Rebirth, Reform, and Resilience James M. Kittelson, Pamela J. Transue, 1984      Rebirth, Reform, and Resilience James M. Kittelson, Pamela J. Transue, 1984      Some Renaissance Studies : M. A. Screech, 1992      *Renaissance Education Between Religion and Politics* Paul F. Grendler, 2024-10-28 Few eras took education so seriously or were so innovative in their approaches to schools and universities as the Renaissance At the same time religious and political concerns strongly influenced educational developments This third volume of articles by Paul F Grendler explores the close connections between education religion and politics at several levels and in different contexts It combines detailed research into various kinds of schools with broad overviews of European and especially Italian education The lead article compares Italian and German universities and assesses the impact of the Protestant Reformation on the latter Even Erasmus the great critic of university theologians felt the need to acquire a doctorate in theology and did so In Italy the new schools of the Jesuits and the Piarists taught boys and young men gratis but not without opposition Two articles deal with students the consumers of education While teachers and students were most directly involved in schools and universities ecclesiastical and political authorities including the leaders of the Republic of Venice the subject of the final study kept a watchful eye on them      *The Soul of the American University* George M. Marsden, 1994 Explores the decline in religious influence in American universities discussing why this transformation has occurred      *Boethius in the Middle Ages* Maarten Hoenen, Nauta, 2021-11-01 Boethius *Consolatio Philosophiae* is one of those exceptional works that circulated widely throughout such diverse medieval cultures as the schools and universities the court and religious houses It spawned a rich tradition of Latin commentaries and was a major force in shaping vernacular literary traditions including the works of Jean de Meun Dante and Chaucer The changing perceptions of the *Consolatio* are the subject of this collection of new essays The first section is devoted to the Latin commentary tradition William of Conches Nicholas Trevet and Pierre d Ailly The other sections explore the vernacular traditions Italian French German English and Dutch The book underlines the interactions between the Latin and the vernacular and between literary and scholastic contexts and the focus throughout is on the intellectual and institutional background of the works discussed      **Scholarly Self-Fashioning and Community in the Early Modern University** Richard Kirwan, 2016-04-01 A greater fluidity in social relations and hierarchies was experienced across Europe in the early modern period a consequence of the major political and religious upheavals of the sixteenth and seventeenth centuries At the same time the universities of Europe became increasingly orientated towards serving the territorial state guided by a humanistic approach to learning which stressed its social and political utility It was in these contexts that the notion of the scholar as a distinct social category gained a foothold and the status of the scholarly group as a social elite was firmly established University scholars demonstrated a great energy when characterizing themselves socially as learned men This book investigates the significance and implications of academic self fashioning throughout Europe in the early modern period

It describes a general and growing deliberation in the fashioning of individual communal and categorical academic identity in this period. It explores the reasons for this growing self-consciousness among scholars and the effects of its expression social and political desired and real.

Augustine, the Harvest, and Theology (1300-1650) Kenneth Hagen, 2023-11-27 The theme of this Festschrift dedicated to Heiko Oberman is Augustine reception in theology 1300 1650 Contemporary discussions about an Augustinian school prior to Luther and about Luther's possible relation to such have been intensified by the work of Heiko Oberman. Thirteen invited scholars produced new work. William Courtenay wrote on late medieval discussions of psychic states and human motivations and volitions. Christoph Burger on Hugolin of Orvieto. Tarald Rasmussen on Jacob Perez of Valencia. Manfred Schulze on Johannes von Staupitz. Bernard Hamm on Jerome reception in Nuremberg. Scott Hendrix on Luther's loyalties. Kurt Victor Selge on Luther's ecclesiology. M. A. Screech on Augustine reception in Rabelais. David Steinmetz on Rom 7. Arthur Olsen on Martin Chemnitz. James Tanis on Abraham van der Heyden. Suse Rau and Elsie Vezey compiled the Heiko Augustine Oberman Bibliography. Essays are published in their original English or German. English summaries are provided for the German entries. The general student of the period 1300 1650 should gain an overview of the appropriation of Augustine during that time and Professor Oberman's colleagues should profit from the new research contained herein.

**The Search for Truth** Maxwell Bennett, 2022-05-01 Universities have searched for truth over nearly a millennium. Maxwell Bennett recounts the history of this search during three of its most momentous periods in the 13th, 18th, and 20th centuries which helped fashion the idea of a university. He concludes with a cautionary assessment of whether universities given their present level of material support can reliably continue to protect and advance society.

