Heritage, Communities and Archaeology Laurajane Smith, Emma Waterton, 2013-11-20 This book traces the development of community archaeology identifying both its advantages and disadvantages by describing how and why tensions have arisen between archaeological and community understandings of the past The focus of this book is the conceptual disjunction between heritage and data and the problems this poses for both archaeologists and communities in communicating and engaging with each other In order to explain the extent of the miscommunication that can occur the authors examine the ways in which a range of community groups including communities of expertise define and negotiate memory and identity Importantly they explore the ways in which these expressions are used or are taken up in struggles over cultural recognition and ultimately the practical ethical political and theoretical implications this has for archaeologists engaging in community work Finally they argue that there are very real advantages for archaeological research theory and practice to be gained from engaging with communities

Qualitative Methods in Migration Studies Dr Theodoros Iosifides, 2013-01-28 Recent years have witnessed growing interest in a series of

issues related to migration including identity formation and change the role of social capital and social networks ethnic discrimination racism and xenophobia socio political participation and mobilisation and the complex nature of the causal mechanisms linked to migration issues that are better highlighted and investigated using qualitative methods Moving away from the quantitative and empiricist positivist approaches that have often characterised migration research *Qualitative Methods in Migration Studies* explores in a concise but comprehensive way the key issues involved in researching migratory phenomena in a qualitative manner It addresses themes including the basic characteristics of contemporary migration qualitative research into social processes related to migration and the relationship between theory research design and practice Drawing upon empirical case studies and a series of real and hypothetical examples the book develops a critical realist alternative both to empiricism and interpretivist social constructionist and post structuralist relativism in qualitative migration research With special emphasis on the meta theoretical dimensions of qualitative research practice this volume connects qualitative findings to policy formation and politics making exploring the multiple dimensions involved in researching migratory phenomena such as ontology epistemology methodology ethics and research practice As such it will be of interest to students and researchers in migration across the social sciences

Contrastive Analysis of News Text Types in Russian, British and American Business Online and Print Media Anastasiya Kornetzki, 2012-03-01 This book is devoted to the analysis of cross media and cross cultural peculiarities of Russian British and American media discourse from the intertextual perspective The study of a complex variety of intertextual links which exist between texts and genres is a contemporary aspect in the theory of intertextuality There are numerous theoretical approaches in the study of intertextuality but there is a lack of an empirically profound framework for its analysis across many disciplines An interdisciplinary approach to the study of intertextuality is a necessary step to investigate this phenomenon comprehensively This book offers an alternative approach to the study of intertextuality singling out intra textual textual and inter genre levels on which this phenomenon comes to the fore

State Power Bob Jessop, 2013-04-26 Bob Jessop presents an up to date account of his distinctive approach to the dialectics of structure and strategy in the exercise of state power While his earlier work critically surveys other state theories this book focuses on the development of his own strategic relational approach It introduces its main sources outlines its development applies this approach to four case studies and sketches a strategic relational research agenda Thus the book presents a comprehensive theoretical statement of the approach and guidelines for its application Key features of the book include an account of the authors theoretical development a review of recent developments in state theory and the cultural turn in political economy critical strategic relational readings of major state theorists Marx on political representation Gramsci on the spatiality of state power Poulantzas on the state as a social relation and the later Foucault on statecraft applications of the strategic relational approach to important issues concerning the contemporary state its gendered selectivity the future of the national state the states temporal sovereignty and the relevance of multi scalar

