Representing Revolution in Milton and his Contemporaries David Loewenstein, 2001-03-15 David Loewenstein s Representing Revolution in Milton and his Contemporaries is a wide ranging exploration of the interactions of literature polemics and religious politics in the English Revolution Loewenstein highlights the powerful spiritual beliefs and religious ideologies in the polemical struggles of Milton Marvell and their radical Puritan contemporaries during these revolutionary

decades By examining a wide range of canonical and non canonical writers John Lilburne Winstanley the Digger and Milton amongst others he reveals how radical Puritans struggled with the contradictions and ambiguities of the English Revolution and its political regimes His portrait of a faction riven violent seventeenth century revolutionary culture is an original and significant contribution to our understanding of these turbulent decades and their aftermath By placing Milton s great poems in the context of the period s radical religious politics it should be of interest to historians as well as literary scholars

Rebels All! Kevin Mattson,2008-06-03 Do you ever wonder why conservative pundits drop the word faggot or talk about killing and then Christianizing Muslims abroad Do you wonder why the right s spokespeople seem so confrontational rude and over the top recently Does it seem strange that conservative books have such apocalyptic titles Do you marvel at why conservative writers trumpeted the rebel qualities of George W Bush just a few years back There is no doubt that the style of the political right today is tough brash and by many accounts not very conservative sounding After all isn t conservatism supposed to be about maintaining standards upholding civility and frowning upon rebellion Historian Kevin Mattson explains the apparent contradictions of the party in this fresh examination of the postwar conservative mind Examining a big cast of characters that includes William F Buckley Whittaker Chambers Norman Podhoretz Irving Kristol Kevin Phillips David Brooks and others Mattson shows how right wing intellectuals have always but in different ways played to the populist and rowdy tendencies in America s political culture He boldly compares the conservative intellectual movement to the radical utopians among the New Left of the 1960s and he explains how conservatism has ingested central features of American culture including a distrust of sophistication and intellectualism and a love of popular culture sensation shock and celebrity Both a work of history and political criticism **Rebels All** shows how the conservative mind made itself appealing but also points to its endemic problems Mattson s conclusion outlines how a recast liberalism should respond to the conservative ascendancy that has marked our politics for the last thirty years

Feet to the Fire Ken Conboy,James Morrison,2018-09-15 Today the vast archipelago of Southeast Asia islands known as Indonesia is in the headlines because of political instability religious tension and violence in the streets Forty years ago similar conditions led the Central Intelligence Agency to mount a top secret covert action campaign designed to hold that nation s left leaning President Sukarno s feet to the fire and prevent a strategic crossroad from falling into the communist camp The Agency supported rebels with weapons planes and a memorable cast of bigger than life American agents In a fast paced engrossing narrative evoking the novels of John LeCarr and Graham Greene the authors provide the first unclassified detailed case study of an operation that has escaped public scrutiny for decades Their work adds significantly to our understanding of the CIA and American involvement in Asia Drawing on declassified documents and an extraordinary number of interviews with CIA and Indonesian participants Kenneth Conboy and James Morrison reconstruct the delicate dangerous game played by American intelligence agents across the Indonesian archipelago This is a story of ideologues and soldiers of fortune historic CIA legends like Allen Dulles and Franklin Wisner and notorious

special operators like Tony Poe Poshepny whose reputation reached mythic proportions later in Laos and Allen Pope an indefatigable B 26 pilot who was captured and sentenced to die But it also includes the transfixing exploits of Montana smokejumpers Polish aircrews Muslim anti communist guerrillas U S Navy submarine crews and Filipino mercenary pilots flying P 51 Mustangs With the problems in today s Indonesia far from solved and the complex U S Indonesian relationship coming under close scrutiny this fascinating account of an American covert operation gone bad will play a significant role in shedding new light on the CIA s efforts in Southeast Asia

Rebellion to Integration Audrey Kahin,1999 This study deals with the political history of the Indonesian province of West Sumatra and the Minangkabau people from the late colonial period up to the present focussing on the course and degree of their integration into the contemporary Indonesian state The book provides a local perspective on the growth and development of the nationalist movement in Indonesia the struggle for independence and the trauma involved for West Sumatra in adapting to an Indonesian state based on very different concepts of government than those that animated the anticolonial struggle in the region It also helps understand the backgrounds of the recent violent insurgence in several parts of the Indonesian archipelago against the rule of the Javanese controlled central government