Humanism and Renaissance Civilization Charles G. Nauert, 2023-04-21 The essays collected in this volume represent many years of Professor Nauert's research and teaching on the history of Renaissance humanism and more particularly on humanism north of the Alps. Much of the early work involved the significant but often overlooked history of

humanism at the University of Cologne notoriously the most anti humanist of the German universities Later essays deal with the most famous humanist of the early sixteenth century Erasmus of Rotterdam and natural philosophy a broad term covering many subjects now associated with natural science is the topic of three of the pieces published here Taken as a whole the book presents a detailed study of intellectual development among European elites Humanism in Fifteenth-Century Europe Stephen J. Milner, John Monfasani, John L. Flood, Jacqueline Glomski, Cristina Neagu, Jeremy Lawrance, Craig Taylor, Tom Rutledge, Daniel Wakelin, Oren Margolis, 2012-12-01 Nothing provided **Society and Economy in Early Modern Europe, 1450-1789** Barry Taylor, 1989 The Soul of the American University Revisited George M. Marsden, 2021-04-28 The Soul of the American University is a classic and much discussed account of the changing roles of Christianity in shaping American higher education presented here in a newly revised edition to offer insights for a modern era As late as the World War II era it was not unusual even for state schools to offer chapel services or for leading universities to refer to themselves as Christian institutions From the 1630s through the 1950s when Protestantism provided an informal religious establishment colleges were expected to offer religious and moral guidance Following reactions in the 1960s against the WASP establishment and concerns for diversity this specifically religious heritage quickly disappeared and various secular viewpoints predominated In this updated edition of a landmark volume George Marsden explores the history of the changing roles of Protestantism in relation to other cultural and intellectual factors shaping American higher education Far from a lament for a lost golden age Marsden offers a penetrating analysis of the changing ways in which Protestantism intersected with collegiate life intellectual inquiry and broader cultural developments He tells the stories of many of the nation's pace setting universities at defining moments in their histories By the late nineteenth century when modern universities emerged debates over Darwinism and higher criticism of the Bible were reshaping conceptions of Protestantism in the twentieth century important concerns regarding diversity and inclusion were leading toward ever broader conceptions of Christianity then followed attacks on the traditional WASP establishment which brought dramatic disestablishment of earlier religious privilege By the late twentieth century exclusive secular viewpoints had become the gold standard in higher education while our current era is arguably post secular The Soul of the American University Revisited deftly examines American higher education as it exists in the twenty first century The Spaces of Renaissance Anatomy Theater Leslie R. Malland, 2022-06-07 The space of Renaissance anatomy is not solely in the physical theatre As this collection demonstrates the space of the theatre encompasses every aspect of Renaissance culture from its education systems art and writing to its concepts of identity citizenship and the natural world This book argues that Renaissance anatomy theatres were spaces of intersection that influenced every aspect of their culture and that scholars should broaden their concept of anatomy theatres to include more than the physical space of the theatre itself Instead we should approach the anatomy theatres as spaces where cultural expression is influenced by the hands on study of human cadavers This book enters the ongoing conversation

surrounding Renaissance anatomy by dialogically engaging with such scholars as Jonathan Sawday Merry E Wiesner Hanks Kathryn Schwarz and primary texts such as De humani corporis fabrica Montaigne's Essais and Shakespearean plays The book also features Renaissance artwork alongside works by Laurence Winram

**The Formation of Clerical And Confessional Identities in Early Modern Europe** Wim Janse, Barbara Pitkin, 2006 This rich volume by an interdisciplinary group of American and European scholars offers an innovative portrait of the complex formation of clerical and confessional identities within the context of the radically changed religious and political situations in sixteenth and seventeenth century Europe

