Rich The Wellborn And The Powerful:

The Rich, the Well Born, and the Powerful Frederic Cople Jaher, 1975 Debutante Karal Ann Marling, 2004 The social debut and its offshoots the high school prom the sorority presentation beauty pageants continue to emphasize celebrity class and community But why does this peculiar tradition persist In Debutante Marling demystifies debdom and the long term American hankering after the trappings of royalty **'Gilded Prostitution'** Maureen E. Montgomery, 2013-08-06 This book examines the marriages of British peers to American women within the context of the opening up of London and New York society and the growing competitiveness for high social status In London American women were often blamed for the growing hedonism and materialism of smart society and for poaching in the marriage market They were invariably described as frivolous vain and calculating a description which points to the simmering anti American sentiment in Britain It was even suggested that titled Americans were having a detrimental effect on the British peerage because of their failure to produce male heirs A brilliant analysis of the reasons why American women were viewed pejoratively not only in terms of anti American feeling and the social transformation of the British upper class but also the threat of women who did not appear to conform to aristocratic notions of a peeress s duties as a wife and mother Originally published in 1989 this book has unique appendices listing details of peer marriages in this 1870 1914 period The Global Bourgeoisie Christof DeJung, David Motadel, Jürgen Osterhammel, 2019-11-26 The first global history of the middle class While the nineteenth century has been described as the golden age of the European bourgeoisie the emergence of the middle class and bourgeois culture was by no means exclusive to Europe The Global Bourgeoisie explores the rise of the middle classes around the world during the age of empire Bringing together eminent scholars this landmark essay collection compares middle class formation in various regions highlighting differences and similarities and assesses the extent to which bourgeois growth was tied to the increasing exchange of ideas and goods The contributors indicate that the middle class was from its very beginning even in Europe the result of international connections and entanglements Essays are grouped into six thematic sections the political history of middle class formation the impact of imperial rule on the colonial middle class the role of capitalism the influence of religion the obstacles to the middle class beyond the Western and colonial world and lastly reflections on the creation of bourgeois cultures and global social history Placing the establishment of middle class society into historical context this book shows how the triumph or destabilization of bourgeois values can shape the liberal world order The Global Bourgeoisie irrevocably changes the understanding of how an important social class came to be *The First Modern Society* Lawrence Stone, A. L. Beier, 1989-07-06 Intended to celebrate the 70th birthday of the distinguished historian Lawrence Stone these essays owe much to his influence There are also four appreciations by friends and colleagues from Oxford and Princeton and a little known autobiographical piece by Lawrence Stone himself **The Jury in Lincoln's America** Stacy Pratt McDermott, 2012-01-23 In the antebellum Midwest Americans looked to the law and specifically to the jury to navigate the

uncertain terrain of a rapidly changing society During this formative era of American law the jury served as the most visible connector between law and society Through an analysis of the composition of grand and trial juries and an examination of their courtroom experiences Stacy Pratt McDermott demonstrates how central the law was for people who lived in Abraham Lincoln's America McDermott focuses on the status of the jury as a democratic institution as well as on the status of those who served as jurors According to the 1860 census the juries in Springfield and Sangamon County Illinois comprised an ethnically and racially diverse population of settlers from northern and southern states representing both urban and rural mid nineteenth century America It was in these counties that Lincoln developed his law practice handling more than 5 200 cases in a legal career that spanned nearly twenty five years Drawing from a rich collection of legal records docket books county histories and surviving newspapers McDermott reveals the enormous power jurors wielded over the litigants and the character of their communities

Albertanus of Brescia James M. Powell, 2016-11-11 Albertanus of Brescia is an important figure in the cultural history of late medieval and Renaissance Italy He is best known among literary scholars for the influence of his writings on Brunetto Latini John Gower and Geoffrey Chaucer In addition his sermons have received attention as part of the history of lay confraternities and lay preaching in the twelfth and thirteenth centuries James M Powell shows that Albertanus's contributions considerably surpass even these notable attainments Powell contends that Albertanus was an original social theorist who drew on his experience with religious confraternities and with the law to develop a theory of consent Albertanus developed the idea that society rested on voluntary acceptance of a rule much as did religious life This acceptance laid the foundation for social cohesion and legal enforcement Albertanus's ideas were to find great prominence in the later Middle Ages Powell's purpose in writing *Albertanus of Brescia* goes beyond the study of his eponymous subject Through Albertanus Powell examines how major developments of the twelfth century began to find expression in the mind of an early thirteenth century secular thinker In Albertanus Powell perceives an individual bringing received bookish authority into confrontation with lived experience To Powell the example of Albertanus suggests a much more complex picture of medieval approaches to social theory than that previously evident in the literature This is the first book length study of Albertanus and his works It will be of particular interest to students and scholars of medieval Italian intellectual and literary history and political theory

A Half-century of Greatness Frederic Ewen, 2007-09 *A Half Century of Greatness* paints a vivid and dramatic picture of the creative thought of mid to late nineteenth century Europe and the influence of the unsuccessful Revolutions of 1848 It reveals often unexpected links between novelists poets and philosophers from England Germany Austria Hungary Russia and Ukraine especially Dickens Carlyle Mill the Brontës and George Eliot Hegel Strauss Feuerbach Marx Engels Wagner and several German poets the Hungarian poet Sndor Petfi Gogol Dostoevsky Bakunin and Herzen in Russia and the great Ukrainian poet Shevchenko The book was reconstructed and edited by Dr Jeffrey Wollock from Ewen's final manuscript It includes the author's own reference citations throughout a reconstructed bibliography and

an updated further reading list This is Ewen's last work the long lost companion to his *Heroic Imagination* Together these books present a panorama of the social political and artistic aspects of European Romanticism especially foreshadowing and complementing recent work on the relation of Marxism to romanticism Anyone interested in what Lukacs called Romantic anticapitalism who appreciates such books as Marshall Berman's *Adventures in Marxism* 1999 Lwy Sayre's *Romanticism against the Tide of Modernity* 2001 or E P Thompson's *The Romantics* 1997 will find the Ewen volumes a welcome addition

The Bourgeois Epoch Richard F. Hamilton, 2017-10-06 Richard Hamilton provides an in depth critique of the writings of Karl Marx and Friedrich Engels on Britain France and Germany Hamilton contends that the validity of their principal historical claims has been assumed more often than investigated and he reviews the logic of their historical arguments citing relevant sources that challenge many of the assertions they used to build their theory of inexorable historical change Although Marx emphasized the need for systematic empirical research into historical events he and Engels in fact relied on impressionistic evidence to support their claims of how fault lines were forming in capitalist society Marxist theory Hamilton concludes is poorly supported in the historical analysis supplied by its original formulators In showing that the historical record points to alternative readings of the course of social economic and political development in Western society Hamilton argues that class boundaries tend to be fluid and that major change is more often than not the product of evolutionary rather than revolutionary forces Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
