Live Questions in Ethics and Moral Philosophy Tom Sorell,Norman E. Bowie,2003 *Elementary Questions on Moral Philosophy* E. H. Cetra,1929 *Life's Hardest Questions: An Introduction to Moral Philosophy* Frederik Kaufman,2009-03-09 This moral philosophy text with readings embraces Socrates observation that ethics is no small matter but how we ought to live How ought we to live This hard question captures the full range of moral inquiry from traditional moral theory to contemporary moral issues such as abortion capital punishment and war But there is much more to moral philosophy How should we be as people When should we forgive Are we capable of morality What about non western ethics And most distressing of all why be moral in the first place These and other challenging questions show the profundity and inescapable importance of moral philosophy for a life worth living *Life s Hardest Questions* combines lively and informative introductory discussions with classic and contemporary writings in moral philosophy **Ethical Questions** Thomas Cogan,1817 Moral Questions Jon Nuttall,2013-07-03 This new introduction to ethics is written for students who are approaching philosophy for the first time **The Big Questions: Ethics** Julian Baggini,2014-05-06 The Big Questions series is designed to let renowned experts confront the 20 most fundamental and frequently asked questions of a major branch of science or philosophy In *The Big Questions Ethics* Julian Baggini one of Britain s best known philosophers condenses complex contemporary issues of right and wrong into 20 key questions He examines how we can start to answer them what they might mean to us and how they influence the way we choose to live our lives Among the ideas debated are What is free will Can it ever be right to kill Is terrorism ever justified Should euthanasia be legal Are some people superior to others Do animals have rights **Moral Dilemmas** Philippa Foot,2002-10-17 *Moral Dilemmas* is the second volume of collected essays by the eminent moral philosopher Philippa Foot It fills the gap between her famous 1978 collection *Virtues and Vices* now reissued and her acclaimed monograph *Natural Goodness* published in 2001 *Moral Dilemmas* presents the best of Professor Foot s work from the late 1970s to the 1990s In these essays she develops further her influential critique of the non cognitivist approaches that have dominated moral philosophy over the last fifty years She shows why it is a mistake to think of morality in terms of special psychological states expressed in special kinds of judgement and a special moral kind of language Instead she portrays thoughts about the goodness of human will and action as a particular case of the evaluation of other operations of human beings and indeed of all living things Among other topics she discusses the nature of moral judgement practical rationality and the conflict of virtue with desire and self interest *Moral Dilemmas* alongside Professor Foot s other two books completes the summation of her distinctive and lasting contribution to twentieth century moral philosophy **A Manual of Moral Philosophy** Andrew Preston Peabody,1873 Moral Philosophy Andreas Sofroniou,Professor Andreas Sofroniou, PhD, D.Sc.,2011-09-15 *MORAL PHILOSOPHY* The terms ethics and morality are

closely related We now often refer to ethical judgments or ethical principles where it once would have been more common to speak of moral judgments or moral principles These applications are an extension of the meaning of ethics Strictly speaking however the term refers not to morality itself but to the field of study or branch of inquiry that has morality as its subject matter In this sense ethics is equivalent to moral philosophy Although ethics has always been viewed as a branch of philosophy its all embracing practical nature links it with many other areas of study including anthropology biology medicine economics history politics psychology sociology and theology
