Poison Reality Lord M. Shaheed Aadam, 2009-04-20 Poison Reality America faces its toughest decisions America has now had its first Black President Woman President and many other different ethnic groups However Americans has had it with politics and have decided to elect its first Monarch to begin its Kingdom After battling for freedom over 300 years ago from a Monarch the people have discovered that having a Head of State is essential in handling all affairs There are several Royal families that are residing within the future Kingdom of America One of the ruling families Luqman is dominating the world of finance NO one over the world can operate without their say so HRH His Royal Highness Mikail Luqman is the head of this ruling family He and his 3 siblings set off on a mission to be on the top in the financial world As HRH Mikail sets out on projects to build various real estates over the world he makes a deal with the American government that allows him to be super rich beyond his wildest dreams and provides the main avenue for America to never go into the red again Its a deal that allows his family to rule for decades Baroness Jamella Luqman has an affair with a Saudi Royal where she uses her ways to get what she want but this comes with a price People are jealous of this ruling family and people in Corporate America want to know how they rule for so long and what they are doing So they send in one of their own who ends up becoming a Luqman With twists and tails of deceit it is really hard to know who trusts who in this story And Lord Nelda has a few decendants where one of them fights for reparations for Black people in America A Muslim of Jewish descent travels to England and requests for reparations from them where it has an effect on America However this turns out to be more than what he expects *Understanding Prime-Ministerial Performance* Paul Strangio, Paul 't Hart, James Walter, 2013-03-28 Prime ministers stand at the apex of government and loom large in the consciousness of the nations they lead This book examines how prime ministers operate and how their performance as public leaders can be understood and evaluated Is Present Reality Vipin Gupta, 2021-02-19 Is Present Realty The Super science of the transcendental value investigates our reality as an entity who has the power to shape the present and be the light that affirms our presence in the eternal future The transcendental value of the past is immanent within the present The present becomes the subject of scientific investigation The entity who conceived the scientifically investigable present is the super scientific factor whose reality transcends beyond the limits of science An observer behaves as a mirror image of the present and uses the light of self consciousness for illuminating the reality of the universe Without the observer s light the present of the universe is the dark matter Once the observer services the sentient light force the future of the observer is the black hole As a manager of our reality we have an option not to transform our sentient energy into a light force behaving as if we are the white star source of light for illuminating the reality of the universe Instead we may invest our energy for conceiving a different reality at any moment that thereafter constitutes the past Such unique reality is scientifically observable in the present as the illuminated matter The illuminated matter is a proportion of the present which is the dark matter Thus if an observer observes the illuminated

matter as the rope it might as well be a body of atoms that eventually transforms into a body of cells That body of cells may be the reality of a snake What we observe and experience in the present is not necessarily the reality This work reveals the blockages that limit our vision s dimensionality and the solutions to be the reality that shapes the eternal present Dr Vipin Gupta has a Ph D in managerial science and applied economics from the Wharton School of the University of Pennsylvania He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad India He is a Professor of sensible management and appropriate science at the Jack H Brown College of Business and Public Administration California State University San Bernardino USA

Process and Reality Alfred North Whitehead,1929 **Dispositional Reality** Lorenzo Azzano,2024-03-01 Dispositionalism perhaps the most popular variant of non Humean metaphysics submits that dispositions powers or capacities are part of the furniture of the world In this book I advance an original approach to dispositionalism revolving around the notion of Dispositional Reality the novelty lies in the fact that the account unlike most alternatives on the market does not require the reification of objects facts properties nor their dispositional essences and is in fact compatible with a far more deflationary approach to dispositions while still being true to the non Humean spirit of the proposal This power metaphysics without powers allows one to dispel several puzzles in recent literature or recast them under a new light Albeit with its own peculiarities this proposal constitutes a variant of explanatory dispositionalism according to which realism about dispositions ought not to be understood as an ontological inflation but as an explanatory inversion within thenomic and modal family Some of these explanations are hereby attempted and a study of various types of non causal explanation will be provided Cable Television Prime Time Programming, 1990-2010 Mitchell E.

