3. Renaissance, Reformation, Counter-Reformation Irena Backus, 1997 *Theology and Science in the Thought of Francis Bacon* Professor Steven Matthews, 2013-06-28 This study re evaluates the religious beliefs of Francis Bacon and the role which his theology played in the development of his program for the reform of learning and the natural sciences the Great Instauration Bacon s Instauration writings are saturated with theological statements and Biblical references which inform and explain his program yet this aspect of his writings has received little attention Previous considerations of Bacon s religion have been drawn from a fairly short list of his published writings Consequently Bacon has been portrayed as everything from an atheist to a Puritan scholarly consensus is lacking This book argues that by considering the historical context of Bacon s society and his conversion from Puritanism to anti Calvinism as a young man his own theology can be

brought into clearer focus and his philosophy more properly understood After leaving his mother's household Bacon underwent a transformation of belief which led him away from his mother's Calvinism and toward the writings of the ancient Church Fathers particularly Irenaeus of Lyon Bacon's theology increasingly came to reflect the theological interests of his friend and editor Lancelot Andrewes The patristic turn of Bacon's belief in the last two decades of the reign of Elizabeth significantly affected the development of his philosophical program which was produced in the first two decades of the Stuart era This study then examines the theology present in the Instauration writings themselves and concludes with a consideration of the effect which Bacon's theology had on the subsequent direction of empirical science and natural theology in the English context In so doing it not only offers a new perspective on Bacon but will serve as a contribution toward a better understanding of the religious context of and motivations behind empirical science in early modern England

A Companion to the Great Western Schism (1378-1417) Joëlle Rollo-Koster, Thomas M. Izbicki, 2009 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention

Augustinian Theology in the Later Middle Ages Eric Leland Saak, 2021-12-13 The culmination of thirty years of research Eric Leland Saak's Augustinian Theology in the Later Middle Ages offers a comprehensive new interpretation of late medieval Augustinianism The first of a two volume work the present book sets the stage and analyzes the conceptual and methodological structures requisite for interpreting the reception of Augustine in the later Middle Ages historically together with explicating the first two of the four pillars of Augustinian theology the Augustinian Hermits political theology the teaching in the Order's schools the Order's university theology and its moral theology Holistically fused with the Order's religious identity these distinct yet interconnected components of Augustinian theology rather than a narrow theologically defined anti Pelagianism provided the context for the emergence of the Reformation

Eucharistic Sacrifice and Patristic Tradition in the Theology of Martin Bucer Nicholas Thompson, 2005 This book examines Martin Bucer's attempts to circumvent the Reformation impasse on the Mass by seeking common ground with Catholic moderates in the Eucharistic theology of the church fathers and early scholastic theologians

Historical Method and Confessional Identity in the Era of the Reformation (1378-1615) Irena Backus, 2021-10-11 This volume deals with the basic problem of how theologians of all confessions handled ancient mainly Christian history in the Reformation era The author argues that

far from being a mere tool of religious controversy history was used throughout the 16th century to express profound religious and theological convictions and that historians and theologians of different confessions sought to define their religious identity by recourse to a particular historical method By carefully comparing the types of historical documents produced by Calvinist Lutheran and Roman Catholic circles she throws a new light on patristic editions and manuals the Centuries of Magdeburg the Ecclesiastical Annals of Caesar Baronius and various collections of New Testament Apocrypha Much of this material is examined here for the first time The book substantially revises existing preconceptions about Reformation historiography and view of the past *The Oxford Handbook of the Early Modern Sermon* Peter McCullough, Hugh Adlington, Emma Rhatigan, 2011-08-04 The Oxford Handbook of the Early Modern Sermon is the first book to survey this rich new field for both students and specialists It is divided into sections devoted to sermon composition delivery and reception sermons in Scotland Ireland and Wales English Sermons 1500 1660 and English Sermons 1660 1720