The African Rebels Dr. Francois Adja Assemien,2015-03-21 It is describing the current African countries and telling what is going on over there It is denouncing the African peoples flaws and their political economical social and cultural wrongdoings and faults It is criticizing the African bad political activities and the bad way the African leaders rule their countries It is denouncing violence civil wars coups armed rebellions and every bad and dirty thing occurring in Africa nowadays It is also denouncing the fact that Europe is still colonizing the African countries and exploiting their goods and riches by making war and creating armed conflicts between the peoples and the tribes It is inviting everyone on earth to think about the opportunity and necessity to create a better world now based on new values and to create better conditions for human life Toissin the hero in the book is a divine

messenger on earth His responsibility and duty consist in creating a new world that will save humanity *Rebels Wit Attitude* Lain Ellis,2010-08 In *Rebels Wit Attitude* music writer and professor Iain Ellis throws a spotlight on the history of humor as a weapon of anti establishment rebellion paying tribute to the great rebel humorists in American rock history and investigating comedy and laughter as the catalyst and main expressive force in these artists work The performers who are the subject of Ellis s study are not merely funny people they are those whose art exudes defiance and resistance whether aimed at social structures and mores political systems aesthetic practices or the music industry itself Subversive rock humor has emerged as a formidable force of modern art building a reputation for rock music as a rebellious sometimes dangerous form of expression that can dismay the adult mainstream as it empowers the youth culture In this study of rock s impact on youth through the decades Ellis proves that the most subversive rock humorists serve as the conscience of our culture They chastise pretensions satirize hypocrisy and pour scorn on power corruption and lies Discussing the work of iconic figures as diverse as Chuck Berry Lou Reed the Ramones the Talking Heads the Beastie Boys Missy Elliott Ellis examines the nature of the rock humorist asking why and in what ways each performer uses humor as a weapon of resistance to various status quos The commentary on these artists work is the basis for a deeper discussion of the historical foundations and other socio cultural contexts of humorous art and Ellis delves into the larger issues of politics nationality geography generation art social class race gender and sexuality that surround his subject The chapters divided by decade include introductory sections outlining each decade s defining forces and contextual features While lyrics constitute Ellis s primary field of analysis his exploration goes well beyond that moving into a discussion and interpretation of image performance product and musical content *Rebel with a Cause* Hans J. Eysenck,2017-07-05 Hans Eysenck is one of the world s leading psychologists and undoubtedly the most controversial Throughout a long and illustrious career his work on personality and intelligence has aroused impassioned debate and attacks both verbal and physical on Eysenck himself In his compelling and absorbing autobiography Eysenck recounts in some detail the battles he had to fight in order to establish his major conclusions as well as the reasons why he investigated these subjects He also discusses his work on such topics as the health hazards of smoking the prophylactic effects of behavior therapy on cancer and coronary heart disease parapsychology astrology and other matters In a new foreword written for this edition Eysenck expresses his pleasure regarding the fact that his autobiography is now being published in the United States He discusses how much of his scientific life has been bound up with American psychology Also new to this American edition is a chapter titled Genius Creativity and Vitamins in which Eysenck talks about the research he has worked on since his retirement in 1983 *Rebel with a Cause* is an intriguing autobiography and will be of paramount interest to psychologists sociologists and genetic scientists *THE WISE WACKY WONDERFUL WORD OF GOD* Derek Mailhiot,101-01-01 Delve deep into the Bible and explore it in a fresh new way *The Wise Wacky Wonderful Word of God* provides meaningful and relevant answers for all those who cherish the Bible but are troubled by the ethical dilemmas

