Rebuilding Communities:

Rebuilding Communities Jay Farbstein, Richard Wener, 1993 **Rebuilding Communities** Harvey Bertcher, Alice E Lamont, Linda Farris Kurtz, 2014-03-18 *Rebuilding Communities Challenges for Group Work* is a collection of research and information presented at the 18th Annual Symposium of the Association for the Advancement of Social Work with Groups. Social workers, students, educators, and practitioners will examine how group work can improve multicultural relations within the community. Through your use of the valuable suggestions in this book, you will discover new ways to help the poor in your community help themselves while giving them a sense of power and self-esteem to help them battle racism, sexism, and shrinking economic opportunities. Through *Rebuilding Communities*, you will also discover a formula for global group work that will help you make a difference by applying your hometown skills to the global community. This valuable book discusses the need for you to combine energy with humility, offer assistance with the ability to listen to intervene when necessary, and to comprehend diversity for successful and beneficial group programs. This informative guide brings to light the skills and values needed for effective group work, and how combining knowledge base and practice base will assist you in making a positive impact on your community. With this important book, you will find a rich source of current thinking about group work practice in relation to women violence, health problems, child welfare, and other areas, as well as group work theory to help you find the best way to help the various people of your community. *Rebuilding Communities* will provide you with specific ways to improve your group work skills and positively affect the individuals in your community, such as learning that your role of caring and advocacy as a group worker must be a complete and lifelong commitment and that you must be prepared to use your skills throughout your everyday life to make a difference. Using the World Wide Web to form groups whose members can support one another through the anger, joy, pain, and challenges of life, learning how group work can help calm the stormy transitions that adolescent immigrants face by helping them relate to other children who are in similar circumstances, examining how parents of pediatric urology patients find solace through groups where they can address such sensitive issues as the future of sexual functioning and fertility for their children, discovering how marathon group sessions in South Africa are helping to provide basic services to the disadvantaged, with programs to facilitate interracial contact and understanding among women and programs for adolescents, boys in foster care, *Rebuilding Communities* offers you a deeper understanding of the total positive effect that group work can have on various sectors of your community to help you provide better services to those in need. This unique book focuses your attention on the importance of group work to community development and even provides you with a glimpse into the future of group work. With *Rebuilding Communities*, you will discover a multifaceted approach to solving problems that communities face to help you choose the best options for your own community and give the best possible services to the people you assist. *Rebuilding Communities in an Age of Individualism* Paul Hopper, 2017-07-05 As modern societies become increasingly individualistic, this fascinating book examines how we can

maintain and revive local communities and community life It demonstrates how the major developments and processes of our time notably globalization post industrialism and de traditionalization contribute to this individualism to the detriment of community life The author examines how community is a necessary and important component of human life and discusses possible ways in which to arrest its decline In this regard strategies geared to fostering trust and social capital are outlined as the basis for reinvigorating community life The volume provides a coherent and distinct analysis of community as well as offering concrete policy prescriptions to counter the excessive individualism of our times In both the nature and scope of its analysis it offers a unique contribution to an extremely important issue in the contemporary period one that increasingly preoccupies politicians academics and ordinary citizens

Community Engagement in Post-Disaster Recovery Graham Marsh,Iftexhar Ahmed,Martin Mulligan,Jenny Donovan,Steve Barton,2017-09-11 Community Engagement in Post Disaster Recovery reflects a wide array of practical experiences in working with disaster affected communities internationally It demonstrates that widely held assumptions about the benefits of community consultation and engagement in disaster recovery work need to be examined more critically because poorly conceived and hastily implemented community engagement strategies have sometimes exacerbated divisions within affected communities and or resulted in ineffective use of aid funding It is equally demonstrated that well crafted creative and thoughtful programming is possible The wide collection of case studies of practical experience from around the world is presented to help establish ways of working with communities experiencing great challenges The book offers practical suggestions on how to give more substance to the rhetoric of community consultation and engagement in these areas of work It suggests the need to work with a dynamic understanding of community formation that is particularly relevant when people experience unforeseen challenges and traumatic experiences This title interrogates the concept of community through an extensive review of the literature and explores the ways of working with communities in transition and particularly in their recovery phases through an array of case studies in a range of socioeconomic and political contexts Focused on the concept of community in post disaster recovery solutions an aspect which has received little critical interrogation in the literature this book will be a valuable resource to students and scholars in disaster management as well as humanitarian agencies