Shapiro,2014-01-10 This reference work is an authoritative chronicle of prime time television programming on 20 major cable networks A E ABC Family AMC BET Bravo Comedy Central The Disney Channel FX GSN HBO Lifetime MTV Nickelodeon Oxygen Showtime Spike TBS TNT USA and VH1 These 20 represent the mass oriented cable networks that have been most involved in airing original programming From January 1990 through December 2010 a detailed listing for each network includes its prime time scheduling history as well as a brief description of each program and a brief bio of each network **Christ and the Moral Life** James M. Gustafson,1979-06-15 In this work originally published in 1968 the distinguished theologian James M Gustafson asks the fundamental question What is the significance of Jesus Christ for the moral life His answer is in the form of an ethical map showing the ways in which theological affirmations about Christ relate to moral life in the writings of a number of important Christian thinkers

The Blade of Shattered Hope James Dashner,2011-02-22 James Dashner s debut fantasy series The 13th Reality is sure to keep readers guessing and coming back for more What is Present Reality Vipin Gupta,2021-02-16 What is present reality is an incredibly profound but straightforward exposition of the limits of science Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day One such world comprises the manifold versions of relativity theories measuring E

mc2 Suppose one deified scientist had not mathematically derived the value of energy in this way In that case today s scientists will not bind their understanding to the light serviced by the deified leader scientist traded and squared by them as a devoted follower Evidently when one conceives energy as mc2 its value without the presence of the leader deity is zero This landmark work grounded in India s ancient cultural metaphysics challenges the present reality of what we know and believe to be true whether about divinity or spirituality or the universe of objects or subjects or us as a person A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on modifying that It is a part of a series of twelve books that democratizes the ability to understand our present reality beyond those who are experts in modern science and use this understanding for personal as well as societal well being The beta reviewers note This is unbelievable work that would change the way life is seen and lived and Looking forward to this being a massive success Dr Vipin Gupta has a Ph D in managerial science and applied economics from the Wharton School of the University of Pennsylvania He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad India He is a Professor of sensible management and appropriate science at the Jack H Brown College of Business and Public Administration California State University San Bernardino USA

Einuur smiled grimly This device is called a spalvos s Your cerquibrium can tell you its function My cerquibrium is sort of out for the moment What is it What does it do Ailuura replied in a concerned tone It sort of realigns your sympathies Inigo What if I don t want them realigning This without a great deal of conviction Einuur gave a vulpine grin But you re not in charge here Felton I am Now let me advise you To resist the spalvos s will result in more than a little shall we say discomfort So the choice is yours and that of your Mizaroa Embrace the emanations and all will be smoothly achieved Resist and you will not like what it does to your body and your brain Felton began to struggle a chiefly useless show of defiance given the circumstances Einuur suddenly cuffed him upside the head and then jammed the cap on to his head securing it by a strap beneath his chin Satisfied that the fit was optimum he bent over the case and Felton heard two toggle switches being thrown The room was filled with a soft humming of some sort of alien power supply The Zaromoid turned his attention to the captive and began Inigo Felton which alien race do you have the most sympathy for Answer or I will adjust the spalvos s to give you a little jolt a sample of what might come if you do not cooperate with the Zaromi Felton tried reasonably enough I have a Mizaroa cerquibrium in my head so my allegiance is to them obviously A spear of indescribable agony suddenly racked his entire body from the top of his head to the end of his toes **Ideals and Reality** Friedrich Ischebeck, Ravi A. Rao, 2005-11-22

Besides giving an introduction to Commutative Algebra the theory of commutative rings this book is devoted to the study of projective modules and the minimal number of generators of modules and ideals The notion of a module over a ring R is a generalization of that of a vector space over a field k The axioms are identical But whereas every vector space possesses a basis a module need not always have one Modules possessing a basis are called free So a finitely generated free R module is of the form R^n for some $n \in \mathbb{N}$ equipped with the usual operations A module is called projective iff it is a direct summand of a free one Especially a finitely generated R module P is projective iff there is an R module Q with $P \oplus Q \cong R^n$ for some n Remarkably enough there do exist nonfree projective modules Even there are nonfree P such that $P \oplus R^m \cong R^n$ for some m and n Modules P having the latter property are called stably free On the other hand there are many rings all of whose projective modules are free e g local rings and principal ideal domains A commutative ring is called local iff it has exactly one maximal ideal For two decades it was a challenging problem whether every projective module over the polynomial ring $k[X]$
