Recht Verhandeln Argumentieren Begrunden Und Entscheiden Im Diskurs Des Rechts:

The Concept of Argument Harald R. Wohlrapp, 2014-06-26 Arguing that our attachment to Aristotelian modes of discourse makes a revision of their conceptual foundations long overdue the author proposes the consideration of unacknowledged factors that play a central role in argument itself These are in particular the subjective imprint and the dynamics of argumentation Their inclusion in a four dimensional framework subjective objective structural procedural and the focus on thesis validity allow for a more realistic view of our discourse practice Exhaustive analyses of fascinating historical and contemporary arguments are provided These range from Columbus s advocacy of the Western Passage to India over the trial of King Louis XVI during the French Revolution to today s highly charged controversies surrounding euthanasia and embryo research Excavating foundational issues such as the purpose of argument itself assent of an audience or critical examination of validity claims and the contested role of argument as a generator of knowledge the book culminates in a discussion of the relationship between rationality and reasonableness and criticizes the restrictions of rational argument relying on fixed logical economic or cultural criteria that in reality are mutable Here a true open argument requires the infusion of Paul Lorenzen s principle of transsubjectivity which recognizes but transcends the partiality of the individual and which can be seen in the pragmatic and expanding consensus that humanity can control itself to safeguard the future of a fragile damaged world

The Language of Canon Law Judith Hahn, 2023 In this book Judith Hahn explores the legal order of the Roman Catholic Church to better understand how the Roman Catholic Church communicates as a legal institution She argues that the language of canon law reveals the political ideology of the church hierarchy and she takes up the tools of language and law scholarship to examine and challenge that language Hahn examines the grammar and terminology of canon law and how canon law language makes use of linguistic tricks and techniques to create its typical sound and

discusses the comprehension difficulties that arise out of ambiguities in the law out of transfer problems between legal and common language and out of canon law s confusing mix of legal doctrinal and moral norms

Formal Linguistics and Law Günther Grewendorf, Monika Rathert, 2009-12-15 This volume explores new interfaces between linguistics and jurisprudence Its theoretical and methodological importance lies in showing that many questions asked within the field of language and law receive satisfactory answers from formal linguistics The book starts with a paper by the two editors in which they explain why the volume as a whole and with its individual papers is an innovation in the field of language and law In addition an overview about the most important research projects on language and law is given The first chapter of the book is on understanding the law Jurists and laypersons always ask for the precise meaning of a certain piece of the law In linguistics the discipline investigating meaning is semantics thus it is to be expected that semantics can contribute to a correct understanding of the law Chapter 1 also investigates the alleged incomprehensibility of legal language with the help of psycholinguistics Chapter 2 is on identifying the criminal To find the author of a blackmailer s letter text corpus linguistics is

instrumental If the blackmailer uses the telephone instead of the letter speaker identification and phonetics are necessary The BKA stores all blackmailing letters in a database but databases are only one possibility of organizing legal systems another possibility is the application of tools from computational linguistics and artificial intelligence These tools can be useful to handle terminology to retrieve information or to model legal theorizing in a formal system Chapter 3 demonstrates a variety of examples of organizing legal systems The topic of chapter 4 is multilingualism and the law The European legislation is a product of legal and linguistic diversity as the member states do not only differ in languages but also in their legal systems One paper shows how Switzerland handles its multilingualism in legal drafting The input of translation studies is of course vital in this field of research An index for both subjects and persons complements the volume *Popularisierung als Methode der Wissensvermittlung in der Rechtslinguistik / Popularisation as a Method of Knowledge Mediation in Legal Linguistics* Karin Luttermann,Jan Engberg,2023 The focus of Legal Linguistics Rechtslinguistik has shifted from lexical syntactic and terminological issues to expert lay communication This volume focuses on popularisation as a method of knowledge mediation in the law It deals with different forms of communication e g explanatory videos brochures websites addressees e g children adolescents adults topics e g empathy emotions trust settings e g courts law firms EU institutions and finally specific areas of law e g inheritance law criminal law environmental law The contributions written in German and English discuss theoretical issues and apply them practically to the corpus The book is stimulating for anyone wanting to delve more deeply into the topic of popularisation

Rechtsvergleichende Argumentation Thomas Coendet, 2012 English summary Citing foreign legal systems for the sake of producing a convincing judicial argument has been a custom in judicial decision making for more than a century. However, a generally accepted theoretical framework for this kind of reasoning has not been established as yet. Thomas Coendet's account provides comprehensive information on the fundamental questions raised by the comparative approach in contemporary legal discourse. German description Welche Bedeutung haben rechtsvergleichende Argumente bei der Anwendung nationalen Rechts? Diese Frage beschäftigt die rechtsmethodologische und rechtsvergleichende Wissenschaft seit langem. Entsprechend erstaunlich ist dass bisher keine ganzheitliche Theorie der rechtsvergleichenden Argumentation existiert. Thomas Coendet legt nun einen umfassenden Entwurf für eine solche Theorie vor. Er entwickelt seine Theorie entlang der Grundfragen die das Problem der rechtsvergleichenden Argumentation aufwirft. Wie interagieren eigenes und anderes Recht normativ miteinander? Weshalb sollte man rechtsvergleichend argumentieren und wie funktioniert eine solche Argumentation? Und schliesslich Wie ist rechtsvergleichendes Argumentieren methodisch zu gestalten damit es praktisch gelinge? Die auf diesem Weg entwickelte rechtsvergleichende Argumentationstheorie informiert all jene die in der juristischen Arbeit an der Überschreitung raumlicher Grenzen interessiert sind.

Juristische Rhetorik Wolfgang Gast, 2015-11-13 Das Buch Dieses Standardwerk zur Juristischen Rhetorik handelt von den besonderen Mitteln mit deren Hilfe der Jurist in der fachlichen Auseinandersetzung das kollegiale Einverständnis sucht. Es stellt die vertrauten juristischen Methoden ins richtige Licht gezeigt wird was mit den Werkzeugen der Rechtserfindung anzufangen ist und wie der juristische Rhetor sie zielstrebig nutzt zum Beispiel beim Umgang mit Definitionen am logischen Gest des Argumentierens beim spielerischen Umgang mit rechtlichen Fundamentalbegriffen.