John Davenant's Hypothetical Universalism Michael J. Lynch, 2021-05-27 Recently there has been a revival of interest in the views held by Reformed theologians within the parameters of confessional orthodoxy For example the doctrine known as hypothetical universalism the idea that although Christ died in some sense for every person his death was intended to bring about the salvation only for those who were predestined for salvation Michael Lynch focuses on the hypothetical universalism of the English theologian and bishop John Davenant 1572 1641 arguing that it has consistently been misinterpreted and misrepresented as a via media between Arminian and Reformed theology A close examination of Davenant's *De Morte Christi* is the central core of the study Lynch offers a detailed exposition of Davenant's doctrine of universal redemption in dialogue with his understanding of closely related doctrines such as God's will predestination providence and covenant theology He defends the thesis that Davenant's version of hypothetical universalism represents a significant strand of the Augustinian tradition including the early modern Reformed tradition The book examines the patristic and medieval periods as they provided the background for the Lutheran Remonstrant and Reformed reactions to the so called Lombardian formula Christ died sufficiently for all effectually for the elect It traces how Davenant and his fellow British delegates at the Synod of Dordt shaped the Canons of Dordt in such a way as to allow for their English hypothetical universalism *From Theodulf to Rashi and Beyond: Texts, Techniques, and Transfer in Western European Exegesis (800 - 1100)*, 2022-08-08 This book offers a new and inclusive approach to Western exegesis up to 1100 For too long modern scholars have examined Jewish and Christian exegesis apart from each other This is not surprising given how religious social and linguistic borders separated Jews and Christians But they worked to a great extent on the same texts Christians were keenly aware that they relied on translation The contributions to this volume reveal how both sides worked on parallel tracks posing similar questions and employing more or less the same techniques and in some rare instances interdependently

The Oxford Handbook of Martin Luther's Theology Robert Kolb, Irene Dingel, Lubomír Batka, 2014-04-24 As

Changing Churches Mickey L. Mattox, A. G. Roeber, 2012-02-27 Sharp controversies about biblical authority the ordination of women evangelical worship styles and the struggle for homosexual inclusion have rocked the Lutheran church in recent decades In *Changing Churches* two men who once communed at the same Lutheran Eucharistic table explain their similar but different decisions to leave the Lutheran faith tradition one for Orthodoxy the other for Roman Catholicism Here Mickey L Mattox and A G Roeber address the most difficult questions Protestants face when considering such a conversion including views on justification grace divinization the church and its authority women and ministry papal infallibility the role of Mary and homosexuality They also discuss the long standing ecumenical division between Rome and the Orthodox patriarchates acknowledging the difficult issues that still confront those traditions from within and divide them from one another

Conzelmann, 2025-07-03 Delphine Conzelmann unpacks the rich interplay of authority tradition and innovation in the works of William of Saint Thierry Benedictine abbot and Cistercian monk whose

contributions to Christian history were long overshadowed by those of his contemporaries The volume seeks to reconcile seemingly contradictory aspects of this distinctive 12th century biography revealing what intention unites his stark criticism of new dialectic methods his enthusiastic embrace of monastic reform and his quest for reclusion Discover the spiritual depth and doctrinal genius of William of Saint Thierry in this comprehensive study The open access publication of this book has been published with the support of the Swiss National Science Foundation **The Oxford Handbook of Origen** Ronald E. Heine, Karen Jo Torjesen, 2022-02-17 This interrogation of Origen's legacy for the 21st Century returns to old questions built upon each other over eighteen centuries of Origen scholarship problems of translation and transmission positioning Origen in the histories of philosophy theology and orthodoxy and defining his philological and exegetical programmes The essays probe the more reliable sources for Origen's thought by those who received his legacy and built on it They focus on understanding how Origen's legacy was adopted transformed and transmitted looking at key figures from the fourth century through the Reformation A section on modern contributions to the understanding of Origen embraces the foundational contributions of Huet the twentieth century movement to rehabilitate Origen from his status as a heterodox teacher and finally the identification in 2012 of twenty nine anonymous homilies on the Psalms in a codex in Munich as homilies of Origen Equally important has been the investigation of Origen's historical cultural and intellectual context These studies track the processes of appropriation assimilation and transformation in the formation and transmission of Origen's legacy Origen worked at interpreting Scripture throughout his life There are essays addressing general issues of hermeneutics and his treatment of groups of books from the Biblical canon in commentaries and homilies Key points of his theology are also addressed in essays that give attention to the fluid environment in which Origen developed his theology These essays open important paths for students of Origen in the 21st century Calvin and the Christian Tradition R. Ward Holder, 2022-06-09 This study overturns core conceptions regarding Calvin revising what we know about Calvin history tradition and our own situation
