Reassessing Revitalization Movements Perspectives From North America And The Pacific Islands:

Reassessing Revitalization Movements Michael Eugene Harkin, 2004-01-01 The escalating political economic and cultural colonization of indigenous peoples over the past few centuries has spawned a multitude of revitalization movements. These movements promise liberation from domination by outsiders and incorporate and rework elements of traditional culture. *Reassessing Revitalization Movements* is the first book to discuss and compare in detail the origins, structure, and development of religious and political revitalization movements in North America and the Pacific Islands, known as Oceania. The essays cover the twentieth-century Cargo Cults of the South Pacific, the 1870 and 1890 Ghost Dance movements in western North America, the Tuka Movement on Fiji in 1885, as well as the revitalistic aspects of contemporary social movements in North America and Oceania. *Reassessing Revitalization Movements* takes Anthony F. C. Wallace's concept of revitalization movements and examines the applicability of the model to a variety of religious and anticolonial movements in North America and the Pacific Islands. This extension of the revitalization movement model beyond its traditional territory in Native anthropology enriches our understanding of movements outside of North America and offers a holistic view of them that embraces phenomena ranging from the psychic to the ecological. This cross-cultural approach provides the most stimulating and broadly applicable treatment of the topic in decades.

Religious Revitalization Among the Kiowas

Benjamin R. Kracht, 2018-04 Framed by theories of syncretism and revitalization, *Religious Revitalization among the Kiowas* examines changes in Kiowa belief and ritual in the final decades of the nineteenth century. During the height of the horse and bison culture, Kiowa beliefs were founded in the notion of *daudau*, a force permeating the universe that was accessible through vision quests. Following the end of the Southern Plains wars in 1875, the Kiowas were confined within the boundaries of the Kiowa-Comanche-Apache Plains Apache Reservation. As wards of the government, they witnessed the extinction of the bison herds, which led to the collapse of the Sun Dance by 1890. Though prophet movements in the 1880s had failed to restore the bison, other religions emerged to fill the void left by the loss of the Sun Dance. Kiowas now sought *daudau* through the Ghost Dance, Christianity, and the Peyote religion. *Religious Revitalization among the Kiowas* examines the historical and sociocultural conditions that spawned the new religions that arrived in Kiowa country at the end of the nineteenth century, as well as Native and non-Native reactions to them. A thorough examination of these sources reveals how resilient and adaptable the Kiowas were in the face of cultural genocide between 1883 and 1933. Although the prophet movements and the Ghost Dance were short-lived, Christianity and the Native American Church have persevered into the twenty-first century. Benjamin R. Kracht shows how Kiowa traditions and spirituality were amalgamated into the new religions, creating a distinctive Kiowa identity.

The Anthropology of Religion, Magic, and

Witchcraft Rebecca L. Stein, Philip L. Stein, Benjamin R. Kracht, Marjorie M. Snipes, 2024-07-16 This concise and accessible textbook introduces students to the anthropological study of religion. It examines religious expression from a cross-cultural perspective and exposes students to the complexities of religion in small-scale and complex societies. The chapters incorporate key theoretical concepts and a wide range of ethnographic material. The fifth edition of *The Anthropology of Religion: Magic and Witchcraft* offers a revised introduction covering the foundations of the anthropology of religion, anthropological methods, and a push toward decolonizing the anthropology of religion. Expanded coverage of symbols, healing, wizardry, and the intersections of religion with other social institutions. New case study material with examples drawn from around the globe, especially from Indigenous communities. Marginalia in each chapter introducing provocative small case examples related to the chapter. Many of these can be used as prompts for further research, small in-class case studies, or examples for hands-on learning. A new chapter on religion and healing, especially useful for Anthropology programs without representation of four fields, as it provides a wider and more interdisciplinary application of the discipline. A consistent review of foundations from chapter to chapter, linking material and enabling students to connect what they are learning throughout the course and further resources via a comprehensive companion website including interactive activities, critical case studies, updated study questions, bibliographical suggestions including video and color images. This is an essential guide for students encountering the anthropology of religion for the first time and also for those with an ongoing interest in this fascinating field.

Removable Type Phillip H. Round, 2010-10-11 In 1663 the Puritan missionary John Eliot, with the help of a Nipmuck convert whom the English called James Printer, produced the first Bible printed in North America. It was printed not in English but in Algonquian, making it one of the first books printed in a Native language. In this ambitious and multidisciplinary work, Phillip Round examines the relationship between Native Americans and printed books over a two-hundred-year period, uncovering the individual, communal, regional, and political contexts for Native peoples' use of the printed word. From the northeastern woodlands to the Great Plains, Round argues that alphabetic literacy and printed books mattered greatly in the emergent transitional cultural formations of Indigenous nations threatened by European imperialism. *Removable Type* showcases the varied ways that Native peoples produced and utilized printed texts over time, approaching them as both opportunity and threat. Surveying this rich history, Round addresses such issues as the role of white missionaries and Christian texts in the dissemination of print culture in Indian Country, the establishment of national publishing houses by tribes, the production and consumption of bilingual texts, the importance of copyright in establishing Native intellectual sovereignty, and the sometimes corrosive effects of reprinting thereon, and the significance of illustrations.

Dreaming and Historical

Consciousness in Island Greece Charles Stewart, 2017-04-06 On publication in 2012 *Dreaming and Historical Consciousness in Island Greece* quickly met wide acclaim as a gripping work that according to the Times Literary Supplement offers a wholly new way of thinking about dreams in their social contexts It tells an extraordinary story of spiritual fervor prophecy and the ghosts of the distant past coming alive in the present This new affordable paperback brings it to the wider audience that it deserves Charles Stewart tells the story of the inhabitants of K ronos on the Greek island of Naxos who in the 1830s began experiencing dreams in which the Virgin Mary instructed them to search for buried Christian icons nearby and build a church to house the ones they found Miraculously they dug and found several icons and human remains and at night the ancient owners of them would speak to them in dreams The inhabitants built the church and in the years since have experienced further waves of dreams and startling prophesies that shaped their understanding of the past and future and often put them at odds with state authorities Today K ronos is the site of one of the largest annual pilgrimages in the Mediterranean Telling this fascinating story Stewart draws on his long term fieldwork and original historical sources to explore dreaming as a mediator of historical change while widening the understanding of historical consciousness and history itself