meta governance in Europe for the more general future of the state The book concludes with recommendations for future strategic relational research in political economy and state theory New Materialist Explorations into Language Education Johanna Ennser-Kananen,Taina Saarinen,2022-10-10 This open access book analyzes language education through a socio material framework The authors revisit their position as researchers by decentering themselves and humans in general from the main focus of research activities and giving way to the materialities that are agential but often overlooked parts of our research contexts and processes Through this critical posthumanist realism they are able to engage in research that sees society as an ethical interrelationship between humans and the material world and explore the socio materialities of language education from the perspectives of material agency spatial and embodied materiality and human and non human assemblages Each chapter explores language educational contexts through a unique lens of socio materiality Based on how the authors conceptualize socio materiality the book is organized in three sections that seek answers to the following overarching questions In what ways do material agencies emerge in language educational contexts How are educational choices and experiences intertwined with materialities of spaces and bodies What assemblages of human and non human may occur in language education contexts Each chapter questions in its own way the notion of the human subject as rational enlightened being and sole possessor of agency and offers examples of allowing for other than human agency to enter the picture Together the contributors exemplify how researchers who have been committed to social constructionist thinking for most of their careers learn to make space for new theories thus inspiring and encouraging readers to remain open for new intellectual and embodied endeavors **Security in Translation** H. Stritzel,2014-08-12 Security in Translation proposes an innovative way to capture the evolution spread and local transformation of threat images in world affairs Reworking traditional securitization theory this book develops a coherent new framework for analysis that makes securitization theory applicable to empirical studies **Epistemology: Key Concepts in Philosophy** Christopher Norris,2005-09-15 Key Concepts in Philosophy is a series of concise accessible and engaging introductions to the core ideas and topics encountered in the study of philosophy Specially written to meet the needs of students and those with little prior knowledge of the subject these books open up a whole range of important yet often difficult ideas The series builds to give a solid grounding in philosophy and each book is also ideal as a companion to further study Epistemology inquiry into the nature possibility and scope of human knowledge has been at the heart of the philosophy from ancient Greek times to the present Christopher Norris provides a lucid survey and analysis of the issues that have shaped that enterprise and continue to dominate present day discussion He also brings out with exceptional clarity the ways in which certain technical issues in epistemology can have a decisive bearing on matters of practical concern The text highlights continuities and contrasts between early and contemporary approaches and between the sorts of thinking that have typified the mainstream analytic and the modern continental lines of descent Norris introduces the main topics of debate among them arguments for and against adopting a

realist position with regard to various fields of knowledge from mathematics to the physical sciences and history Philosophy undergraduates will find this an invaluable aid to study one that goes beyond simple definitions and summaries to open up a new and stimulating range of ideas

Contributions to Social Ontology Clive Lawson, John Spiro Latsis, Nuno Martins, 2013-01-11 Recent years have seen a dramatic re emergence of interest in ontology From philosophy and social sciences to artificial intelligence and computer science ontology is gaining interdisciplinary influence as a popular tool for applied research *Contributions to Social Ontology* focuses specifically on these developments within the social sciences The contributions reveal that this revived interest in social ontology involves far more than an unquestioning acceptance or application of the concepts and methods of academic philosophers Instead as ontology permeates so many new areas social ontology itself is evolving in new and fascinating ways This book engages with these new developments pushing it forward with cutting edge new material from leading authors in this area from Roy Bhaskar to Margaret Archer It also explicitly analyzes the relationship between the new ontological projects and the more traditional approaches This book will be of great interest to students and researchers alike across the social sciences and particularly in philosophy economics and sociology

Interpretation and Social Knowledge Isaac Ariail Reed, 2024-05-31 For the past fifty years anxiety over naturalism has driven debates in social theory One side sees social science as another kind of natural science while the other rejects the possibility of objective and explanatory knowledge *Interpretation and Social Knowledge* suggests a different route offering a way forward for an antinaturalist sociology that overcomes the opposition between interpretation and explanation and uses theory to build concrete historically specific causal explanations of social phenomena

Critical Methods in Terrorism Studies Priya Dixit, Jacob L. Stump, 2015-06-26 This book shows how to use a range of critical approaches to conduct research on terrorism Featuring the work of researchers who have already utilized these methods to study terrorism it includes a diverse range of critical methodological approaches including discourse analysis feminist postcolonial ethnographic critical theory and visual analysis of terrorism The main objectives of the book are to assist researchers in adopting and applying various critical approaches to the study of terrorism This goal is achieved by bringing together a number of different scholars working on the topic of terrorism from a range of non variables based approaches Their individual chapters discuss explicitly the research methods used and methodological commitments made by the authors while also illustrating the application of their particular critical perspective to the topic of terrorism The authors of each chapter will discuss 1 why they chose their specific critical method 2 how they justified their methodological stance 3 how they conduct their research 4 and finally an example of the research This book will be essential reading for students of terrorism studies and critical terrorism studies and highly recommended for students of political violence security studies and IR