errors and inconsistencies in Scripture Derek also provides clarity and understanding if you are confused by the plethora of conflicting Christian doctrines about heaven hell fate and the end times Why does a God who is good allow evil pain and suffering Did God create Satan and demons Which is true free will or predestination Does everyone have a guardian angel Is Jesus really God According to God's Word what is the meaning of life Can a Christian today who believes that the Bible is God's inspired Word and His special revelation to us also hold a modern scientific worldview without being labelled a heretic Can a Christian believe the Big Bang is the way in which God created the universe and also believe it happened billions of years ago Can a Christian believe Evolutionary Creationism a doctrine that asserts the way in which God created life was by an evolutionary process Do the Rapture Armageddon and Apocalypse really happen Is the Antichrist a real person What is the purpose of the Millennium when Christ returns to earth and rules all the nations from Jerusalem for 1 000 years Why does the Bible say God's people live in New Jerusalem on earth after the Millennium for eternity don't believers live in heaven If hell is a literal place then why is it called the Second Death eternal death twice in the Bible And what do God's people do during eternity anyway To get to the heart of the Bible's meaning one must determine the plain meaning of the text the meaning which the original author intended When reading the Bible one must be very careful not to take verses out of context and apply them to one's own predetermined set of beliefs We simply cannot make the Bible mean anything that pleases us and then give the Holy Spirit the credit for it So get ready to take a comprehensive and fascinating journey through Scripture

The Syrian Information and Propaganda War Ben Cole, 2022-02-22 This book focuses on the propaganda war between the Syrian government and the opposition movement which excludes the Islamic State and the Kurdish led SDF Drawing on international relations psychology and media studies the book encourages readers to question the dominant discourse on the war The core of the book outlines the propaganda battles over the main paradigms and narratives that framed the war exploring the shortcomings of those paradigms and narratives identifying who won the propaganda war and why and assessing what impact it had on the military side of the war In particular it focuses on the role of cognitive bias amongst primary and secondary sources in determining the outcome of the propaganda war and whether the influence of this propaganda is best explained by effects or limited effects theory Through explaining the dynamics of the propaganda war the book encourages readers to critically question the dominant discourse on the war assists them in understanding primary and secondary reporting on the war and shows that the impact of the propaganda war is best understood in terms of limited effects theory The book's main findings are that i the opposition won the international propaganda war but failed to win the propaganda war inside Syria ii propaganda had relatively little effect on shaping attitudes either inside Syria or

internationally instead its main effect was to reinforce attitudes that had already been shaped by other factors and iii the reality of the war lies between the conflicting paradigms and narratives being promoted by each side

Challenge and Response in Internal Conflict: The experience in Asia Doris M. Condit,1968 The Moment of Explosion Stephen C. Behrendt,1983-01-01 William Blake thought that John Milton had been betrayed by both his commentators and his illustrators and he set out to recover Milton's vision particularly in Paradise Lost from the misguided academic and Augustan misinterpretation to which it had been subjected The Moment of Explosion Blake and the Illustration of Milton is the first detailed analysis of all of Blake's illustrations for Milton's poetry Blake explicitly believed he was correcting errors that Milton wanted corrected and he felt that his illustration was interpretive criticism in its highest sense a re-vision that would broadcast Milton's revolutionary ethic afresh Stephen C Behrendt blends a close reading of Blake and Milton with meticulous and provocative examination of the illustrations of Blake his predecessors and his contemporaries The focus on visual art as criticism establishes the book as a major essay on the interaction of the arts within and across cultural periods Fifty four black and white illustrations document that radical Romantic assault by Blake on tradition in the name of tradition The highlight of the book is Blake's two sets of Paradise Lost illustrations reproduced here in twenty four color plates Blake's final statements on Paradise Lost and the culmination of his aesthetic and critical development This beautiful book presents a wealth of illustration previously scattered or inaccessible It will be of major interest to students of Blake Milton Romanticism art history and the history of ideas

Postmodern Reading of Contemporary East African Fiction Andrew Nyongesa,2024-02-29 This book likens writers' incessant focus on racism negative ethnicity patriarchy and social stratification in societies to a naïve physician who prescribes analgesics to treat symptoms while the underlying cause of the disease seethes in the blood In the same way persons who consistently blame their reckless conduct and shabbiness miss the point if they do not transform the actual cause of the problem the mind While most literary scholars problematise gender disparities racial and political othering oppression environment degradation education matters poor parenting and governance they tend to disregard the root cause modernism This book finds a gap in this grey area to address the authentic cause of the symptoms that most literary writers and scholars treat Pertinent modernist tenets such as bureaucracy the nation state systematisation and rationality and dualism are at the heart of racism corruption and other aforementioned symptoms It is the contention of this study that postmodernism offers a comprehensive understanding of modernism to mitigate its effects on society
