Suicide by Proxy in Early Modern Germany Kathy Stuart, 2023-07-24 Suicide by Proxy became a major societal problem after 1650 Suicidal people committed capital crimes with the explicit goal of earning their executions as a short cut to their salvation Desiring to die repentantly at the hands of divinely instituted government perpetrators hoped to escape eternal damnation that befell direct suicides Kathy Stuart shows how this crime emerged as an unintended consequence of aggressive social disciplining campaigns by confessional states Paradoxically suicide by proxy exposed the limits of early modern state power as governments struggled unsuccessfully to suppress the tactic Some perpetrators committed arson or blasphemy or confessed to long past crimes usually infanticide or bestiality Most frequently however they murdered young children believing that their innocent victims would also enter paradise The crime had cross confessional appeal as illustrated in case studies of Lutheran Hamburg and Catholic Vienna

**Lutheran Churches in Early Modern Europe** Andrew Spicer, 2016-12-05 Until recently the impact of the Lutheran Reformation has been largely regarded in political and socio economic terms yet for most people it was not the abstract theological debates that had the greatest impact upon their lives but what they saw in their parish churches every Sunday This collection of essays provides a coherent and interdisciplinary investigation of the impact that the Lutheran Reformation had on the appearance architecture and arrangement of early modern churches Drawing upon recent research being undertaken by leading art historians and historians on Lutheran places of worship the volume emphasises often surprising levels of continuity reflecting the survival of Catholic fixtures fittings and altarpieces and exploring how these could be remodelled in order to conform with the tenets of Lutheran belief The volume not only addresses Lutheran art but also the way in which the architecture of their churches reflected the importance of preaching and the administration of the sacraments Furthermore the collection is committed to extending these discussions beyond a purely German context and to look at churches not only within the Holy Roman Empire but also in Scandinavia the Baltic States as well as towns dominated by Saxon communities in areas such as in Hungary and Transylvania By focusing on ecclesiastical material culture the

collection helps to place the art and architecture of Lutheran places of worship into the historical political and theological context of early modern Europe      **The Early Modern Child in Art and History** Matthew Knox Averett, 2015-10-06  
 Childhood is not only a biological age it is also a social construct The essays in this collection range chronologically from the fifteenth to the eighteenth century and geographically across England France Germany Italy and Spain They chart the depictions of children in various media including painting sculpture and the graphic arts      **Witch Craze** Lyndal Roper, 2006-01-01 A powerful account of witches crones and the societies that make them From the gruesome ogress in Hansel and Gretel to the hags at the sabbath in Faust the witch has been a powerful figure of the Western imagination In the sixteenth and seventeenth centuries thousands of women confessed to being witches of making pacts with the Devil causing babies to sicken and killing animals and crops and were put to death This book is a gripping account of the pursuit interrogation torture and burning of witches during this period and beyond Drawing on hundreds of original trial transcripts and other rare sources in four areas of Southern Germany where most of the witches were executed Lyndal Roper paints a vivid picture of their lives families and tribulations She also explores the psychology of witch hunting explaining why it was mostly older women that were the victims of witch crazes why they confessed to crimes and how the depiction of witches in art and literature has influenced the characterization of elderly women in our own culture      *Heart of Europe* Peter H. Wilson, 2016-04-04 The Holy Roman Empire lasted a thousand years far longer than ancient Rome Its continuity rested on the ideal of a unified Christian civilization As Peter Wilson shows the Empire tells the story of Europe better than histories of individual nation states and its legacy can be seen today in debates over the nature of the European Union      Witchcraft in Early Modern Poland, 1500-1800 W. Wyporska, 2013-10-17 This comprehensive study examines Polish demonology in relation to witchcraft trials in Wielkopolska revealing the witch as a force for both good and evil It explores the use of witchcraft the nature of accusations and the role of gender      *Hopes for Better Spouses* A. G. Roeber, 2013-06-13 Modern Protestant debates about spousal relations and the meaning of marriage began in a forgotten international dispute some 300 years ago The Lutheran Pietist ideal of marriage as friendship and mutual pursuit of holiness battled with the idea that submission defined spousal roles Exploiting material culture artifacts broadsides hymns sermons private correspondence and legal cases on three continents Europe Asia and North America A G Roeber reconstructs the roots and the dimensions of a continued debate that still preoccupies international Protestantism and its Catholic and Orthodox critics and observers in the twenty first century      **Keeping the Peace in the Village** Marc R. Forster, 2024 Keeping the Peace in the Village describes the nature of conflicts among rural people in the period after the Thirty Years War These included property disputes conflicts between employers and their workers disputes over marriage promises and most often honor disputes      A Cloister on Trial Gabriella Erdélyi, 2016-03-09 In 1517 the usually tranquil friary in the Hungarian town of Krmend found itself at the centre of controversy when its Augustinian friars charged with drunkenness sexual abuses and liturgical negligence were driven out

and replaced with observant Franciscans The agent of change in this conflict cardinal Thomas Bak cz claimed to be acting in the name of cloister reform motivated by a religious agenda while the Augustinians portrayed themselves as the victims of a political game Based on the surviving interrogations of a papal enquiry into these events this book illuminates the tensions and potential conflict that lurked within the religious culture of a seemingly unremarkable and remote town The story of the friary trial of K rmend provides a fascinating window into religion and society of Europe at the dawn of the Reformation investigating the processes by which ordinary people emerge as historical agents from the written records By focussing on their experiences as represented in the trial documents the book reveals the spaces and borders of individual and communal action within the dynamic of lay clerical relations negotiated in a friary reform at the beginning of the 16th century Furthermore the moral nature of the accusations levelled at the Augustinians and whether these were justified or instigated for political reasons offers further insights into the nature of late medieval Catholicism and the claims of Protestant reformers

