarian culture He was firmly rooted in this world and not in any heavenly realms The book takes the reader on a journey into the life and the teachings of this son of Earth an extraordinary human being who offered his fellow humans a timeless road map to a happy life The book also raises questions that will hopefully help to foster healthy dialogue in the true spirit in which the Buddha wanted others to look at and follow his teaching **For the solution of the 'Caste' question Buddha is not enough Ambedkar is not enough either Marx is a Must** Ranganayakamma, For the solution of the Caste question Buddha is not enough Ambedkar is not enough either Marx is a Must This is neither Buddha s biography nor Ambedkar s Further it is not Marx s biography either This is a discussion concerning the Dalit question based exclusively on Ambedkar s writings However I have confined myself only to those writings that deal with the Dalit question and Caste system Ambedkar had also discussed other issues like Division of labour Division of Labourers poverty unemployment and economic exploitation These issues are connected with the Dalit question and the Caste system Hence all these issues find place in this book Ambedkar had also written on other themes like the Problem of the Rupee and Large Scale Industry But I have not included those issues which are not directly connected with the Dalit question Even regarding Gandhi I have not considered issues other than those Ambedkar cited in connection with the Dalit question For the purpose of this essay I wanted to rely only on Ambedkar s writings But in couple of contexts where I could not find relevant information in Ambedkar s works I had to turn to a few references from his biographies I have given these details in the respective contexts The world needs the theory that is powerful enough to illuminate the path It is irrelevant whether that theoretician is Buddha Marx Ambedkar or someone else That which remedies

the disease alone is a medicine That which emancipates from sufferings alone is the higher path If it is Buddhism we are obliged to follow it to revere it The question however is to ascertain which is the higher path This is the thing which we must ascertain We are obliged to follow the thing which we ascertain to be the higher path We need to read Ambedkar s writings in order to arrive at a correct understanding of many issues which he discussed the caste system untouchability poverty Buddhism Marxism etc We have to read them carefully and seriously Whatever we read we have to take everything that is useful We have to follow it We have to correct whatever needs correction We have to abandon whatever is not useful To do all this however we must first understand Ambedkar s ideas correctly Problems like castes and untouchability are not things that have arisen so to speak yesterday or today They have been entrenched for thousands of years But we don t have any written literature other than religious texts and some inscription that tells about them The available sources may not be useful in many contexts Yet they may be useful to some extent in some contexts When we don t find clear cut bases for the problems however there is no way out except attempting to understand them by means of our own logic