*Humanism and Protestantism in Early Modern English Education* Ian Green, 2016-05-13 This volume is the first attempt to assess the impact of both humanism and Protestantism on the education offered to a wide range of adolescents in the hundreds of grammar schools operating in England between the Reformation and the Enlightenment By placing that education in the context of Lutheran Calvinist and Jesuit education abroad it offers an overview of the uses to which Latin and Greek were put in English schools and identifies the strategies devised by clergy and laity in England for coping with the tensions between classical studies and Protestant doctrine It also offers a reassessment of the role of the godly in English education and demonstrates the many ways in which a classical education came to be combined with close support for the English Crown and established church One of the major sources used is the school textbooks which were incorporated into the English Stock set up by leading members of the Stationers Company of London and reproduced in hundreds of thousands of copies during the seventeenth and eighteenth centuries Although the core of classical education remained essentially the same for two centuries there was a growing gulf between the methods by which classics were taught in elite institutions such as Winchester and Westminster and in the many town and country grammar schools in which translations or bilingual versions of many classical texts were given to weaker students The success of these new translations probably encouraged editors and publishers to offer those adults who had received little or no classical education new versions of works by Aesop Cicero Ovid Virgil Seneca and Caesar This fascination with ancient Greece and Rome left its mark not only on the lifestyle and literary tastes of the educated elite but also reinforced the strongly moralistic outlook of many of the English laity who equated virtue and good works with pleasing God and meriting salvation

**Teaching the Reformation** Amy Nelson Burnett, 2006-10-12 Though the Reformation was sparked by the actions of Martin Luther it was not a decisive break from the Church in Rome but rather a gradual process of religious and social change As the men responsible for religious instruction and moral oversight at the village level parish pastors played a key role in the implementation of the Reformation and the gradual development of a Protestant religious culture but their ministry has seldom been examined in the light of how they were prepared for the pastorate Teaching the Reformation examines the four generations of Reformed pastors who served the church of Basel in the century after the Reformation focusing on the evolution of pastoral training and Reformed theology the theory and practice of preaching and the performance of pastoral care in both urban and rural parishes It looks at how

these pastors were educated and what they learned examining not only the study of theology but also the general education in languages rhetoric and dialectic that future pastors received at the city's Latin school and in the arts faculty of the university. It points to significant changes over time in the content of that education which in turn separated Basels pastors into distinct generations. The study also looks more specifically at preaching in Basel demonstrating how the evolution of dialectic and rhetoric instruction and particularly the spread of Ramism led to changes in both exegetical method and homiletics. These developments combined with the gradual elaboration of Reformed theology resulted in a distinctive style of Reformed Orthodox preaching in Basel. The development of pastoral education also had a direct impact on how Basels clergy carried out their other duties: catechization, administering the sacraments, counseling the dying and consoling the bereaved, and overseeing the moral conduct of their parishioners. The growing professionalization of the clergy, the result of more intensive education and more stringent supervision, contributed to the gradual implantation of a Reformed religious culture in Basel.

*A House Divided: Wittelsbach Confessional Court Cultures in the Holy Roman Empire, c. 1550-1650* Andrew L. Thomas, 2010-04-06 This book is the only book-length monograph comparing the impact of confessional identity on both halves of the Wittelsbach dynasty which provided Bavarian dukes and German emperors as well as its implications for late Renaissance court culture. It demonstrates that religious conflict led to the development of distinctly confessional court cultures among the main Wittelsbach courts. Likewise, it illuminates how these confessional court cultures contributed significantly to the splintering of Renaissance humanism along religious lines in this era. Concomitantly, it sheds new light on the impact of late medieval dynastic competition on shaping the early modern Wittelsbach courts as well as the important role of Wittelsbach women in the creation and continuation of dynastic piety in their roles as wives, mothers, and patronesses of the arts.

*Politics and Reformations* Christopher Ocker, 2007 These twenty-six essays examine urban, rural, national, and imperial histories in Early Modern Europe and abroad and politics in Reformation Switzerland, Burgundy, Germany, and the Netherlands.

**Theology at Paris, 1316-1345** Chris Schabel, 2021-12-24 Chris Schabel presents a detailed analysis of the radical solution given by the Franciscan Peter Auriol to the problem of reconciling divine foreknowledge with the contingency of the future and of contemporary reactions to it. Auriol's solution appeared to many of his contemporaries to deny God's knowledge of the future altogether and so it provoked intense and long-lasting controversy. Schabel is the first to examine in detail the philosophical and theological background to Auriol's discussion and to provide a full analysis of Auriol's own writings on the question and the immediate reactions to them. This book sheds new light both on one of the central philosophical debates of the Middle Ages and on theology and philosophy at the University of Paris in the first half of the 14th century, a period of Parisian intellectual life which has been largely neglected until now.