**Baptism, Brotherhood, and Belief in Reformation Germany** Kat Hill, 2015 When Martin Luther mounted his challenge to the Catholic Church reform stimulated a range of responses including radical solutions such as those proposed by theologians of the Anabaptist movement But how did ordinary Anabaptists men and women grapple with the theological and emotional challenges of the Lutheran Reformation Anabaptism developed along unique lines in the Lutheran heartlands in central Germany where the movement was made up of scattered groups and did not centre on charismatic leaders as it did elsewhere Ideas were spread more often by word of mouth than by print and many Anabaptists had uneven attachment to the movement recanting and then relapsing Historiography has neglected Anabaptism in this area since it had no famous leaders and does not seem to have been numerically strong Baptism Brotherhood and Belief challenges these assumptions revealing how Anabaptism s development in central Germany was fundamentally influenced by its interaction with Lutheran theology In doing so it sets a new agenda for understandings of Anabaptism in central Germany as ordinary individuals created new forms of piety which mingled ideas about brotherhood baptism the Eucharist and gender and sex Anabaptism in this region was not an isolated sect but an important part of the confessional landscape of the Saxon lands and continued to shape Lutheran pastoral affairs long after scholarship assumed it had declined The choices these Anabaptist men and women made sat on a spectrum of solutions to religious concerns raised by the Reformation Understanding their decisions therefore provides new insights into how religious identities were formed in the Reformation era

**Drinking Matters** B. Kumin, 2007-10-26 Offering the first comparative survey of public houses in pre industrial Europe and drawing on a vast range of primary sources this study establishes inns and taverns as principal communication sites in local communities Contested and continuously renegotiated they catered for basic human needs as well as infinite forms of social exchange

**Music, Piety, and Propaganda** Alexander J. Fisher, 2014-02 Music Piety and Propaganda The Soundscapes of Counter Reformation Bavaria explores the nature of sound as a powerful yet ambivalent force in the religious struggles that

permeated Germany during the Counter Reformation Author Alexander J Fisher goes beyond a musicological treatment of composers styles and genres to examine how music and more broadly sound itself shaped the aural landscape of Bavaria as the duchy emerged as a militant Catholic bulwark Fisher focuses particularly on the ways in which sound including bell ringing gunfire and popular song as well as cultivated polyphony not only was deployed by Catholic secular and clerical elites to shape the religious identities of Bavarian subjects but also carried the potential to challenge and undermine confessional boundaries Surviving literature archival documents and music illustrate the ways in which Bavarian authorities and their allies in the Catholic clergy and orders deployed sound to underline crucial theological differences with their Protestant antagonists notably the cults of the Virgin Mary the Eucharist and the saints Official and popular rituals like divine worship processions and pilgrimages all featured distinctive sounds and music that shaped and reflected an emerging Catholic identity Although officials imposed a severe regime of religious surveillance the Catholic state s dominance of the soundscape was hardly assured Fisher traces archival sources that show the resilience of Protestant vernacular song in Bavaria the dissemination and performance of forbidden anti Catholic songs the presence of Lutheran chorales in nominally Catholic church services into the late 16th century and the persistence of popular noise more generally Music Piety and Propaganda thus reveals historical theological and cultural issues of the period through the piercing dimension of its sounds bringing into focus the import of sound as a strategic cultural tool with significant impact on the flow of history

like the battles at the Boyne 1690 and Somme 1916 played a key role in creating and sustaining a collective Protestant British identity in Ulster in much the same way that the subsequent Cromwellian conquest in the 1650s helped forge a new Irish Catholic national identity Following a successful hardback edition Siochr and Oihlmeyer s popular title is now available in paperback The original and wide ranging themes chosen by leading international scholars for this volume will ensure that this edited collection becomes required reading for all those interested in the history of early modern Europe It will also appeal to those engaged in early colonial studies in the Atlantic world and beyond as the volume adopts a genuinely comparative approach throughout examining developments in a broad global context

The Last Witch of Langenburg: Murder in a German Village Thomas Robisheaux, 2009-02-16 A young mother dies in agony Was it a natural death murder or witchcraft On the night of the festive holiday of Shrove Tuesday in 1672 Anna Fessler died after eating one of her neighbor s buttery cakes Could it have been poisoned Drawing on vivid court documents eyewitness accounts and an early autopsy report historian Thomas Robisheaux brings the story to life Exploring one of Europe s last witch panics he unravels why neighbors and the court magistrates became convinced that Fessler s neighbor Anna Schmieg was a witch one of several in the area ensnared by the devil Once arrested Schmieg the wife of the local miller and her daughter were caught up in a high stakes drama that led to charges of sorcery and witchcraft against the entire family Robisheaux shows how ordinary events became diabolical ones leading magistrates to torture and turn a daughter against her mother In so doing he portrays an entire world caught between superstition and modernity
